**RE: LAND ALLOCATION FOR PLOT No 178/1, BLOCK '3',
INDUSTRIAL AREA, MTWARA MUNICIPALITY**

Kindly refer to your letter with Ref. No. LC/SLB/2018 dated 2/2/2018, bearing the above captioned subject. In the said letter you have asked for reactivation of the processes towards finalization of the preparation of the Derivative Right, after being halted since 2014.

Please be informed that the said Derivative Right is ready for signatures by 2 Company Directors and TIC Executive Director. However, before signing your client is required to foot the outstanding Land Rent Arrears for the years 2014/2015 to 2017/2018, the demand notice of which was sent to you vide a letter with Ref. No. TICC/PP.10/042586/22 dated 13/2/2018.

Yours sincerely,
TANZANIA INVESTMENT CENTRE

Dear Sir,

RE: LAND ALLOCATION FOR PLOT NO. 178/1, BLOCK 3, INDUSTRIAL AREA, MTWARA MUNICIPALITY

We act for Schlumberger Seaco Inc. ('Our Client') and are writing further to our letter of 17th January 2018.

As you may recall, Our Client applied for allocation of the parcel of land over Plot No. 178/1, Block 3, Industrial Area, Mtwara. Most of the allocation stages were complete, but the process stalled for reasons relating to Our Client's internal affairs. Our Client has now instructed us to ask your organization to re-activate the process by preparing the derivative rights documents. Once the documents are prepared, please let us know so that we can collect them for signing by Our Client. For the sake of good order, we would like to emphasize that Our Client does not blame Tanzania Investment Centre for causing delays in the allocation process. The delays occurred due to Our Client's internal affairs.

We thank you for your time and efforts that you are taking to consider Our Client's request and are looking forward to hearing from you.

Yours faithfully,

Ngassa Dindi

Dear Sir,

**RE: FINALIZATION OF THE LAND ALLOCATION FOR PLOT NO. 178/1,
BLOCK 3, INDUSTRIAL AREA, MTWARA MUNICIPALITY**

We act for Schlumberger Seaco Inc. ('Our Client') and are instructed to write this letter on its behalf.

As you may recall, Our Client applied for allocation of the parcel of land over Plot No. 178/1, Block 3, Industrial Area, Mtwara. Most of the allocation stages were completed and the next process that is still pending is issuance of the derivative rights by Tanzania Investment Centre. Our Client has instructed us to ask your organization to re-activate the process by preparing the derivative rights documents. Once the documents are prepared, please let us know so that we can collect them for signing by Our Client. For the sake of good order, we are attaching the copies of some of the documents issued in connection with allocation process.

We thank you for your time and efforts that you are taking to consider Our Client's request and are looking forward to hearing from you.

THE UNITED REPUBLIC OF TANZANIA

THE LAND ACT, 1999
(NO. 4 OF 1999)

CERTIFICATE OF OCCUPANCY

(Under Section 29)

Title No. 6804 mtw
L.O. No. 498653
MT/182730

The 19th day of May, Two thousand and fourteen.

THIS IS TO CERTIFY that TANZANIA INVESTMENT CENTRE established under the Tanzania Investment Act No. 26 of 1997 of P.O. Box 938, DAR ES SALAAM (hereinafter called "the Occupier") is entitled to the Right of Occupancy (hereinafter called "the Right") in and over the land described in the Schedule hereto (hereinafter called "the Land") for a term of **Ninety Nine** years from the first day of **January, Two Thousand and Fourteen** according to the true intent and meaning of the Land Act and subject to the provisions thereof and to any regulations made thereunder and to any enactment in substitution thereof or amendment thereof and to the following special conditions:-

1. The Occupier having paid rent up to the thirtieth day of June, 2014; shall thereafter pay rent of shillings **Eight Million One Hundred Ninety Nine Thousand Nine Hundred (Tsh. 8,199,900/=)** only a year in advance on the first day of July in every year of the term without deduction PROVIDED that the rent may be revised by the Commissioner for Lands.
2. The Occupier shall:-
 - (i) Be responsible for the protection of all beacons on the land throughout the term of the Right. Missing beacons will have to be re-established at any time at the Occupier's expenses as assessed by the Director responsible for Surveys and Mapping.

- (ii) Do everything necessary to preserve the environment and protect the soil and prevent soil erosion on the land and do all things which may be required by the authorities responsible for environment and to achieve such objective.
 - (iii) Building shall be in permanent materials.
 - (iv) Building plans to be submitted to the **Mtwara Mikindani Municipal Council** within six months from the commencement of the Right.
 - (v) Building construction to begin within six months after approval of the plans.
 - (vi) Building to be completed within thirty six months from the day of commencement of the Right.
3. The Occupier further:-
- (i) Make and maintain on the land throughout the term adequate arrangements for water supply, drainage and disposal of trade refuse and effluent to the satisfaction of the Authority.
 - (ii) Make and keep all buildings on the land rat-proof and carry out such measures as the Medical Officer of Health for the Authority may require for this purpose;
 - (iii) Provide and maintain on the land such ablution facilities and take and maintain such hygienic measures as may required by the said Medical Officer of Health.
4. **USER:** The land shall be used for **Industrial Service Trade** purposes only Use Group 'M' use classes (a), (b) & (c) as defined in the Town and Country Planning (Use Classes) Regulations, 1960 as **amended in 1993**.
5. The Occupier shall not assign the Right within three years of the date hereof without the prior approval of the Commissioner.
6. The Occupier shall deliver to the Commissioner notification of disposition in prescribed form before or at the time the disposition is carried out together with the payment of all premia, taxes and dues prescribed in connection with that disposition.
7. The President may revoke the right for good cause and in public interest.

MTWARA

YAH: KIWANJA NA. 178/1 KITALU '3' INDUSTRIAL AREA', MANISPAA YA MTWARA MIKINDANI

Mada tajwa hapo juu yahusika.

Kiwanja tajwa hapo juu pamoja na kiwanja Na. 178/2 awali kilikuwa kikifahamika kama kiwanja namba 178 kitalu '3' 'Industrial Area' na kumilikiwa kwa **SAIDI MOHAMEDI SINANI** kwa jina la biashara **AGAM ENTREPRISES** na hati kusajiliwa kwa namba **2942 MTW.** Baadae mmiliki aliamua kuhamisha umiliki wa kiwanja chake kwa **BOUNTRY PROPERTIES LIMITED.**

Mnamo tarehe 01.10.2013 **BOUNTRY PROPERTIES LIMITED** aliamua kuuza sehemu ya kiwanja chake (mita za eneo 27,860) kwa **SCHLUMBERGER SEACO INC.** Hatua hii ilipelekea ulazima wa kugawanya kiwanja kisheria 'subdivision' ili kila kiwanja kiandaliwe nyaraka zake. Zoezi la kugawanya kiwanja lilikamilika na kusajiliwa viwanja viwili ambavyo ni namba 178/1 na 178/2 vikiwa kwenye ramani ya upimaji iliyosajiliwa kwa namba 74597.

Hivyo kiwanja namba 178/1 kitalu '3' 'Industrial Area' kilichouzwa kwa **SCHLUMBERGER SEACO INC** ambayo si kampuni ya kizalendo hivyo kutuhitaji kutangaza kiwanja hiki kwa shughuli za uwekezaji na kuelekeza maombi yao kwenye kamati ya ugawaji ardhi ya Taifa. Kamati iliamua kumilikisha kiwanja hiki **TANZANIA INVESTMENT CENTRE** ambao tuliwaandalia gharama umiliki na kulipia kisha kuandaliwa 'Acknowledgement of Payments' yenye kumb na. MT/182730/3 ya tarehe 28.04.2014.

Hatimaye Hati miliki ya kudumu yenye **L.O. NO. 498653** imeandaliwa ambayo naiwasilisha kwa saini na lakiri yako ili baada ya kusajiliwa kwa jina la **TANZANIA INVESTMENT CENTRE** waweze kutoa '*Derivative Right*' kwa **SCHLUMBERGER SEACO INC.**

Naomba kuwasilisha.

**YAH: PENDEKEZO LA UMILIKISHAJI WA ARDHI KWA
MWEKEZAJI - KIWANJA NA.178/1 KITALU '3' ENEO LA VIWANDA
MTWARA YENYE JUMLA YA UKUBWA WA MITA ZA MRABA 27,333
KATIKA HALMASHAURI YA MANISPAA YA MTWARA.**

Tafadhali husika na kichwa cha habari hapo juu.

Tumepokea maombi ya umilikishaji ardhi yenye ukubwa wa mita za mraba 27,333 kutoka Halmashauri ya Manispaa ya Mtwara kutoka kampuni ya **SCHLUMBERGER SEACO INC** kwa ajili ya uwekezaji na kwa matumizi ya kiwanda. Uwekezaji huo unakusudiwa kufanywa katika kiwanja Na.178/1 Kitalu '3' eneo la Viwanda katika halmashauri ya Manispaa ya Mtwara.

Awali eneo hili lilikuwa linamilikiwa na **Bountry Properties Limited** wa S. L. P 3978 Dar es salaam kwa hati iliyosajiliwa kwa Na. 2942MTW yenye kiwanja Na. 178 Kitalu "3" eneo la Viwanda Manispaa ya Mtwara. Bountry Properties Limited waliamua kuuza sehemu ya kiwanja hicho yenye ukubwa wa mita za mraba 27,333 kwa kampuni ya **SCHLUMBERGER SEACO INC** kabla ya kufanya 'sub division'. Tarehe 11 Novemba 2013 **Bountry Properties Limited** walirejesha milki yao (surrender) kwa ajili kufanya 'sub division', na baada ya taratibu kukamilika mchoro huo ulipata kibali cha Mkurugenzi wa upimaji na ramani kwa Na. 74597 wenye viwanja Na. 178/1 na 178/2 Kitalu "3" eneo la Viwanda Manispaa ya Mtwara. Hivyo, baada ya upimaji eneo walilouziwa kampuni ya **SCHLUMBERGER SEACO INC** ni kiwanja Na. 178/1 Kitalu "3" eneo la Viwanda Manispaa ya Mtwara. Malipo stahili ya uhamisho wa milki yamefanyika.

Kwa mujibu wa fungu la 12 la Sheria ya Ardhi Na.4 ya 1999 pamoja na Kanuni zake - Kanuni ya 9 'C', ugawaji wa ardhi kwa ajili ya uwekezaji kupitia kituo cha uwekezaji Tanzania (TIC) utafanywa na Kamati ya Ugawaji Ardhi ya Kitaifa. Kwa kuzingatia takwa hilo la kisheria, nawasilisha ombi hilo kwako kwa hatua zaidi.

Pamoja na barua hii nimeambatanisha vielelezo vifuatavyo:

- Nakala ya Memorandum & Article of Association ya **SCHLUMBERGER SEACO INC** iliyothibitishwa kama nakala halisi.
- Nakala ya Cheti cha Usajili cha Kampuni (*Certificate of Incorporation*) iliyothibitishwa kama nakala halisi.
- Nakala ya Hati za kusafiria za Wakurugenzi (*Passport*) zilizothibitishwa kama nakala halisi.
- Nakala ya cheti cha uwekezaji (*Certificate of Incentives*).
- Ramani ya upimaji wa eneo husika iliyosajiliwa kwa namba 74597.

Nawasilisha.

TAARIFA YA KAWAIDA NA. 215

YAH: ADA ZA MATUMIZI YA MAJI NA ADA NYINGINE ZITAKAZOTOZWA NA BODI YA MAJI YA
BONDE LA KATI KATIKA KIPINDI CHAMPITO
Sheria ya Maji Namba 11 ya Mwaka 2009
KIFUNGU CHA (96)

Ada za Matumizi ya Maji na Ada nyingine zinazotowza na Bodi za Maji za Mabonde ziliwekwa kwa mujibu wa Kifungu Na. 38 (2) cha Water Utilization Act Na. 42 ya mwaka 1974 na marekebisho yake ya mwaka 2002 na kutangazwa katika Gazeti la Serikali Na. 256 la tarehe 21 Juni, 2002. Hadi sasa imepita zaidi ya miaka 10 tangu viwango hivyo vya ada vilipoanza kutumika. Kutokana na kuongezeka kwa gharama za usimamizi, uratibu na uendelezaji wa Rasilimali za Maji, kiwango cha ada zinazotowza na Bodi ya Maji ya Bonde la Kati kwa sasa hazitoshi kuchangia katika kuboresha huduma ya maji na kusimamia matumizi bora ya rasilimali hii muhimu, kuelimisha watumiaji wa maji kuhusu Sheria ya Maji na hifadhi ya mazingira.

Bodi ya Maji ya Bonde la Kati kwa mamlaka iliyopewa chini ya Sheria ya Usimamizi wa Rasilimali za Maji Namba 11 ya Mwaka 2009 Kifungu cha (96) inatangaza viwango vipya vya ada za matumizi ya maji na ada nyingine. Viwango hivi vimeandaliwa kwa kuzingatia muongozo wa Wizara ya Maji na vitatumika katika kipindi cha mpito hadi hapo Wizara ya Maji itakapotoa maelekezo mengine ya kupanga viwango halisi vya kutumika. Kutangazwa kwa viwango hivi vya ada za matumizi ya maji na ada nyingine kunafuta ada za viwango vya zamani vilivyotangazwa kwenye Gazeti la Serikali Na. 256 la tarehe 21 Juni, 2002. Viwango vinavyotangazwa vimeorodheshwa hapa chini kama vilivyoidhinishwa na Wizara ya Maji.

