5. ExD (F8-F9=M3+M.4)

Tarime wood and poles treatment plant Ltd has a registered project to TIC with purpose for establishing and operating timber processing and poles treatment. This project was firstly registered to TIC on 27th May, 2014. However, the project did not take off due to various reasons mentioned under (F.8) and confirmed by Zonal Manager (LZ). We have also confirmed that an investor has never enjoyed fiscal incentives since inception (Ref. M.4). An investor has shown interest to re-start his project and requesting re-issuance of CoI.

In this aspect we request you to grant re-issuance of the CoI so as to enable this investor to implement his project at fullest.

I humbly submit.
