## 7.0 Problems and Solution

The company has been able to make substantial development by being able to purchase 97 trucks. The biggest challenge that the company is facing now is the mobilization of funds to acquire more vehicles. Another problem is lack of incentive such as tax exemptions

which has made the vehicles to be more expensive and it has been difficult for them to continue acquiring more vehicles.

### **8.0 Future Plans**

The company intends to purchase 40 vehicles to include trucks, trails and tankers by the end of year 2021.

### **9.0 Recommendation**

In view of the preceding analysis the TIC is requested to consider their request to amend the project shareholding pattern.