ADA ZA MPITO ZA MATUMIZI YA MAJI NA ADA NYINGINE ZITAKAZOTOZWA NA BODI YA MAJI YA
BONDE LA KATI KUANZIA JULAI 1, 2013

Item No.	Matter	Current fees in Tshs	Proposed fees in Tshs
A.	APPLICATION FEES		
1.	Water use Permit Application for Domestic/Livestock/Small Scale Irrigation/Fish Farming	40,000.00	60,000.00

KAMISHNA MSAIDIZI WA ARDHI,

KANDA YA KUSINI,

S.L.P. 877

MTWARA

YAH: KIWANJA NA. 178/1 KITALU '3' INDUSTRIAL AREA', MANISPAA YA MTWARA MIKINDANI

Mada tajwa hapo juu yahusika.

Kiwanja tajwa hapo juu pamoja na kiwanja Na. 178/2 awali kilikuwa kikifahamika kama kiwanja namba 178 kitalu '3' 'Industrial Area' na kumilikiwa kwa **SAIDI MOHAMEDI SINANI** kwa jina la biashara **AGAM ENTREPRISES** na hati kusajiliwa kwa namba **2942 MTW.** Baadae mmiliki aliamua kuhamisha umiliki wa kiwanja chake kwa **BOUNTRY PROPERTIES LIMITED.**

Mnamo tarehe 01.10.2013 **BOUNTRY PROPERTIES LIMITED** aliamua kuuza sehemu ya kiwanja chake (mita za eneo 27,860) kwa **SCHLUMBERGER SEACO INC.** Hatua hii ilipelekea ulazima wa kugawanya kiwanja kisheria 'subdivision' ili kila kiwanja kiandaliwe nyaraka zake. Zoezi la kugawanya kiwanja lilikamilika na kusajiliwa viwanja viwili ambavyo ni namba 178/1 na 178/2 vikiwa kwenye ramani ya upimaji iliyosajiliwa kwa namba 74597.

Hivyo kiwanja namba 178/1 kitalu '3' Industrial Area' kilichouzwa kwa **SCHLUMBERGER SEACO INC** ambayo si kampuni ya kizalendo hivyo kutuhitaji kutangaza kiwanja hiki kwa shughuli za uwekezaji na kuelekeza maombi yao kwenye kamati ya ugawaji ardhi ya Taifa. Kamati iliamua kumilikisha kiwanja hiki **TANZANIA INVESTMENT CENTRE** ambao tuliwaandalia gharama umiliki na kulipia kisha kuandaliwa 'Acknowledgement of Payments' yenye kumb na. MT/182730/3 ya tarehe 28.04.2014.

Hatimaye Hati miliki ya kudumu yenye **L.O. NO. 498653** imeandaliwa ambayo naiwasilisha kwa saina na lakiri yako ili baada ya kusajiliwa kwa jina la TANZANIA INVESTMENT CENTRE waweze kutoa '*Derivative Right*' kwa **SCHLUMBERGER SEACO INC.**

Naomba kuwasilisha.

YAH: ARDHI YA UWEKEZAJI KWA KAMPUNI YA SCHLUMBERGER SEACO INC

Tafadhali rejea barua yako yenye kumb. Na. SAB. 567/668/01/12 ya tarehe 20/3/2014 yenye somo hapo juu. Aidha katika barua hiyo ulitaka kujua hatua iliyofikiwa katika utekelezaji wa suala hili.

Ninapenda kukujulisha kuwa, hadi kufikia tarehe ya barua hii mambo yafuatayo yamefanyika:

- i) Ardhi husika imeainishwa na kutangazwa kwenye Tangazo la Serikali Namba **213** la tarehe 14/2/2014, kuwa ni ya uwekezaji. Hii ni kwa mujibu wa Sheria ya Ardhi Na. 4, 1999 Fungu la 20(2).
- ii) Tarehe 11/3/2014 TIC ilipokea hati ya malipo kwa ajili ya maandalizi ya kiwanja husika. Aidha, tarehe 20/3/2014 TIC ilimwandikia mwekezaji ili afanye malipo hayo ambayo ni shilingi **82,328,939.00**.
- iii) Hadi sasa TIC inasubiri mwekezaji afanye malipo hayo ili taratibu zingine za umilikishaji ardhi zifuate.
- iv) Baada ya malipo kufanyika Hati itaandaliwa na Wizara ya Ardhi. Tayari Mkurugenzi Mtendaji wa TIC amefanya mawasiliano na Kamishna wa Ardhi na amekubali kusimamia uharakishwaji wa maandalizi ya Hati hiyo, ili hatimaye Kampuni ipewe Hati isiyo asili (Derivative Right) .

Nawasilisha kwako kama ulivyoagiza.

Wako katika ujenzi wa Taifa.

**YAH: ARDHI YA UWEKEZAJI KWA KAMPUNI YA
SCHILUMBERGER SEACO INC.**

Tafadhali rejea barua yako Kumb. Na. TCC/PP.10/042586/9 ya tarehe 30 Januari, 2014 yenye somo hapo juu.

2. Katika barua yako uliambatanisha ratiba ya maoteo ya muda wa kushughulikia utoaji wa Hati isiyo asili kwa mwekezaji kwakuwa si raia wa Tanzania. Nina imani kuwa ratiba yako ilizingatia Mpango kazi wa Taasisi yako na hivyo utekelezaji wake ni bayana.
3. Nimeagizwa na Katibu Mkuu Kiongozi kukutaarifu kwamba, kwa kuwa ni muda mrefu umepita angependa kujua hatua iliyofikiwa katika utekelezaji wa suala hili. ili kuepusha taifa kuendelea kukosa mapato kwa mwekezaji kuchelewa kuanza kufanya uwekezaji.

Nashukuru kwa ushirikiano wako.

Dar es Salaam.

YAH: KIWANJA NA. 178/1 KITALU '3' ENEO LA VIWANDA-MANISPAA YA MTWARA MIKINDANI.

Tafadhali husika na kichwa cha habari hapo juu.

Hii ni kukufahamisha kuwa Kampuni ya **SCHLUMBERGER SEACO INC** ya P.O.Box 60081, Dar es Salaam imeomba kiwanja tajwa kutoka Halmashauri ya Manispaa ya Mtwara Mikindani. Ombi hili limekubaliwa baada ya wahusika kufanya mauziano na kulipia tozo stahili Serikalini na taratibu za kurejesha milki kukamilishwa na kiwanja kubaki huru.

Hata hivyo, kwa kuwa Kampuni hii ni ya kigeni haiwezi kuandaliwa haki ya milki ya ardhi ya asili (right of Occupancy), Ofisi yetu imeandaa Fomu ya Ardhi Na.1 chini ya Fungu la 20 la sheria ya Ardhi Na.4 ya 1999 kwa hatua stahili. Pamoja na barua hii nawasilisha:-

- Fomu ya Ardhi Na.1
- Certificates of Incorporation.
- Nakala iliyothibitishwa kama nakala halisi ya Memorandum and Articles of Association

YAH: ARDHI YA UWEKEZAJI KWA KAMPUNI YA SCHLUMBERGER SEACO INC

Tafadhali husika na Kichwa cha barua tajwa hapo juu

Schlumberger Seaco Inc ni Kampuni ya Kigeni iliyosajili mradi wake na Kituo cha Uwekezaji na Kupatiwa Cheti cha vivutio vya Uwekezaji chenye namba ya Usajili 042586. Kampuni hii inawekeza katika Mradi mkubwa wa Matengenezo na uhuishaji wa vifaa vinavyo tumiwa na Makampuni yaliyowekeza katika Utafiti na Uchimbaji wa Mafuta na Gesi Tanzania.

Mradi huu unakusudiwa kutekelezwa katika Kiwanja namba 178/1 Kitalu '3' kilichopo Mtaa wa Viwanda Manispaa ya Mtwara. Mpaka sasa Mwekezaji amekwisha nunua Kiwanja hiki na ameiomba Manispaa ya Mtwara impatie Hati ya Umiliki. Kwa kuwa Kampuni hii ni ya Kigeni, Manispaa ya Mtwara kupitia barua yake ya tarehe 16/12/2013 imeleta maombi ya hati ya umiliki Kituo cha Uwekezaji ili kifanye utaratibu wa Kumpatia Mwekezaji hati isiyo Asili (Derivative Right).

Kwa sasa hivi tunasubiri Kamishina Msaidizi wa Kanda ya Kusini atutumie fomu halisi ya Ardhi Na. 1 ili umilikishwaji wa ardhi kwa Mwekezaji huyu uendelee na amehaidi kuileta ifikapo tarehe 5/2/2014.

Pia Mwekezaji huyu anatafuta eneo la Uwekezaji lililo karibu na bandari ya Mtwara lilipo chini ya Mamlaka ya Maeneo Tengefu ya Ukanda huru ya Uwekezaji. Suala hili linashughulikiwa na Mamlaka ya Maeneo Tengefu ya Ukanda huru ya Uwekezaji (EPZA).

Kulingana na utaratibu uliopo wa kutoa Hati isiyo asili kwa wawekezaji tumeandaa jedwali lenye ratiba ya maoteo ya muda kwa hatua zilizobaki za kukamilisha upatikanaji wa hati isiyo asili (Derivative Right) kwa kiwanja namba 178/1 Kitalu 3 ambapo hati isiyo asili inatarajiwa kutolewa tarehe 02 Juni, 2014

	Hatua	Muda	Kuanza	Kukamilika	
1.	Kiwanja kutangazwa kwenye Gazeti la Serikali kwa ajili ya Uwekezaji	Siku 30	05/02/2014	05/03/2014	
2.	Kikao cha Kamati ya Kugawa Ardhi ngazi ya Taifa kujadili maombi ya Kampuni			Kikao cha kamati kinachofuata kikatarajia kukaa 24/04/2014	Kamati imeweka utaratibu wa kikao kimoja kila baada ya miezi 3. Kikao kilichopita kilikuwa 24/01/2014
3.	Kamishina Msaidizi wa Ardhi Kanda ya Kusini kuandaa makadirio ya malipo ya kuandaa hati katika kiwanja husika	Siku 14 baada ya Kikao cha kamati ya kugawa ardhi	26/04/2014	06/05/2014	
4.	Hati kuandaliwa na kusajiliwa kwa jina la Kituo cha Uwekezaji	Siku 14	08/05/2014	22/05/2014	
	Kituo cha Uwekezaji Kuandaa na Kumpatia Mwekezaji Hati isiyo Asili (Derivative Right)		26/05/2014	02/06/2014	

Ninawasilisha kwako kwa taarifa, wako katika Ujenzi wa Taifa.

RE: CERTIFICATE OF INCENTIVES FOR FABRICATION AND REPAIR FACILITY FOR OILFIELD SERVICES TOOLS AND EQUIPMENTS

We wish to acknowledge receipt of your project proposal to establish and operate fabrication and repair facility for oilfield services tools and equipments as presented in the TIC P.A. 1 Form No. 10646 and Feasibility Study with a projected investment amounting to USD 17 m.

We are pleased to inform you that your investment proposal is now officially registered by TIC and therefore the project will be granted a Certificate of Incentives under authority conferred upon TIC under Part III, Section 17 (1-8) of the Tanzania Investment Act, 1997. In order to enable TIC prepare your Certificate of Incentives, You will be required to submit the following:-

- Bank Reference for equity funding or a letter from Bank/Financial Institution that a loan is granted or is under consideration as required by Section 17(3) (f) of Tanzania Investment Act.
- Certified document showing evidence of Land ownership for the location of the project

Also be informed that you will have to submit a project implementation Progress Report on the implementation of the project in every six months for centre's information and review. Guidelines for the preparation of the report are contained in annexure attached to this letter. Please do not hesitate to contact the Centre for any clarification if the need arises. Also note that a facilitation fee equivalent to US\$ 1000.00 is payable at the ruling exchange rate prior issuance of the Certificate of Incentives. Please make deposit direct to the bank as per bank details below:

1. EXECUTIVE SUMMARY

1.1 Introduction

In recent years, there has been increase in deep sea oil and gas exploration activities in Tanzania. Oil and Gas companies are taking a greater interest in participation in exploration activities in Tanzania's oil and gas industry. To attract such companies and ensure rapid growth in Tanzania's oil and gas reserves, there is a need to manage the supply chain of oilfield services and oil and gas equipment to ensure reduction in repairs and maintenance costs.

Schlumberger is a global oilfield technology, project management and information solutions company and provides fabrication, repairs and maintenance services to increase the life, integrity and reliability of drilling tools and equipment. We have in various countries, repair facilities (including machine shops) for the provision of inspection and repair services to extend the life of specific drilling tools and equipment.

We have identified that there are currently no specialized fabrication and repair facilities for the inspection and repair of tubular products and downhole tools and equipment in Tanzania. This has resulted in the export of highly specialize drilling tools for repairs outside Tanzania resulting in loss of foreign exchange and increased lead times in the completion of projects. Therefore, we will like to invest in the set-up of specialized fabrication and repair facilities in Tanzania.

1.2 Project Objective

The proposed fabrication and repair facility (including machine shop) will facilitate the provision of specialized inspection and repairs services to oil and gas companies operating in Tanzania. This will enable us expand our services in Tanzania and increase local employment opportunities.

In addition, the facilities will enable various companies (including service companies) operating in Tanzania's oil and gas industry reduce the lead time in completion of projects by avoiding the requirement to re-export tools and equipment to other countries for repairs.

1.3 Project Promoters

Schlumberger is the sole promoter of the repair facility (including machine shop). Schlumberger is the world's leading supplier of technology, integrated project management and information solutions to the international oil and gas exploration and production industry. We supply a wide range of products and services including seismic acquisition and processing, drill bits and drilling fluids, directional drilling and drilling services, formation evaluation and well testing, well cementing and stimulation, artificial lift and well completions, and consulting, software and information management. In addition, Schlumberger provides inspection and repairs services to various companies (including service companies) operating in the oil and gas industry.

