Dear Sir

RE: APPLICATION FOR CERTIFICATE OF INCENTIVE FOR MEDIUM TO LARGE SCALE RABBIT FARMING – AT MITOBOTO FARM. KIBAHA. COAST REGION.

Please refer to the above subject matter.

Mitoboto Farming Company Ltd is Tanzanian registered company dedicated to agricultural and livestock activities at our farm located at Kibaha, Coast Region. The farm development started in 2012, with a vision of mixed farming activities – horticulture, fruits production, hay production, poultry farming (mainly Broilers for meat) and other support developments to support the above main activities.

We humbly request TIC to look at this pioneer project for this country, as it will be the first and only big rabbit rearing farm for now in Tanzania and even East Africa because it will have a complete integrated system from rearing to feeds production and processing in one place.

Awaiting your early and positive response, we remain

Yours faithfully

.....
