RE: AMMENDMENT OF CERIFICATE LOCATION OF PROJECT AND SECTION 1 SHAREHOLDING STRUCTURE

Dear Madam/Sir,

Reference to the above subject, your TIC letter TICC/PP.10/071240/11, and Our letter TIC/WPQ/001/2021/11, please note that we are continuing the project objective as indicated in the progress report submitted on 16th of last month.

Our plan consists of three folds:

1. Adding the transport of heavy Machinery to support the many infrastructure and mining projects which are spurring in Tanzania.
2. Expanding our workshop scope to include, in addition to servicing the transport service sector, services to heavy-duty machinery; and
3. introducing rental machines to boost revenues. That compliments the two points above.

We have rectified all the things that were recommended by the TIC team in 2020. We believe that the plan going forward mentioned above is a continuation and evolution of the original plan and not a complete abandonment of it. Therefore, we kindly ask your office to accept the amended plan and update the TIC certificate as requested.

Again, we appreciate your continued assistance to support our investment in Tanzania and we hope for a continuing relationship.

Yours, Sincerely

Hamze Hotait -Director
HOTAIT GROUP LIMITED