2. COMPANY PROFILE

2.1 General Information

Founded in 1962, Schlumberger Group (hereinafter referred to as Schlumberger) is a global oilfield technology, project management and information solutions company committed to providing services that enhance and optimise reservoir performance for companies working in the oil and gas industry. We are the world's leading oilfield services company trusted to deliver superior results and improved exploration and production performance for oil and gas companies operating around the world. Having invented wireline logging as a technique for obtaining downhole data in oil and gas wells, Schlumberger today provides the industry's widest range of products and services from exploration through production. Such products and services ranges from seismic acquisition and processing, drill bits and drilling fluids, directional drilling and drilling services, and formation evaluation and well testing to well cementing and stimulation, artificial lift and well completions, and consulting, software and information management.

Through our well site operations and our research and engineering facilities, we continue to work to develop cutting edge and superior products, services and solutions that optimize customer performance in a safe and environmentally sound manner. To deliver this value to our customers, we capitalise on our global culture, deep understanding of client workflows and processes and extensive experience in developing and deployment of innovative technology solutions.

With a global network of research & manufacturing facilities all over the world, Schlumberger invests significant resources and money in advanced research and engineering activities that enables the company provide innovative and high end technology to develop new advancements from reservoir to 3surface. The deployment of real time, high end, technology and solutions goes a long way in enhancing oilfield efficiency, lower finding and producing costs, improve productivity, maximize reserve recovery and increase asset value. This mitigating some of the risks associated with investment in oil exploration and development activities, especially with regards to deep offshore projects.

Schlumberger operates in each of the major oilfield service markets, managing its business through three Groups: Reservoir Characterization, Drilling and Reservoir Production. Each Group consists of a number of technology-based service and product lines, or Technologies. These Technologies cover the entire life cycle of the reservoir and correspond to a number of markets in which Schlumberger holds leading positions. Schlumberger currently employs over 113,000 people of more than 140 nationalities, working in approximately eighty-five (85) countries.

We currently operate in Tanzania as Schlumberger Seaco Inc, a company incorporated under the laws of Panama in 1947. On 8 July 2009, Schlumberger Seaco Inc registered a branch in Tanzania with its address at:

Schlumberger Seaco Inc
Pemba House, Toure Drive
Oysterbay
Dar Es Salaam
Telephone: +255 767 129 883
Web Site: www.slb.com

2.2 Executive Officers of Schlumberger Limited

The current executive officers of Schlumberger Limited, the ultimate parent company of Schlumberger Seaco Inc, are as follows:

<u>Name</u>	<u>Current Position</u>
Paal Kibsgaard	Chairman and Chief Executive Officer
Simon Ayat	Executive Vice President and Chief Financial Officer
Jean-Francois Poupeau	Executive Vice President
Alexander Juden	Secretary and General Counsel
Ashok Belani	Executive Vice President Technology
Stephanie Cox	Vice President Personnel
Mark Danton	Vice President - Director of Taxes
Aaron Gatt Floridaia	President Reservoir Characterization Group
Howard Guild	Chief Accounting Officer
Khalid Mugharbel	President Drilling Group
Patrick Schorn	President Operations & Integration.
Krishna Shivram	Vice President & Treasurer
Sherif Foda	President Reservoir Production Group
Malcolm Theobald	Vice President Investor Relations

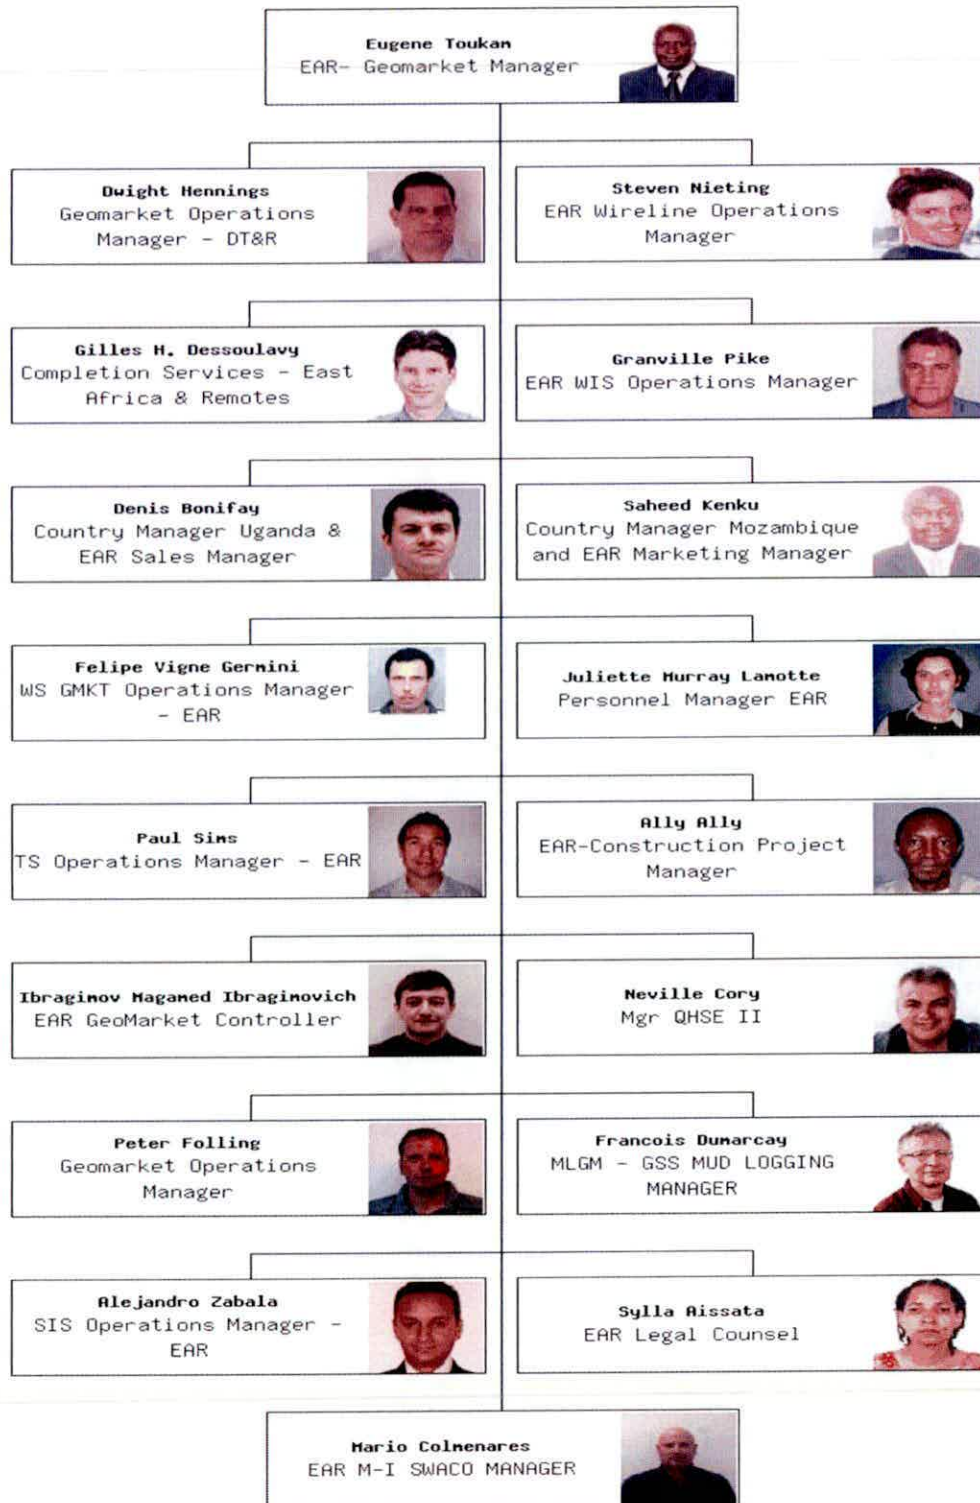

2.3 Schlumberger Limited Shareholders Information

As of 31 December 2011, Schlumberger Limited had 23,719 shareholders on record. Note that Schlumberger Limited's shares are traded on the New York Stock Exchange, which forms to the principal market for Schlumberger's shares in the United States. In addition, Schlumberger's shares are traded on other exchanges including Euronext Paris, the London Stock Exchange and the SIX Swiss Exchange. Therefore, Schlumberger Limited's Shares are owned by various individuals/organizations of different nationalities. Schlumberger Seaco Inc is a wholly owned subsidiary of Schlumberger Limited. Schlumberger Limited is registered in Curacao and has principal executive offices at the following addresses:

- France: 42 rue Saint-Dominique, Paris
- United States: 5599 San Felipe, 17th Floor, Houston, Texas
- Netherlands: Parkstraat 83, The Hague

Kindly refer to Schlumberger Limited's attached 10K Statement for the period ended 31 December 2011 (see Appendix 6) for further information on the company's shareholding and significant subsidiaries.

2.4 Overview of Schlumberger Tanzania Branch Management

3. DESCRIPTION OF THE PROPOSED INVESTMENT

3.1 ACTIVITIES TO BE PERFORMED

Schlumberger, intends to set-up a fabrication and repair facility (including machine shop) in Tanzania to provide the following services.

3.1.1 Inspection Services

Periodic drillpipe inspection, inspection of drill collars, subs, and other drilling tools is essential in preventing downhole failures. Using the latest nondestructive testing (NDT) equipment, qualified DRILCO personnel offer a full range of drilling rig inspection services that include a variety of third-party standards. This includes:

- API/RSC thread inspection (API-TI)
- Dimensional inspection (DI)
- Visual inspection (VT)
- Magnetic particle (MT)
- Liquid dye penetrant (PT)
- Electromagnetic tubular inspections (ET-MFL)
- Ultrasonic inspection of rotary-shouldered connections (UT-RSC)
- Ultrasonic inspection of high-stress areas and tube upsets (UTEA)

The above services can be performed through Field Inspection and In-shop Inspection services. In addition, as part of the In shop Inspection services to be provided at the proposed Machine Shop, we can also provide full-length ultrasonic inspection (FLUT) and full-length dual-function electromagnetic inspection (EMI) services.

3.1.2 Machine Shop Services

All machine shop services are provided by qualified DRILCO personnel. Highly trained and experienced machinists ensure that each job is done to API standards. These services include:

- *Tubular repairs, stub welding, tool joint buildup, hardbanding, & straightening* - Connection recuts are the most common type of tubular repair; we remove the minimum amount of material required to ensure a full repair. We are also licensed to recut proprietary connections from many other major manufacturers of tubular products.

The most common cause of failure or damage of rotary-shouldered connections is insufficient torque applied during makeup. To reduce stress on the connection, an API stress-relief groove and bore back box can be machined, while fatigue life can be increased with cold-working. We also offer kemplating, the application of a phosphate coating that provides a barrier between the metallic surfaces of the pin and box.

Tool joint buildup is an industry-accepted procedure to extend the service life of drillpipe and Hevi-Wate transition drillpipe. Tool joints that meet minimum length and diameter criteria can be professionally restored to their original OD.

- *Stub-welding (stubbing) ends on drill collars and specialty tools* - When drillstem members become too short through repeated reworking of connections, box-weak from OD wear, or pin-weak from ID wear, they can be put back into service by stub-welding new material to the ends of the worn tools and cost-effectively restoring the physical dimensions. This process is called stubbing.
- *Rotary kelly repair* – This includes repair of the following conditions; connection damage, crookedness (in most cases, a bent kelly can be straightened using a hydraulic straightener) and rounded drive corners (these can be repaired by reversing the ends or remachining the drive flats to a smaller, non-API size).
- *Hardbanding* - The quality application of hardband provides OD wear protection on drill collars, drillpipe, heavy-wall drillpipe, and other tools used in drilling applications. Granular tungsten carbide or a selection of other casing-friendly hardband materials can be used.
- *Straightening* - Bent tubular products and drilling tools can cause premature wear and subsequent failure of BOP equipment, and drillstring and BHA members. Drillpipe, drill collars, Hevi-Wate transition drillpipe, and rotary kellys can be straightened.
- *Makeup and breakout* - Makeup and breakout services help improve rig economics by allowing drillpipe to be shipped in preassembled double lengths, reducing rig time spent on making up or breaking connections. In addition, we can break in rotary-shouldered connections in a controlled environment, ensuring reliable onsite performance.
- Other services include Drill collar spiralling, Turning drill collar OD, Manufacturing and repairing crossover subs, pup joints, and saver subs, Repairing downhole tools, Redressing and repairing stabilizers and other repairs of drilling tools and equipment.

3.2 MARKET ANALYSIS

Based on discussions with oil and gas companies and our practical experience, we have identified that there will be demand for the provision of specialized fabrication, repair and maintenance services by reputable companies with world class machine shops (or repair facilities in Tanzania). This will enable oil and gas companies reduce the cost of their operations since such services are currently provided outside of Tanzania resulting in significant lead time in projects and additional freight and logistics costs.

3.3 LOCATION

We intend to locate the machine shop (or repair facility) in Mtwara Region due to its proximity to the location of the projects executed by oil and gas services companies operating in Tanzania.

In addition, we intend to locate some of our senior managers that will be involved in marketing, business development and administrative functions in Dar Es Salaam where the head office of most of the oil and gas companies that are our target customers are located.

