Due to the importance of this project to the economy and referring to the legal advice narrated by (LAM); it seems this project can be extended for the period of one year but TIC has the duty to craft the performance contract and be signed by both parties. (ie ~~ex~~ extension period has to be honoured and executed after approval of performance contract by NISC).
I propose the ExD and management to fast-track this process so that a CoI is extended as early as possible. I humbly submit for your guidance
