Brand of Flexible Packaging Products

09<sup>th</sup> July 2020

The Executive Director  
Tanzania Investment Centre  
9A & B Shaaban Robert Street  
P.O. Box 938  
Dar es Salaam  
Tanzania

Dear Sir,

**Expansion Project on Plot 3&4**

We hereby submit our application for renewal of Certificate of Incentives for the expansion project being undertaken on Plot no. 3&4, Kange Heavy Industrial Area, Korogwe Road, Tanga. The expansion has been planned and is being undertaken to align with the country's vision of exponential Agricultural and Industrialization growth with a specific focus on:

1. PICS Hermetic grain storage bags for smallholder farmers
2. Production of cement bags to meet the growing demand from the cement producers
3. To drive exports of Tanzanian manufactured packaging products into EAC and SADC

The total value of the project being undertaken is US\$ 7.3 million and the project is anticipated to create a minimum of 300 direct jobs as well as multiple indirect opportunities for the company's logistics providers and the countrywide vendor network.

The full project funding has already been secured and as at date, just over 50% of the funds have already been deployed. As indicated in the progress report the company is committed to completing full deployment no later than June 2021.

As indicated in our progress report the project requires specialized wide span buildings and there is currently no local manufacturer for this type of pre-engineered steel structure. Additionally, the machinery being imported from Germany is highly sensitive to power quality and requires us to install backup power that relies on batteries. Thus, we humbly request you to kindly take the same into consideration and grant us partial import duty exemption on the two items.

We look forward to your positive consideration.

Yours sincerely,

For Pee Pee (Tanzania) Ltd