3.4 MAIN FACILITIES TO BE CONSTRUCTED, MACHINERY, EQUIPMENT AND CIVIL WORKS

The base will include the following facilities:

- Storage/Warehouse
- Workshops facilities, buildings, civil works and accessories
- Internal access Road
- Calibration Bay
- Parking
- Wash & PT Bay
- Main Office and Portable Office Blocks
- Materials and consumables
- Utility Services
- Specialized repair Machines
- Material Handling Equipment
- Generators and forklifts
- Furniture fixtures and Fittings
- Vehicles
- Guard House and Drivers Room

3.5 PROPOSED IMPLEMENTATION SCHEDULE

We envisage the following timelines for implementation of the business proposal following receiving approval by the Tanzania Investment Centre.

Year	Phase
within first year following approval	- Purchase of land, plot no. 178, block 3, Mtwara industrial area, Mtwara municipality for construction of Schlumberger base facilities including the Machine Shop and other facilities

within two to three years following approval	<ul style="list-style-type: none"> - Finalise construction of machine shop and other facilities - Importation and Installation of required equipment and technologies for provision of the intended services - Recruitment of specialised technical personnel required for provision of the services - commission the new facilities and commencement of services
--	---

3.6 CAPITAL REQUIREMENT

For purchase of land in Mtwara and construction of the base facilities in Mtwara, we estimate total capital requirement of about \$17 Million United States Dollars. This is split between land acquisition (\$2.5M), construction (\$2.5M), purchase/importation of required equipment (\$3.5M), furniture & fillings (\$1M) and working capital (\$7.5M).

3.7 SOURCE OF CAPITAL

The above investment will be funded through a mix of cash inflow and equipment to be imported into Tanzania. The entire project will be supported by funds received from our parent company. Kindly refer to Appendix 6 (Schlumberger Limited 2012 Financial Statement) for an overview of our company's capital strength, asset base and liquidity position.

4 EMPLOYMENT PROJECTIONS

Schlumberger is a global oilfield technology, project management and information solutions company committed to providing services that enhance and optimize our customers' performance.

In Schlumberger, we believe that the creativity, energy and expertise of our people is the foundation on which we build our success. Therefore, our ability to attract, develop, motivate and retain outstanding individuals is essential to the future of our business.

Line Management and the Personnel Function are responsible for supporting our people and inspiring them through effective leadership, based on the following Personnel Principles:

- Recruit where we work
- Promote diversity of nationality, culture, gender and thought
- Train and develop people continuously throughout their careers
- Manage by objectives
- Promote from within, based on performance and potential
- Offer borderless career opportunities
- Respect and care for individuals and their families
- Offer a competitive compensation and benefits package

These are the underlying principles that have helped to shape our company culture and which create limitless opportunities for personal growth. It is the combined offering of these elements that makes every career with Schlumberger a unique and highly rewarding experience

Schlumberger currently employs about 156 Tanzanians in the supply of various oilfield services and products to customers in Tanzania. In addition, we also engage the services of Manpower Agencies to provide Tanzanian nationals for short-term or temporary labor requirements.

We envisage that the base facilities will accommodate about 200 people, in the next 3-5 years, out of which a significant percentage is expected to be Tanzania nationals. In addition, the facilities will provide further avenues for the training and development of Tanzanian nationals; this will provide long term benefits for the development of Tanzania's Oil and Gas Industry.

5 ECONOMIC BENEFITS

We expect that Schlumberger's base facility in Mtwara will act as a catalyst for other service companies operating in Tanzania's Oil and Gas industry to seek to invest since the facility will not only guarantee the availability of reliable repair/maintenance facility but minimize the cost of exporting the equipments to South Africa or Europe for such services. This will enable such companies take advantage of proximity to Schlumberger's warehouse/storage and basic maintenance facilities enabling Tanzania increase the number of investors and spectrum of activities performed within the base.

In addition, the facilities will enable us expand our capacity to provide basic maintenance, repairs, cleaning and assembly services for oilfield technical equipment to customers operating in the Oil and Gas industry in Tanzania and other East Africa countries. This will generate export revenues in Tanzania and increase Government's tax collection.

Also, as earlier explained, our proposed facilities will accommodate about 200 people, out of which a significant percentage is expected to be Tanzania nationals in the next 3-5 years. This will facilitate local technology transfer and employment opportunities for Tanzanians.

In addition, our investment will be funded through a mix of cash inflow and equipment to be imported into Tanzania. Tanzania will, therefore, benefit from the inflow of funds by Schlumberger since this will stimulate the banking system and facilitate the provision of local loans.

Lastly our increased presence in Mtwara region will stimulate local economic activities due to a larger presence of our employees in the region.

6. FINANCIAL ANALYSIS

6.1 INCOME

The proposed project will generate income through the provision of specialized inspection, and repairs services to oil and gas companies (including oilfield services contractors) operating in Tanzania.

The total estimated revenue of Schlumberger Seaco Inc – Tanzania branch from all activities for the next 3-5 years is estimated as follows:

2014	2015	2016	2017	2018
\$104.5M	\$109.7M	115.2M	\$121.0M	\$127.0M

The above figures assume 5% YoY growth in the level of activities up to 2018 FY.

6.2 OPERATING EXPENSES

This includes (a) Compensation of all personnel involved in the provision of Services, (b) Depreciation of facilities, (c) Utilities, (d) Repairs & Maintenance Costs, (e) Office Running Costs, e.t..c.

The total estimated operating costs of Schlumberger Seaco Inc – Tanzania branch from all activities for the next 3-5 years is estimated as follows:

2014	2015	2016	2017	2018
\$81.6M	\$84.9M	\$88.3M	\$91.8M	95.5M

6.3 NET INCOME STATEMENT

The estimated profitability of Schlumberger Seaco Inc – Tanzania branch from all activities for the next 3-5 years is estimated as follows:

2014	2015	2016	2017	2018
\$22.9M	\$24.8M	\$26.9M	\$29.2M	\$31.5M

6.4 CASHFLOW

The project's cash flow is impressive as the need for external assistance (through funding from our head office) arises only in the implementation stage of the project investment.

From 2014 onwards, we estimate that Schlumberger Seaco Inc – Tanzania branch will generate positive cash inflow in excess of \$15M per annum.

SECRETARY'S CERTIFICATE

The undersigned Ivana Vuckovic, Assistant Secretary of **SCHLUMBERGER SEACO, INC.**, a company organized and existing under the laws of the Republic of Panama (the "Corporation"), having its registered office at 8 Calle Aquilino de la Guardia, Panama City, Panama does hereby certify as follows:-

1. She is a duly qualified and elected Assistant Secretary of the Corporation and this appointment has not been rescinded or revoked;
2. Following is a verbatim text of the resolutions adopted by the Board of Directors in lieu of an annual meeting on September 10, 2013:

"ESTABLISHMENT OF INSPECTION, REPAIRS AND MAINTENANCE FACILITY FOR OILFIELD SERVICES TOOLS AND EQUIPMENT IN TANZANIA

WHEREAS, Branch of Schlumberger Seaco, Inc. registered in Tanzania, wishes to establish a specialized facility for the inspection, repairs and maintenance of oilfield services tools and equipment located in Tanzania.

THEREFORE BE IT.

RESOLVED, that to accommodate the inspection, repairs and maintenance facility, the purchase of the land measuring 26,281 sqm to be sub-divided from parcel of land comprised in Certificate of Title No. 2942 Mtwara, Plot No. 178, Block 3, Mtwara Industrial Area, Mtwara Municipality, Tanzania from Bounty Properties Limited, for the Purchase Price of US\$ 2,500,000.00 (two million and five hundred thousand US dollars), be and is hereby confirmed and approved.

*RESOLVED, that **Eugene TOUKAM**, holder of the Belgian passport nr. EH918364, be and is hereby authorized to take all steps and to enter, sign, execute and deliver all documentation as may be necessary or advisable to complete such purchase on the Corporation's behalf, and in the Corporation's name including, but not limited to signing, executing and delivering Purchase Agreements.*

FURTHER RESOLVED, that the funds for this purchase shall be provided by the Corporation's head office.

RESOLVED, that any action taken by Eugene Toukam, prior to these resolutions in relation to above matter, be and it hereby is approved and ratified."

Such resolution has not been rescinded or amended and is now in full force and effect.

IN WITNESS WHEREOF, the undersigned has hereunto set her hand and caused the Corporation seal to be hereunto affixed on this 16th day of September 2013.

POWER OF ATTORNEY

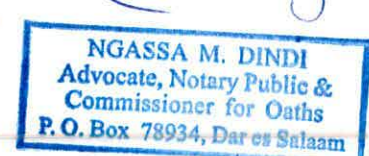

KNOW ALL MEN BY THESE PRESENTS:

That the undersigned, **SCHLUMBERGER SEACO, INC.**, a corporation organized and existing under and by virtue of the laws of the Republic of Panama ("Corporation"), having its registered office at 8 Aquilino de la Guardia Street, in the city of Panama, Republic of Panama has made, constituted, and appointed, and by these presents does make, constitute and appoint – **Eugene TOUKAM** a Belgium citizen and holder a passport n° EH918364 valid from 16.12.09 until 15.12.14– to be agent and attorney-in-fact of the Corporation within and throughout, and hereby expressly limited to **TANZANIA** ("Country") for the purposes and with the powers herein set forth as follows:

1. To direct, conduct, manage and superintend the business and affairs of the undersigned.
2. To open one or more bank deposit accounts in any bank or banks; to deposit any and all sums of money which may now or hereafter be the property of the undersigned in any such account or accounts, and in any amounts which he may consider necessary and convenient to conduct the business of the undersigned; to make, sign and deliver cheques and drafts and other orders for the payment of money drawn upon or made payable by or at such bank or banks, or drafts against such account, whether drawn to the individual order or tendered in payment of individual obligations of said attorney or otherwise; to accept any and all drafts, bills of exchange or other orders for the payment of money at any time drawn upon the undersigned, making the same payable at such bank or banks or otherwise directing the payment thereof by any such bank or banks; and to endorse and deliver for deposit, withdrawal or collection by any such bank or banks or otherwise any and all cheques, drafts, promissory notes, certificates of deposit or other orders or instructions for the payment of money.
3. From time to time to appoint and employ any and all such servants, agents and employees for carrying on the business of the undersigned as said attorney, in his discretion, may think necessary or proper and at such rate or rates of remuneration and upon such terms as said attorney may think reasonable; to fix and limit the respective duties and authorities of said servants, agents and employees; to establish and alter rules and regulations for the control thereof, and to dismiss or suspend any of such employees for such cause or reason as said attorney may, in his sole and absolute discretion, think sufficient, with or without assigning any cause or reason, and either absolutely or for such period or periods as he may think proper, all subject to compliance by said attorney with the provisions of any applicable labour laws of the said Country.
4. To ask, demand, sue for, recover, receive and give acquittances for any and all moneys, debts, claims, interests and demands which are or may hereafter become due and payable to the undersigned in any capacity, whether from any government, political, public or civil body, company or corporation, public or private, of any description, or any person or persons and howsoever arising.
5. In the name of the undersigned to commence, prosecute, enforce or defend, answer and appear in any action, suit or legal proceeding in any of the courts of the said Country; to file all kinds of appeals and other recourses; to submit to arbitrators and umpires; to accept service of process thereunder; to employ attorneys and counsel to represent the undersigned in any of such proceedings; to discontinue any such action or proceeding; to submit to judgment thereunder or compromise thereof.

6. To transmit offers, bids and acceptances by the undersigned to any government, political, public or civil body, company or corporation, public or private, of any description, or any person or persons.
7. To carry on any and all negotiations and business and commercial transactions on behalf of the undersigned in the said Country with any government, political, public or civil body, company or corporation, public or private, or any person or persons concerning the sale of the products or services of the undersigned, or the purchase or sale of equipment, materials or supplies incidental thereto, to execute and deliver on behalf of the undersigned all necessary documents, contracts, indentures and other instruments, and to take any and all action in connection therewith necessary or proper to the consummation of any such transaction.
8. To rent or lease office space or any kind of property or facilities necessary to the activities of the undersigned in said Country and to acquire furniture or equipment necessary for said activities and dispose of such acquisitions as are deemed to be no longer needed.
9. To appear on behalf of the undersigned before any governmental body or official and to execute before it or him any declaration, statement or other instrument required for the conclusion or consummation of any transaction in the said Country which such attorney is authorized herein to consummate on behalf of the undersigned including, without limitation, the registration of the undersigned in said Country, and to take whatever steps may be required to comply with the requirements of the laws of said Country that may exist covering the qualifications of foreign corporations in said Country.
10. To effect, from time to time, fire or other insurance upon the property or interests of the undersigned as such attorney may deem necessary and, in case of loss, to file proofs thereof and to collect or receive any sum or sums which may be due to the undersigned.

And, generally, to do all things necessary and proper to be done in and about the premises as fully and to all intents and purposes as the undersigned would or could do if itself present, with power of substitution for periods not exceeding three (3) months in duration; hereby agreeing at all times to ratify and confirm all that said attorney or his substitute may cause to be done by virtue thereof.

Unless earlier canceled and/or revoked, this Power of Attorney is valid from **September 1st, 2011** and will expire in **August 31st, 2013**.

IN WITNESS WHEREOF, the undersigned has caused this instrument to be executed by its authorized attorney-in-fact and its corporate seal to be hereunto affixed this 26th day of August, 2011.

