Dar Es Salaam
Tanzania

Dear Sir,

RE: Request for meeting to Engage on the Gas Requirements for the Kairuki Pharmaceutical Industries Ltd. (KPIL) in Kibaha, Pwani Region Tanzania.

KPIL is investing in the creation of asset in Zegeleni,Kibaha that will manufacture intravenous fluids for uptake in Tanzania, and in the rest of EAC and SADC. The plant will employ Good Manufacturing Practice (GMP) for the manufacturing of intravenous fluids.

To date we have been preoccupied with securing a line of credit for this investment, preparing the site for the receipt and installation of the plant and equipment, securing future distributors, and identifying and purchasing the plant and equipment including four (4) gas generators with the capacity of 350 Kw each which are scheduled to arrive in the first quarter of this year. Our schedule dictates that we will need to have gas (CNG) on the site for feeding into the generators at the beginning of August 2020 as this when we hope to commence production.

We therefore request a meeting on the 11th January 2020 or at your earliest convenience to discuss amongst other things the following:

1. The Gas Sales Agreement and in particular the proposed gas prices captured in the draft document shared with us by your team
2. Pre-financing and how KPIL would be reimbursed for upfront capex investment made to feed gas into our plant
3. Timelines and scheduling in order to agree on interventions for ensuring that our desired target of August 2020 is met on time
4. Additional User Licensing requirements that KPIL would need to comply with in order to acquire and utilise gas
5. Any other business of mutual concern and/or interest

Please advise if a meeting would be possible on the 11th January 2020 at your offices. I request a 10:00 am meeting slot.

Thanking you in anticipation of a positive response.

Dr MuganyiziKairuki
