Total Investment		

6. Problem and Solutions

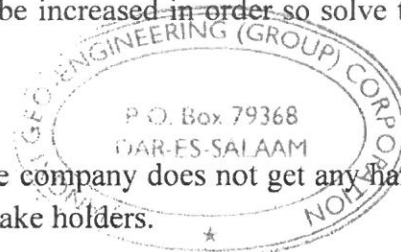

Most of the problem the management encounter in executing the project is the reluctant of some community members to cooperate with the Company therefore as the Company we decided to work hand in hand with the community leaders intensively so as to make sure sure the majority are aware of what the company do to the surroundings.

7. Future Plans

Jiangxi Geo Engineering Company has make sure that for the coming six months project will be approaching to the end and the financial plan to be increased in order so solve the problems financially in a better way.

8. Recommendations

Local leaders should work responsibly to make sure that the company does not get any harm from the Local Community Member as well as other local stake holders.