APPENDIX 7

LEASE AGREEMENT

This **AGREEMENT** made on 26th day of JUNE 2012

BETWEEN

BOUNTY PROPERTIES LTD, a limited liability company incorporated in the United Republic of Tanzania having its registered office at 59 Mikocheni Light Industrial Area P.O. Box 3978, Dar es salaam, Tanzania hereinafter referred to as the "**LESSOR**" which expression shall, where the context so requires, include the **Lessor's** successors in title and permitted assign on one part

AND

SCHLUMBERGER SEACO INC, a limited liability Company incorporated in United Republic of Tanzania having its registered office at Plot 102, Uganda Avenue, Oysterbay Area, P.O. Box 60081, Dar es salaam hereinafter referred to as the "**LESSEE**" which expression shall, where the context so requires, include the **Lessee's** successors in title and permitted assign on other part

WHEREAS:

- A. The **LESSOR** is the lawful owner of the property located on **Plot No 178 Block "3" Industrial Area** within Mtwara Municipality, Tanzania
- B. The **LESSEE** is desirous of leasing from the **LESSOR** 24,800 sq. metres being part of the said property.
- C. The **LESSOR** has agreed to lease the said part of the property to the **LESSEE** under the terms and conditions stipulated below:
 - The plot must be compacted to 90% with Gravel as last layer.
 - The plot must be fenced (3 m in wire fence) with 50 cm security razor bar wire on top
 - The plot must have industrial power and water
 - The plot must have a gate and guard house.
 - The plot must have sufficient light poles all around (pole every 20 m with two lights on each plot).

NOW THIS AGREEMENT WITNESSETH AS FOLLOWS:-

1. The **LESSOR** hereby demises unto the **LESSEE** part of the above stated property more particularly described in ANNEXE 1 to hold the same for a period of **TEN YEAR** at a monthly rent of USD 12,400.00 exclusive of VAT payable annually in advance to be increased by 5% annually.
2. The duration of the lease be **TEN YEARS** commencing from 1st Day of August 2012 to 31st Day of July 2022. However, should the **LESSEE** opt to vacate or terminate before the expiry time then there shall be no claim for refund of the already paid rent.
3. The demised property shall be delivered to **LESSEE** within Six (6) weeks after the payment of the corresponding rent.
4. The **LESSEE** may terminate this Agreement at convenience and at any time with a six (6) months notice.
5. That the **LESSEE** to use the demised premises as operations site, with an option to build an infrastructure in the future, provided that such development complies with the laws and regulations in force in Tanzania. The lease rental charge will be reviewed prior to the execution of any development which may exceed an amount of USD 500,000 cumulatively.
6. That the **LESSE** not to interfere with operations being carried out in the premises adjacent to the demises property.
7. That the **LESSEE** not to do permits or suffers on the demised property anything which shall be a nuisance to the persons occupying the adjacent or neighbouring property.
8. That, the **LESSEE** shall, unless hereinafter specified to the contrary, maintain the demised property in a good repair and tenable condition during the continuation of this lease except for reasonable wear and tear or damage by elements over which the **LESSEE** had no control which shall be responsibility of the **LESSOR**.
9. That, the **LESSEE** shall keep the demised property in a clean condition and free from rubbish in accordance with the requirement of the respective Municipal or Government Authorities.
10. That, the **LESSEE** shall maintain the surrounding and outer space in a clean and tidy condition.
11. That, the **LESSEE** shall make good any damage caused to the demised property.

12. That **LESSEE** is responsible for all charges related to the usage of electricity, water and sewerage during the tenure of this lease.
13. That, the **LESSOR** shall pay all existing and future land rates, taxes and outgoing in respect of the demised premises.
14. The **LESSEE** acknowledges that **LESSOR** will not provide insurance coverage for Tenant's property nor for any improvements carried out on the premises by the **LESSEE**, nor shall **LESSOR** be responsible for any loss of **LESSOR**'s property, whether by theft, fire, acts of God, or otherwise.

In case demised premises are damaged by fire, water, thunderstorm or any other act of nature, etc. and becomes temporarily or permanently unfit for human inhabitation the **LESSOR** shall refund the rental for the concerned period provided the **LESSEE** has vacated upon the happening of such an event.

15. Should **LESSOR** be in breach of any material term of this Agreement, and fail to remedy or fail to start the remedying such default or breach with fourteen (14) days after receiving a written demand to do so, **LESSEE**, shall be entitled in accordance with the applicable law to terminate this Agreement and pursue any other right to remedy available to **LESSEE** hereunder or at Law.
16. Non performance or delay in performance by any of the Parties of any of their obligations herein shall not be considered breach of the Lease Agreement if, and to the extent that, such non-performance or delay is due to any unforeseen event beyond the reasonable control of the Party claiming to be affected by such event and, subject to the foregoing, shall include, without limitation, state of war, whether declared or not rebellions or riots, natural catastrophes, floods, storms, acts of God, fires, earthquakes strikes (excluding those affecting solely one Party), communications cuts, and unavoidable accidents("Force Majeure").
17. If a Force Majeure event occurs, the Party affected by such event shall be excused of all obligations herein, and other Party's obligations shall also be suspended, until the status quo prior to the occurrence of event(s) constituting Force Majeure is restored.
18. The Party that wishes to claim a situation of Force Majeure shall serve notice on the other Party with in ten (10) days of the occurrence of the Force Majeure event, and shall use all reasonable endeavours to remedy the situation of force Majeure as soon as possible.
19. If, due to its duration, or any other reason, Force Majeure situation alters the original contractual balance between the Parties, such balance shall be restored by renegotiating the Clauses of this Lease

Agreement which have been affected by such situation or by the consequences thereof.

20. If the Parties fail to agree during renegotiation of such clauses of this Lease Agreement, the Parties shall submit the Tanzanian Courts under the terms of Clause 28.
21. Mode of payment should be made by Telegraphic Transfer, to Bounty Properties Ltd, Account with Exim Bank Tanzania Ltd, Account Number 0301815669.
22. Payment to be effected within 45 days from signing of this Lease Agreement,
23. In this Lease agreement "tax" or "taxes" means any tax, dues, levy, fee, government royalty, or other charges of a similar nature which may be assessed by any government authority, including those retroactively imposed. Also, "duty" or "duties" means any of the following: customs duties or other duties, import and export taxes, harbour and port dues, demurrage, wharf age, landing, lighter age, pilot age, stevedoring, customs agent fees and other such charges, and excise taxes on all equipment, materials, and supplies, including replacement items which may be required in order to carry out any obligation under the terms of this Agreement including those retroactively imposed.
24. **LESSOR** shall assume full and exclusive liability for the payment of all taxes (including penalties and interest charges) levied or imposed and related to or assessed upon the revenues, profits or assumed profits of **LESSOR** arising directly or indirectly from the performance of this Agreement for the services provided which have been defined in Annexure 3 of this Agreement.
25. **LESSOR** shall assume full and exclusive liability for the payment of all taxes (including penalties and interest charges) including by way of illustration and not limitation, personal income tax, social security contributions and similar charges levied or imposed on any of its employees, subcontractors, agents and arising directly or indirectly from the performance of this Agreement for the services provided which have been defined in Annexure 3 of this Agreement.
26. The rates of compensation provided under this Agreement shall cover and include **LESSOR's** entire compensation for the payment of all taxes, fees, levies, duties, and related charges levied or assessed on **LESSOR's** Group by the relevant government for the performance of the Services under this Agreement for the services provided which have been defined in Annex 3 of this Agreement.
27. This Agreement shall be governed by and construed in accordance with the laws of United Republic of Tanzania and the Parties submit

any dispute and settle amicably within ninety (90) days from its notification by one Party to the other, to the exclusive jurisdiction of Tanzania courts.

THE LESSOR AND LESSEE HEREBY MUTUALLY AGREE AND DECLARE AS FOLLOWS:

The **LESSEE** shall give **LESSOR** a written notice of three months before the expiration of the terms hereby granted of his desire to continue the lease hereby created and if the **LESSOR** accepts the notice, then the term hereby created of the demised premises shall be extended for a further term of one year which term shall commence at the expiration of the term hereby granted, or if **LESSOR** so wishes not to continue with this Lease Agreement herein created, the **LESSOR** shall give a discontinue notice in reply to the **LESSEE's** notice, **PROVIDED ALWAYS** that the **LESSOR** and the **LESSEE** can mutually agree to revise the rent and other conditions herein contained once extension of lease is agreed. However, if notice not given then the expiry date of the Lease Agreement shall constitute notice.

IN WITNESS WHEREOF the Parties hereto have set their hands in the manner and on the date hereinafter appearing.

Schlumberger

Making an Impact

Responsible business in Mozambique and Tanzania

CONTENTS

Building capacity and investing in the future

Schlumberger in Mozambique and Tanzania

Employment and human capital

Capacity building

Local economic development

Ethics and governance

Environment

Community outreach

Schlumberger is the world's leading oil and gas services company. We supply technology, information solutions, and integrated project management that optimize reservoir performance for our customers in the oil and gas industry. Founded in 1926, the company now employs more than 115,000 people in over 140 nationalities in approximately 85 countries.

Schlumberger does not have a single "nationality" that describes its culture, as it operates in a truly global fashion throughout the world. Wherever we work, there are natural consequences of doing business that have socioeconomic impacts in those countries.

This booklet describes the current impact of our business in Mozambique and Tanzania. As our business is fairly new in these countries, our achievements are relatively modest. However, this booklet will be regularly updated. We intend that the content of this first edition will serve as the benchmark against which our progress in the future can be assessed.

Responsible business in Mozambique and Tanzania

BUILDING CAPACITY AND INVESTING IN THE FUTURE

Schlumberger has reacted quickly to support East Africa's emergence as one of the world's most-prolific new frontiers for oil and gas exploration. In little over a year, we have created a new GeoMarket organization to cover the region and built up a comprehensive operations infrastructure for Tanzania and Mozambique. This is just the beginning of our investment in the region.

Field maintenance facilities have been constructed in Mtwara, Tanzania, and Pemba, Mozambique, that will achieve or exceed North Sea standards. Built to exploit lean six sigma concepts, they will bring unparalleled efficiencies to the operations in each country. We have been granted all the licenses required to import, handle, and store radioactive sources and explosives in both countries, which gives us an unrivalled ability to react to our customers' needs. A 20,000-bbl liquid mud plant is under construction in the port of Pemba that will further streamline logistics, reduce risks to the environment, create additional local jobs, and facilitate technology transfer. A similar plant will be constructed in the port of Mtwara early in 2013.

Synergies between our operations in Mtwara and Pemba will support peaks of activity in either country. Such synergies have already been demonstrated. During 2012, more than 200 t of equipment and supplies have been imported from Tanzania by air, sea, and road to support startup operations in Mozambique; more than 100 t have been exported from Mozambique in the same period. We are confident that our clients will receive the same exemplary levels of service delivery and quality wherever their operations take them.

Eugene Toukam
Schlumberger Eastern and Southern Africa GeoMarket Manager

Schlumberger is investing heavily in Tanzania and Mozambique because of the extraordinary opportunities that exist to play a critical role in realizing the potential of the countries' hydrocarbon resources. Although business growth and returns are two key drivers of our strategy, engagement and integrity are equally important. They are how we build long-term partnerships with our clients and governments.

Engagement takes many forms. In 2008, long before the recent boom, the Schlumberger Foundation enabled Kissa Kulwa, the first of seven Tanzanian beneficiaries to date, to complete her PhD studies overseas. Today, we are hiring and training nationals at an unprecedented rate across the skills range, including taking on more than 80 new graduate engineers and geoscientists in 2012 alone. Our social risks management (SRM) process (patent pending) is helping us to mitigate socioeconomic changes and make positive contributions in Pemba and Mtwara. As a result, Mozambique and Tanzania have been identified as candidate countries for the launch of a pilot capacity-building initiative, which is currently being designed by Schlumberger to help science teachers and faculties in selected countries that meet qualifying criteria. We have established a geoscience software laboratory in the department of geology at the University of Dar es Salaam in partnership with Tanzania Petroleum Development Corporation (TPDC). And we are taking every opportunity to develop local businesses. We have 75 contract drivers currently working exclusively for us in Tanzania and Mozambique; each has been trained to our exacting international defensive driving standards.

These and many other aspects of our business impact in Mozambique and Tanzania are described in the rest of this booklet. We believe they tell a compelling story of our commitment to building capacity and improving lives in our host countries.

Measuring our impact

International teamwork is at the heart of how Schlumberger does business. We create value for our customers by leveraging the diversity and mobility of our workforce, and by deploying our global organization's ability to share knowledge and deliver state-of-the-art E&P technologies. Overarching policies and practices govern the way we operate internationally. Among these, is a sustainability framework that sets out our role in meeting the needs of the present while considering our stakeholders now and in the future.

Wherever we operate, we strive to align our global business model with national priorities. We are guided in this by continuous and proactive engagement with a wide range of stakeholders: clients, regulators, government bodies, suppliers, professional organizations, universities, technical training schools, and other bodies. Our objective is to manage our national content (the near-term participation and development of national capital, labor, technology, goods, and services), so that we comply with our statutory and contractual obligations, strengthen our own business cases, and achieve our sustainability objectives (see graphic right).

In Mozambique and Tanzania, we develop national capabilities in human resources; procure goods and services locally; and undertake collaboration to enhance indigenous expertise in petroleum E&P. We have created national content strategic action plans to ensure compliance with national expectations. The plans help us to develop our own business case for locating more content in country and to

demonstrate our natural contributions to a country's development. Automated reporting systems streamline the process and assist the regulators do their job effectively.

Schlumberger has become increasingly aware of the socioeconomic impacts of its operations around the world and views them through a national content lens composed of six areas of greatest direct impact: employment and human capital; capacity building; local economic development; ethics and governance; environment; and social investment. In Mozambique and Tanzania, we are active in all these areas.

