回复: Proforma invoice of 30units FAW380HP Tractor Truck

Damian Kanuti <dkanuti@pmmicd.com>

Dear Damian

Good evening!

As you know that at beginning of the year, the Corona situation in China was very bad, most of companies were closed down, some of our OEM parts suppliers even closed till May, although we opened slowly, but because of social distance demand, we can not working with full capacity, and it is directly leads to the extension of delivery time.

Another challenge is shipping arrangement, except China, the situation of the world is more worse, and because of this, many ports in the world can not offloading the containers and cargos on time from vessel, because there is no enough people on work, and it leads to fewer and fewer vessels returning to China, and all of our factories have to queue up for booking shipping space.

This year is really special and we are really sorry for the bad situation, everything had to be postponed because of Corona Virus, hopefully things will be back to normal in the year 2021.

Thanks & Best regards

Hyson Yue / 岳喜顺 – Sales Head
