6) Problems & Solutions

- a) Major problem we are facing is we are paying vat to TRA on all raw material and Packing Material we purchase and no refund of the vat we can claim as our products are pharmaceutical products, due to this we are getting price variation in the products to compete the local market prices.
- b) We are facing a lot of power failure due to this we need to run the factory on generator which is costing a lot and even the power which we receive also has lot of fluctuations.

7) Future Plan

- a) Generate Local Employment of approx 100 Persons on long term basis
- b) Purchase additional land and construction of our own Factory&ware house by end of 2018 to 2020
- c) Purchase of 4 Nos Transportation Trucks and 6 Nos of Staff cars by 2020