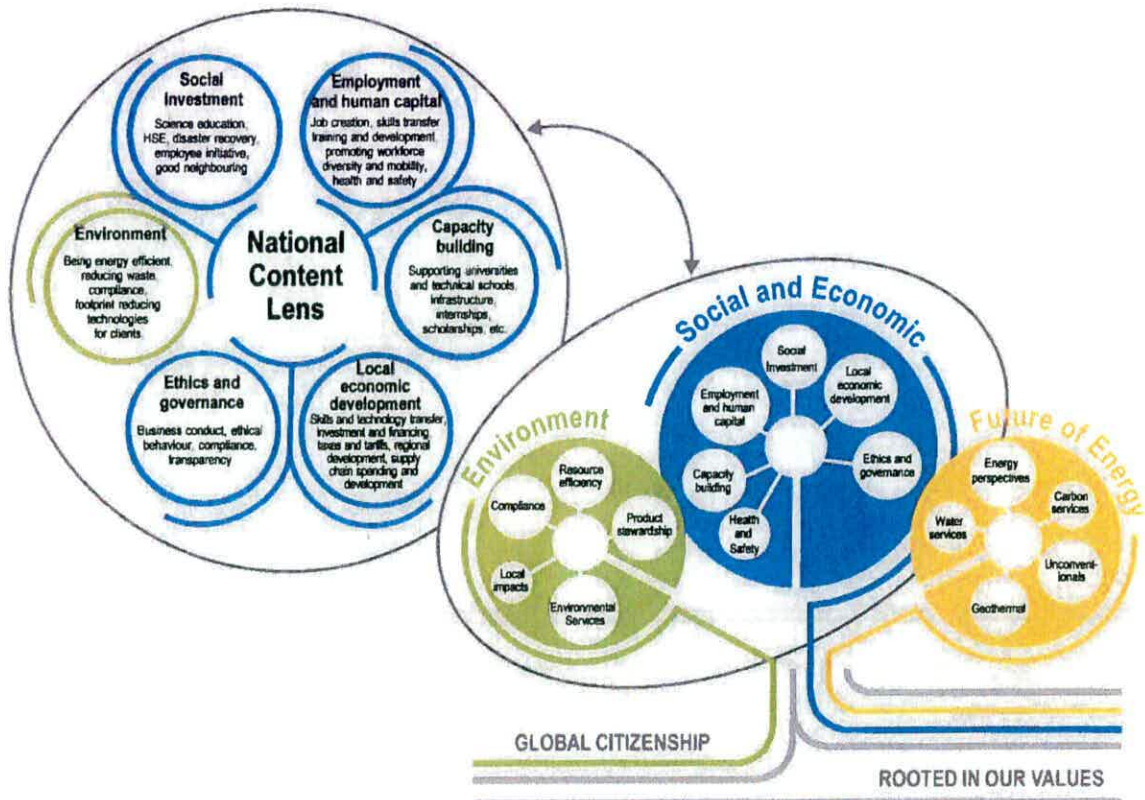

To improve understanding of its activities in the countries where it works, Schlumberger commissioned an internationally respected school of economics to develop a method for describing and measuring the socioeconomic impacts of its national content. We draw on these indicators to enrich our understanding of our local impact and to generate a comprehensive picture beyond the compliance where they exist.

Job creation and the payment of wages are direct impacts of a company's **employment and human capital** activities. However, these activities also give rise to indirect impacts such as skills transfer, the training and development of people, and improving well-being: our own, our clients', and those of third parties such as contractors. In particular, Schlumberger employees are bound by

"Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs."

Our Common Future, Brundtland Report, 1987

Schlumberger Sustainability Framework

To develop talented people and fund technologies capable of achieving a sustainable energy mix and to care about our impact on society as a business and a community of individuals

Schlumberger is dedicated to achieving a sustainable energy mix. We have developed a framework to guide us in achieving this ambition that addresses three specific areas: protecting the environment everywhere; contributing to improving the social and economic fabric of the countries where we operate; and achieving sustainable energy for the world of the future. Seen through a national content lens, our sustainability framework comprises six key areas (above).

industry-leading health and safety standards, and strong policies, which we extend to our contractors and suppliers. They often benefit our employees' families and our clients too. The results of promoting these practices can be measured in terms of incident, injury, and accident rates; training; and compliance with standards and regulations. Our impact on people also extends to the wider community as a result of **capacity building** when supporting local universities and building specific partnerships.

Local economic development results from the direct impact of our spending in the industry supply chain and paying taxes and tariffs that fund government spending. In addition, it is driven by associated multiplier effects, technology transfer, investment, and financing. For example, our investments in Schlumberger infrastructure projects support jobs and generate spending in the local economy. Indirect economic impacts arise from the cumulative effects of supporting the development of local businesses.

The impact of Schlumberger activities on **ethics and governance** in national and local institutions, although difficult to measure, is reflected in the health of the organization's reputation, its links with local institutions, and its demonstration of world-class practices through transparent conduct and the application of its worldwide code of ethics.

Schlumberger has a long-standing commitment to the societies in countries where it works through the protection of the environment. Performance improvements have been made over the last few years through the application of our global environmental standard, which has brought enhancements most notably in relation to waste and water management.

Finally, the impact of Schlumberger also extends to the communities that host it as a result of **social investment**, which, today, focuses on education, especially on science and HSE themes. We reach young people through our Schlumberger Excellence in Education and HSE for Youth programs, and are gradually expanding our social investment portfolio to include other themes that are connected to our business, rooted in the community, and executed in a focused and streamlined manner. We also encourage employees to initiate and volunteer in local community action projects.

In Mozambique and Tanzania, as in every country where it operates, Schlumberger gives a high priority to satisfying its clients' needs. We aim to be a key partner in realizing the potential of their assets through the application of state-of-the-art E&P technologies and unrivalled global expertise. In doing so, we are mindful of our obligations and responsibilities to the people and host communities of the countries where we operate.

Employment and human capital

Job creation

Schlumberger has a "recruit where we work" philosophy and strives to be an employer of choice in Tanzania and Mozambique. Our focus on local recruitment makes good business sense; we believe it creates a highly motivated service organization with firm foundations, low staff attrition rates, and a sound understanding of local customs and industrial and business practices. As of November 2012, Schlumberger employs 48 Mozambicans (up from only five in one year) and 103 Tanzanians. We are actively working to increase their numbers and are having notable success.

SCHLUMBERGER LOCAL TECHNICAL AND SUPPORT STAFF FOR TANZANIA AND MOZAMBIQUE

**ALLY ALLY (TANZANIAN)
CONSTRUCTION DESIGNER
DAR ES SALAAM, TANZANIA**

Ally gained a first-class degree in architecture from Gazi University in Ankara, Turkey, in 2000. He started his professional career with Ven Architect Co. before moving to CDI Engineering.

In September 2007, Ally joined Schlumberger as a construction designer. Today, he is involved in feasibility studies, conceptual design development, and design/construction technical support for Schlumberger facility new construction work and major renovation projects in different locations.

**VERDIANA NGOWI (TANZANIAN)
SEGMENT LOGISTICS SPECIALIST
DAR ES SALAAM, TANZANIA**

Verdiana gained a first-class degree in electrical engineering from the University of Cape Town, South Africa, in 2007. She started her professional career with Caroil Drilling Company before moving to Weatherford.

In April 2009, she joined Schlumberger to work in accounts payable, logistics, supply-chain, and visa-coordination services in Dar es Salaam, Tanzania. In 2012, Verdiana moved to logistics as the import and export specialist for the Eastern and Southern Africa GeoMarket. She is currently a segment logistics specialist focusing on import and export requirements for the testing services business segment throughout East Africa.

**ANTONIO JOAO MANUEL BAHANE (MOZAMBICAN)
PROCUREMENT SPECIALIST
MAPUTO, MOZAMBIQUE**

Antonio completed a mechanical engineering course from the Instituto Industrial de Maputo, Mozambique, in 2000. He started his professional career with Rebilander before joining Rio Tinto Mining & Exploration. In 2012, Antonio joined Schlumberger as a procurement specialist in Maputo, Mozambique.

**BLASIUS MHAGAMA (TANZANIAN)
LABORATORY TECHNICIAN
CAPE TOWN, SOUTH AFRICA**

Blasius gained a BSc honors degree in mineral processing engineering from the University of Dar es Salaam, Tanzania, in 2008. He started his professional career with Metro Steel Mill Company before gaining practical experience at the Mineralogical Analysis Laboratory in Tanzania. In March 2009, Blasius joined Schlumberger as a cementing laboratory technician for East Africa in Tanzania. He is currently working in South Africa as a laboratory technician and provides technical support for all East African countries.

"Schlumberger has a wealth of information that makes progression faster." Blasius Mhagama

**LILIAN COLMAN (TANZANIAN)
PERSONNEL REPRESENTATIVE
DAR ES SALAAM, TANZANIA**

Lilian gained a masters' degree in international trade at the University of Dar es Salaam, Tanzania in 2010. In 2011, she joined Schlumberger as a personnel representative for Tanzania.

"Schlumberger is unique on diversity and career development. On top of that, it employs the best people for operations in more than 85 countries all over the world. The technologies developed by Schlumberger are very high quality, which keep it distinct from other companies. Excellence in execution makes it perfect in delivering its services. I am very proud to be part of Schlumberger Tanzania and the organization's more than 115,000 employees of many nationalities and existence in over 80 countries. In a few months, I have added supreme value in my career and my life." Lilian Colman

**MARTIN SHIJA (TANZANIAN)
FIELD ENGINEER
CAPE TOWN, SOUTH AFRICA**

Martin gained a BSc honors degree in mining engineering from the University of Dar es Salaam, Tanzania, in 2008. He started his professional career at the Tulawaka Gold Mine before obtaining practical experience as a graduate mining engineer at the Barrick Bulyanhulu Gold Mine.

In 2008, Martin joined Schlumberger as a trainee field engineer for East Africa in Tanzania. He is currently working in South Africa as a field engineer and often works on offshore projects throughout East Africa.

"Schlumberger provides unrivalled exposure to diversity. Its training program is rich." Martin Shija

**ALAIS RUNDYA MWASHA (TANZANIAN)
ASSISTANT TAX MANAGER
DAR ES SALAAM, TANZANIA**

Alais gained an honors degree in business administration and accounting from Tumaini University, Tanzania in 2006. He started his professional career at the Cotecna-Tiscan Tanzania before becoming a tax manager at Ernst & Young. In 2012, Alais joined Schlumberger as assistant tax manager for East Africa in Tanzania.

"I am certain that Schlumberger is one of the greatest companies to work for. This is because Schlumberger always exposes you to people with vision, honesty, motivation, and commitment in achieving their goals in a spirit of teamwork. I believe everyone joining the company requires a positive attitude, discipline, integrity, and hard work to overcome challenges and achieve their goals while working with the company." Alais Rundya Mwasha

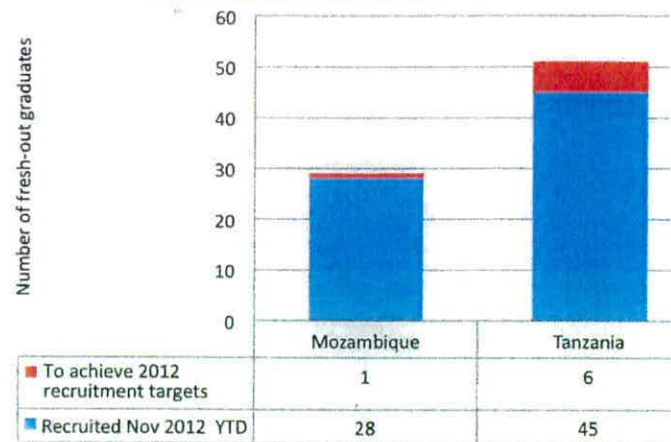

GRADUATE RECRUITMENT

Since the mid-1970s, Schlumberger has recruited its engineers from the best universities and higher learning institutions in the countries where it works. In the first 10 months of 2012, we recruited 73 Tanzanian and Mozambican graduates, and we aim to hire 7 more before the year end. In Tanzania, our field engineers have been hired from the University of Dar es Salaam and our field specialists and maintenance technicians from the Dar es Salaam Institute of Technology. In Mozambique, recruits to these positions have come from the Universidad Eduardo Mondlane and the Instituto Industrial de Maputo respectively.

In 2012, Schlumberger held eight recruitment sessions in Tanzania and five recruitment sessions in Mozambique. During 2013, to meet our ambitious targets for recruiting Mozambicans and Tanzanians, we plan to recruit from at least one more university in each country and will establish structured internship programs.

Schlumberger is actively increasing the pool of candidates for employment in Mozambique by offering immersion language training programs to high-potential engineering graduates. Students selected

GRADUATE RECRUITING UPDATE FOR 2012

for the program are sent to live with English-speaking host families and attend English classes in South Africa for between 3 and 12 weeks. Currently, 17 Mozambican engineers hired by Schlumberger are attending Schlumberger-sponsored English immersion language training programs.

Schlumberger is actively increasing the pool of candidates for employment in Mozambique by offering English-language immersion training programs to high-potential engineering graduates.

SKILLS TRANSFER

Schlumberger strives to deliver the same level of service quality and delivery to its customers regardless of the location or operating environment. In countries where we have been operating for a long time, we can build local organizations by investing in developing nationals of our host country over extended periods to ensure they have the required skills across the range up to senior management level.

In frontier oil and gas provinces such as Tanzania and Mozambique where we have newly established and rapidly growing operations, we are obliged to bring in expatriate personnel to build indigenous capabilities. Their role is to deliver services and to pass on knowledge to more junior national staff through on-the-job training and development programs.

