

Ruaha Energy Kilosa Regional Facility Kibaoni – New Kilosa Town

Ruaha Energy is building a Regional Operations Center (“ROC”) in the New Kilosa Town in a 50,000 sq meter campus owned by the Company. The ROC will serve as the Company’s operations, administrative, and staging center for Kilosa on and off-grid projects. Completion of Phase I expected by mid-2020.

Zombo Village Facility

Zombo, Kilosa District

The Zombo mini-grid was launched in December 2016 and is expected to be converted to a 2 MW grid-connected facility in 2021. The facility currently delivers power to Zombo and Ikunga villages, the grid for the third village (Nyali) has been built and will be connected prior to the conversion to a utility scale facility.