There are no barriers to personal development in Schlumberger. We recruit locally for positions at all levels of the organization, promotions are based purely on performance and merit, and our managers are generally appointed from within the organization. This ensures that the Schlumberger business culture, and particularly its service quality ethic, is sustained throughout the organization.

We already have two Tanzanians in line management positions and, in time, we expect to have many more. However, the task of developing a sufficient number to be ready for senior roles takes time: a petrotechnical expert typically has 10–15 years' seniority and a country manager more than 15 years. In the meantime, we must rely on the availability of expatriates, which is possible as a result of our proven ability to secure work permits (see "Visa capabilities").

We have achieved this with notable success; 113 work permits for Tanzania and 151 short-term work permits for Mozambique were issued to Schlumberger employees in 2012. In addition, we have been awarded 200 more work permits for Mozambique following our commitment to invest in the country.

Schlumberger management team meeting with the Tanzanian Prime Minister

CAPABILITIES

In Mozambique and Tanzania, our ability to deliver the highest levels of service to our clients will, in the short term, depend on bringing in appropriate staff. They have a key role in developing our rapidly growing business and their presence depends on the granting of work permits.

Our success in securing visas is attributed to the effectiveness of our dedicated visa team. The team, which includes a Tanzanian national, has worked with the national immigration authorities in Tanzania and Mozambique, and spent time to understand the specific procedures, documents, and information that are needed for them to issue a visa without clarification. The team has developed internal processes that ensure applications are prepared correctly and can be processed with the minimum of difficulty by the authorities (see graphic right). Applications are processed by local law firms and immigration agencies that have been qualified by the Schlumberger team and have a record of delivering results. The result has been a smooth workflow for Schlumberger and the authorities, and the reliable, prompt issue of visas.

THE WORK PERMIT PROCEDURE FOR MOZAMBIQUE

Step 1: Send email to EARvisa@slb.com with the following documents:

- Passport scan
- CV
- Academic qualifications

Also advise in which location you will be working

Step 2: EARvisa sends request to external legal counsel with your documents and your assigned location

Step 3: Finance makes payment on instruction of EARvisa team

Step 3: External legal counsel prepares relevant paperwork. They submit the application to the relevant regional office

Step 4: EARvisa is informed work permit has been issued. They notify the relevant administrators and operations managers

Step 5: EARvisa inform Manica (visa agent) the work permit is ready. The passport is now ready for the business visa

Step 6: Administrator or operations manager arranges with Manica for the employee to go for biometrics (eye scan and finger prints)

Step 7: Manica returns the passport within two days of visiting the immigration office

YOU ARE NOW LEGALLY WORKING IN MOZAMBIQUE

Training and development

GRADUATES AND FIELD PERSONNEL

Schlumberger is recognized in the industry for the quality of its training. Our reputation for service quality is built on high-quality, in-house programs that span the careers of every individual who joins the company. They ensure continuing technical competency and have the assessment tools and mechanisms in place to ensure service proficiency. NeXT, the Schlumberger commercial training company, supplies training expertise to our clients.

All Tanzanian and Mozambican field engineers, technicians, and support staff benefit from the same training opportunities as their colleagues worldwide. Newly hired employees will be enrolled on in-house training programs; for our field employees, one to three months' basic hands-on training is followed by several weeks of structured learning at one of our world class purpose-built learning centers in the Middle East, the UK, France, the Far East, or the USA.

In 2012, 32 Tanzanian engineers were hired straight from university and embarked on this path: most attended Schlumberger wireline or drilling and measurement training schools. All (100%) of these recruits successfully completed the very demanding training program: a result that speaks for the quality of the recruits and the universities that prepared them. This is also a testament to the success of our recruitment program and confirms that Tanzania has a pool of talent that can compete with the best in the world.

After objective-based training in school, employees return to their operational bases to gain operational experience under the guidance of field service managers, service quality coaches, and experienced mentors with whom they work on a daily basis. Ongoing on-the-job training is complemented by structured online training tasks and courses within the country and at locations and training centers around the world.

During their second and third years with Schlumberger, our engineers begin to specialize in specific services and they attended advanced courses to learn more about the technology behind them. In Schlumberger, there are no barriers to personnel development. Tanzanian and Mozambican engineers and technicians hired today can expect to spend an average of 18 weeks training during their first three years of employment with Schlumberger.

In 2012, 32 Tanzanian engineers were hired straight from university. All (100%) successfully completed a very demanding training program, which confirmed that Tanzania has a pool of talent that can compete with the best in the world.

NONGRADUATES AND SUPPORT PERSONNEL

As Tanzania is our regional headquarters for southern and eastern Africa, we will continue hiring and developing a large number of Tanzanians and Mozambicans as operational, functional, and management staff. We are actively working to increase the number of national staff. Our strong local recruitment policy makes good business sense. It results in a highly motivated service organization with firm foundations, low staff turnover rates, and a sound understanding of local customs and industrial and business practices. We recruit locally for positions throughout the organization.

PROMOTING WORKFORCE DIVERSITY AND MOBILITY

One of the greatest strengths of Schlumberger is the diversity of its workforce. We value the creativity and innovation that are fostered by maintaining a mix of genders and cultures in the workplace, and we aim to provide all our employees with the same development opportunities, challenges, and rewards. In Tanzania and Mozambique, we are actively seeking to recruit female petrotechnical experts and engineers.

Assignments to locations overseas broaden the experience of our people and are also crucial in the development of the global Schlumberger workforce. Today, we have seven Mozambicans employees and nine Tanzanian employees working and gaining valuable industry experience outside the country.

OUR PEOPLE, THEIR SAFETY

Our health and safety mission is to ensure that quality, health, and safety remain top priorities for management and all employees. Where feasible, we extend our practices to our contractors and suppliers. Preventing the likelihood of accidents and loss from process failure is a recognized, integral part of our continuous improvement culture. Understanding, sharing, and practicing a proactive health and safety culture is part of everyday business for all Schlumberger employees and contractors. Accountability for health and safety issues is a line management responsibility that requires visible commitment, leadership, and involvement.

Where appropriate, we have contracted with specialist local companies in Tanzania and Mozambique for the provision of professional security and health care services for our employees. Our objective is to provide the best available medical services free of charge to all our employees, wherever they are, including at our field operations.

A full audit of the available medical facilities was performed by Schlumberger's international health coordinator/director in 2008. This was updated in May 2012 by Dr Uche Okorochoa, Schlumberger health adviser, and agreements were entered into with approved providers of medical services:

- In Tanzania, we have engaged a doctor, Dr Pierre Bervas of the Premier Care Clinic, to provide medical services to all Schlumberger employees.
- In Dar es Salaam, the Aga Khan hospital was identified as the best available by a medical assessment audit and capable of treating most major and minor injuries and diseases.
- In Mozambique, we have audited, approved, and contracted with Anadarko to use its paramedic service and clinic in Pemba, which is operated by NetCare and manned by doctors on rotation.
- In our Mtwara, Tanzania, and Pemba, Mozambique, field locations, we have signed and funded a partnership with Medilink to overcome the challenges of dealing with unforeseen emergencies in these rural locations. Medilink has established an emergency center in each location and acts as emergency response provider should the need arise.

In East Africa, Schlumberger gives a particularly high priority to driving safety and malaria prevention, which present significant risks to our employees and others. We have adopted rigorous practices to mitigate the risks associated with these and other health and safety hazards. Compliance with our standards and policies is supported by our QUEST web-enabled database. This is used for general reporting, scheduling of inspections, incident recording, risk analysis, and keeping track of all aspects of employee health and safety training and development.

Preventing the likelihood of accidents and loss from process failure is a recognized, integral part of our continuous improvement culture.

MALARIA PREVENTION

In Tanzania and Mozambique where malaria is endemic, we have rolled out the innovative malaria prevention program we have developed to safeguard employees (see “Malarial hazards”). This has also been offered to our customers and contractors, and vital practices have been shared. The focus of the program is on awareness raising and equipping employees to self-diagnose and to get in touch with experts—no matter where they are.

Before arriving in either country, all employees and contractors must complete online malaria prevention training and certification. On arrival, they must attend an induction course during which they are briefed on the disease itself, bite prevention, chemoprophylaxis requirements, early detection of symptoms, how to conduct a malaria self-diagnosis test, and curative self-treatment. On completion of the briefing, they are issued with a Schlumberger malaria testing kit. A further briefing is given by a qualified person before departure.

In Tanzania, Schlumberger drivers are being trained as malaria ambassadors. As such, they help to enforce the company’s malaria standards and ensure that departing passengers are compliant with protocols. A driver will ask “Do you have your malaria kit?” and report in if the answer is “No”. The drivers are going above and beyond to ensure that we do not have any malaria-related fatalities.

MALARIAL HAZARDS

The World Health Authority estimates that there were more than 149 million acute cases of malaria and over 500,000 deaths from the disease in 2010. Of malaria-related deaths, 90% are concentrated in sub-Saharan Africa, which places a huge burden on the health and economic systems of these countries.

Schlumberger has developed a comprehensive malaria prevention program to address the risks of malaria for its employees. This program has been rolled out to all Schlumberger employees working in malaria-infected countries. It has been well received in the oil and gas industry, and has been adopted by some of our clients and many other organizations.

Training and education are the foundations of the program. All personnel living and working in malaria-infected countries must complete mandatory training to ensure that they are fully aware of the risks associated with malaria. This training is extended to all employees, semi-immune as well as nonimmune.

One key focus of the program is to distribute malaria curative kits to all nonimmune personnel. They assist with early detection and rapid intervention should anyone become infected with the disease. To date in the Eastern and Southern Africa GeoMarket, we have successfully distributed more than 600 malaria curative kits to employees. To ensure that no employee travels without this life-saving kit, robust meet and greet protocols have been introduced in all the countries in which we work. Each country has a specific malaria emergency response program.

DRIVING SAFETY

Most fatalities in the oil and gas industry are caused by road accidents. Schlumberger is a leader in managing driving safety risks and is acknowledged as such within the industry for the quality of its training, use of technology, demonstration of thought leadership, and proactive participation on this theme. For these reasons, every Schlumberger employee and contractor is required to undertake regular driver training.

Since the Eastern and Southern Africa GeoMarket was formed little more than a year ago, 102 drivers have been trained in Tanzania and 33 have been trained in Mozambique. Simple behavior-focused, defensive driving training is provided to office-based staff, the minimum level of driver training provided to all staff. This training is also given in the field. Schlumberger has put in place a driving policy and a journey management system. This policy applies to all employees, contractors, and visitors. There are also driver training and commentary drive assessment available for employees and personal drivers.

Schlumberger is a leader in managing driving safety risks and is acknowledged as such within the industry for the quality of its training, use of technology, and demonstration of thought leadership.

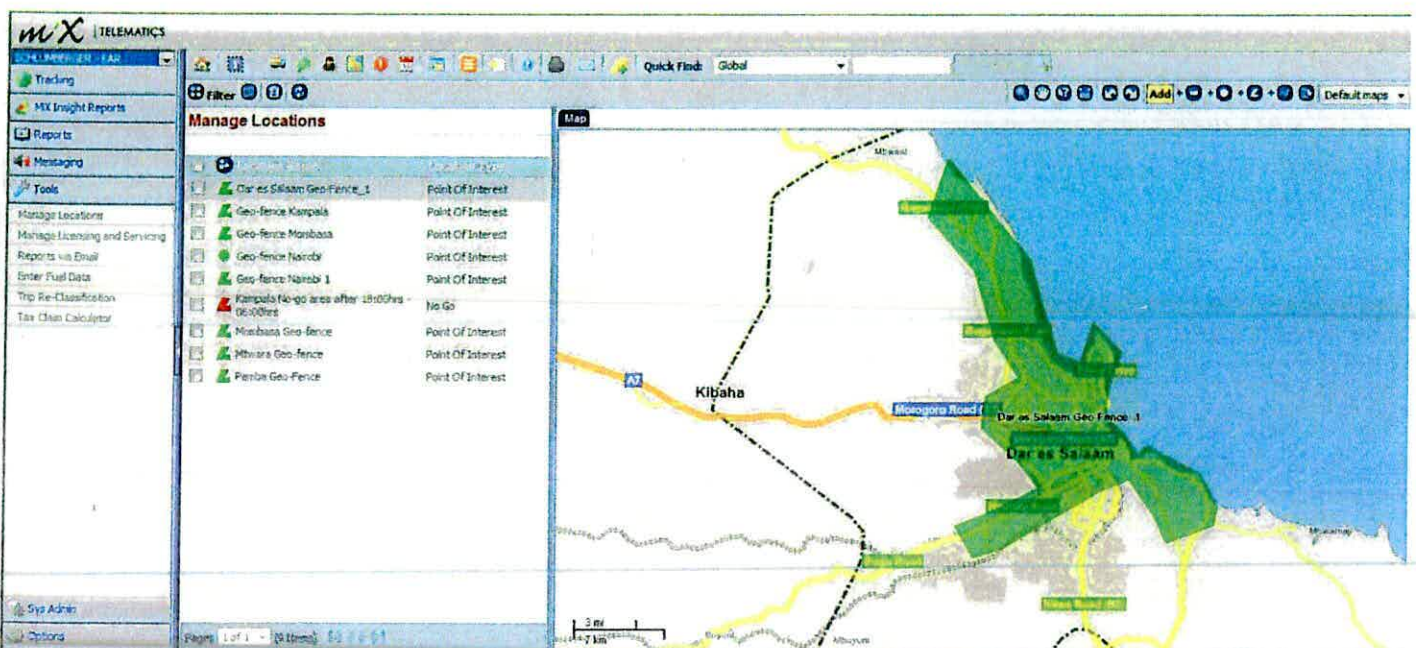

JOURNEY MANAGEMENT CENTER

In 2012, Schlumberger launched a journey management center (JMC) in Dar es Salaam, Tanzania, that is expected to make a major contribution to achieving its goal of eliminating driving fatalities. All Schlumberger vehicles, including those on contract, are equipped with in-vehicle data recorders that record a wide range of information, including the vehicle's position at any time. Staff members who have been trained on the journey management system coordinate and monitor all vehicle movements throughout East Africa from the JMC control room, which is manned 24 hours a day, 7 days a week. Currently, the center manages a fleet of 102 vehicles, more than half of which are contractor-driven cars in Dar es Salaam.

One critical component that requires active monitoring is our field trips. Drivers are required to log field trips in the Schlumberger e-journey travel management system before embarking on any trip. This results in an integrated management process to manage the driver, the vehicle, and the trip through an approval process. Once started, each trip is actively monitored using real-time tracking data sent by satellite to the JMC. Should any deviation to the trip plan occur, the JMC will immediately intervene. Staff will endeavor to find out the reason for the change of plan and, if appropriate, initiate an appropriate response.

Capacity building

Supporting universities and technical schools

Schlumberger realizes the value of investing in the development of Tanzanian and Mozambican engineers through strong relationships with universities. Without universities, there would be no next generation of Schlumberger engineers, scientists, technicians, and managers. And our success depends on our clients and suppliers, who similarly rely on the universities to produce the high-quality graduates they need to build their businesses.

In Tanzania and Mozambique, Schlumberger has developed and implemented local initiatives to promote excellence in university technical education and increase the E&P industry's involvement, visibility, and support in the universities.

Schlumberger and TPDC are jointly investing in a major industry capacity-building collaboration initiative at the University of Dar es Salaam. The first of three initiatives, delivering a fully equipped E&P computer laboratory, was completed in 2012 (see "Collaborating with the University of Dar es Salaam"). This laboratory will accelerate the practical preparedness of students to work in the rapidly growing Tanzanian and regional E&P industry.

COLLABORATING WITH THE UNIVERSITY OF DAR ES SALAAM

In 2012, Schlumberger and TPDC have collaborated to support the delivery of the geoscience and petroleum engineering curriculum in the University of Dar es Salaam's department of geology.

This collaboration has included eight high-end workstations, as well as refurbishing the room and providing furniture for it. Schlumberger installed the networking capability, donated software licenses for the industry-leading Petrel*, Techlog*, and PetroMod* software applications on each computer, and provided nine days of training on the software for nine of the university's lecturers. The participants achieved certification in the use of each of the applications and are now ready to teach the foundations of Petrel software for the petroleum engineering aspects of the department's geoscience and petroleum engineering curriculum. An additional two-day refresher training course will be provided for 10 lecturers in the first year.

In the same capacity building initiative, Schlumberger has proposed providing internships to 11 Tanzanian nationals currently undertaking the first year of their masters' programs in Norway. The students are studying at the Norwegian University of Science and Technology in Trondheim, where they are being supported by Statoil as part of the Angola-Norway-Tanzania ANTHEI university collaboration.

Work has started on the second of the initiatives, delivering a chemical and environmental laboratory, which focuses on supporting oilfield drilling operations. The laboratory is due for delivery in 2013. Schlumberger will pay for the ISO and SADCAS certification that will enable the laboratory to become a self-sufficient, internationally recognized facility providing testing and certification services to the industry.

The third initiative is to develop faculty and student support programs for lecturers and students in the geoscience, chemical, and petroleum engineering departments. These include discussions on curriculum development, a series of guest lectures, seminars and workshops on oil- and gas-related topics, and facility visits. In addition, several students will be given industry exposure through practical training internships.

VOCATIONAL TRAINING (PETROBRAS)

In 2011, 50 Tanzanians attended a three-month vocational training program with Serviço Nacional de Aprendizagem Industrial (SENAI), a widely recognized and respected Brazilian training organization. Instructors from SENAI came to Mtwara to deliver this training, which included mechanical and electrical maintenance classroom and practical training. Petrobras assessed the effectiveness of the program and through its selection process, 75% of these trainees passed and were certified. Schlumberger has committed to hiring 10 of these trainees as interns in various areas.

DEVELOPING TECHNICAL SKILLS

In addition to contributing to the development of graduates, it is also important for Schlumberger to promote the development of basic technical skills in Tanzania and Mozambique.

DRILCO, a Schlumberger company, offers certified inspection and repair of drillpipe and tubulars. A new DRILCO workshop is being built in Mtwara, Tanzania, and the company will hire personnel to work there. However, DRILCO has found it difficult to recruit dependable mechanically skilled personnel in Tanzania but does not want to bring in workers from overseas.

In a pilot project to start in 2103, DRILCO will recruit four unskilled workers in Tanzania and train them to work in inspection, machining, and welding operations. On completing their training courses, they will embark on a 2–3 year apprenticeship with DRILCO involving a high level of on-the-job training before becoming certified oilfield operatives. As part of the Schlumberger workforce, these certified graduates may be given opportunities to work in other areas in the oil and gas industry. In this way, Schlumberger and DRILCO aim to contribute to sustainable development in Tanzania while ensuring adequate pools of local talent for future growth and increasing the standards in the oil and gas industry.

DRILCO will send four of its 2013 Tanzanian recruits to the Don Bosco Vocational Training Center in Tanzania, which trains male and female students from 19 to 21 years of age in a variety of vocational technical subjects. Two of the recruits for the DRILCO machine shop operation will become machine/sheet metal students and two for the DRILCO inspection operation will become electrical students.

The programs the recruits will attend at the center will consist of two-year courses in classes of 20 students supervised by four instructors working to a properly defined curriculum. They will receive basic training in their disciplines through working to a prearranged program of instruction and hands-on tuition. They will be examined regularly and will receive certificates on successful completion of the course.

SUPPORTING WOMEN IN SCIENCE

The Faculty for the Future is the flagship program of the Schlumberger Foundation, an independent nonprofit organization closely aligned with Schlumberger values and long-term interests.

Launched in 2004, this program is a capacity-building initiative that seeks to generate conditions that result in more women pursuing science disciplines. It funds and supports female academics from emerging and developing economies in pursuit of PhDs or postdoctoral qualifications.

To date, the program has supported six Tanzanian women in their PhD studies in universities around the world through the Faculty for the Future program of the Schlumberger Foundation (see table below). They joined a community of scientific researchers, women, and academics that number in excess of 267 fellows from 43 countries. These women are expected to return home to become leaders to strengthen their university faculties, contribute to the socioeconomic development of their countries, and serve as powerful role models for attracting more young women into the sciences. Ultimately, Schlumberger hopes to support a better gender balance at the faculty level.

The Faculty for the Future program supports a wide range of scientific disciplines. Additionally, the Schlumberger Foundation supports doctoral scientists from African countries in partnership with Cambridge University, UK.

Faculty for the Future Fellowships Awarded to Tanzanian Women

2008	Kissa Kulwa	PhD in applied biological sciences	Ghent University, Belgium
2010	Tuyeni Mwampamba	Postdoctorate in ecology	National Autonomous University of Mexico
2011	Happy Magoha	PhD in applied biological sciences	Ghent University, Belgium
2011	Silvia Materu	PhD in environmental toxicology	Hamburg University of Applied Sciences, Germany
2011	Rehema Monko	PhD in engineering science	Louisiana State University, USA
2011	Dativa Shilla	PhD in environmental science	University of the Ryukyus, Japan

DATIVA SHILLA (FELLOWSHIP AWARDED 2011)

Dativa Shilla was awarded a Schlumberger Faculty for the Future Fellowship in 2011 to help her complete her PhD in environmental science at University of the Ryukyus, Japan.

Dativa's doctoral research focuses on the effects of terrigenous organic substances and nutrients on water quality and on biogeochemical cycles of materials in coastal waters. This subject is essential for proper coastal zone conservation and management, and is of particular importance in Tanzania, where, owing to a shortage of skilled labor and equipment, there have been very few studies on river systems and their associated coastal waters.

Dativa completed her PhD studies in September 2012, and has resumed her teaching and research work at the University of Dar es Salaam.

TUYENI MWAMPAMBA (FELLOWSHIP AWARDED 2010)

Tuyeni Mwampamba was awarded a Schlumberger Faculty for the Future Fellowship in 2010 to help her complete her postdoctorate degree in community forests and payment for ecosystem services at the Universidad Nacional Autónoma de México (UNAM). Tuyeni researched forest-derived ecosystem services with a focus on ecosystem services in secondary forests (forests that regenerate after the primary forest is removed).

She says that ecosystem services are a new commodity on the world market and that poor communities in developing countries are in a good position to produce these services. By working with the Tanzanian Forest Conservation Group, she hoped to apply her research to protect forests in Tanzania and benefit local communities. At an international level, her research was designed to contribute to the role of communities in climate change policy discussions, especially those policies that relate to the trading of carbon and other ecosystem services.

Tuyeni is now working as an associate research professor at the Centre for Ecosystem Research, UNAM.

KISSA KULWA (FELLOWSHIP AWARDED 2008)

Kissa Kulwa was awarded a Schlumberger Faculty for the Future Fellowship in 2008 to help her complete her PhD in applied biological sciences at Ghent University, Belgium. She is particularly interested in investigating the extent to which seasonal variations in food consumption patterns influence nutrient intake and growth, and in the effectiveness of a food-based approach in improving the quality of complementary meals, dietary adequacy, and the growth of rural children.

As undernutrition is an underlying cause of nearly 60% of child deaths in Tanzania, she hopes that understanding the behavior and motivation influencing early feeding will help in developing effective and sustainable nutrition interventions. On completion of her doctoral program, Kissa intends to continue teaching at Sokoine University of Agriculture in Tanzania.

Local economic development

Until recently, Schlumberger's presence in East Africa has been as sporadic as the oil and gas operations in the region. Now, with the rapid growth in exploration activity, we are embarking on what we hope will be a long and significant involvement in the expansion of the region's indigenous oil and gas industries. In Mozambique and Tanzania, we are investing heavily in our operating bases and infrastructure. In doing so, we are going to great lengths to ensure that we comply with the governments' policies and laws on investment.

In plans submitted recently to the Mozambique Ministry of Planning and Development, Schlumberger gave a commitment to make significant investments in Mozambique over a period of five years and to develop its local workforce. It will also put in place measures to ensure that its activities are conducted in accordance with the technical rules on protection and conservation of the environment near operations in Pemba, Mozambique. As a result of these commitments to Mozambique, the country's Ministry of Planning and Development has granted Schlumberger 200 work permits for expatriates, which will enable the investment in Pemba to go ahead.

DIRECT SPENDING IN THE LOCAL ECONOMY

Schlumberger relies heavily on proprietary technology manufactured in its technology centers around the world. However, as a global company, we also understand the benefits of maximizing our interactions with local suppliers: they make us

less susceptible to problems arising from having to import skills, products, and raw materials. The result is that active participation in the local economy can help us to deliver products and services to our customers more reliably.

When sourcing supplies, construction and fabrication work, and certain types of equipment, we actively engage local suppliers in Tanzania and Mozambique and pursue partnerships and alliances that make us less reliant on imports. Over the past two years (2011–2012), we have contributed approximately USD11 million dollars to the Tanzanian and Mozambican economies through local spending with our network of about 270 local suppliers.

EXPENDITURE ON OUR LOCAL ACTIVITIES

Local Industry Supply Chain Expenditure				
	Mozambique		Tanzania	
	2011	2012	2011	2012
Average number of active local suppliers	10	66	36	204
Core supply expenditure: local companies (USD)	1,268,065	4,614,188	1,133,270	4,478,604

INDIRECT SPENDING IN THE LOCAL ECONOMY

The amount spent with local suppliers is only a part of the Schlumberger expenditure in Tanzania and Mozambique. During 2012, Schlumberger also made a considerable contribution through the wages and other benefits paid to its local employees in Tanzania and Mozambique.

The full impact of Schlumberger activities in Tanzania and Mozambique extends far beyond the financial effects of local spending on the compensation of its employees and purchases made via the local supply chain.

When working with local suppliers, we share our HSE practices, especially when involved with field operations; our contractors are required to have training to the same levels as our employees. For example, we interview contractors' drivers and provide them with training to our international driving standards. Their cars must also be equipped with seat belts and in-vehicle monitors. We even train our drivers to help with enforcing our malaria standards. Drivers taking passengers to the airport are required to ask their passengers whether they have their malaria kit before leaving the country and to report back if they do not.

Investing in permanent operating bases in Mtwara and Pemba has direct and indirect economic impacts. Significant business opportunities are likely to arise for local companies (see “Being secure”). This will lead to further economic activity, including the creation of jobs in the supply chain, as suppliers engage other suppliers to meet their needs and as suppliers’ employees spend a portion of their wages in their communities. In addition, Schlumberger activities also play a part in creating the demand for national infrastructure, for example, the construction of tarred roads, that benefit the industry as a whole.

BEING SECURE

When Schlumberger first established a permanent presence in Mtwara, Tanzania, there was no company in the region that it could go to for security advice and services. KK Security, the security company it used in Dar es Salaam, was approached with a request to provide security in Mtwara. The company recruited 35 male guards from the local region to deliver the service required. Each attended a two-week security training course to give them the knowledge they needed to meet Schlumberger’s requirements in Mtwara.

Schlumberger now plans to provide additional first aid and emergency response training to these guards to further improve their skills and employability.
