RE: CLARIFICATION ON ENVIRONMENTAL AUDIT STUDY PROCESS STAGNATION.

The above heading refers.

As the above subject refers, we would like to clarify before the council on the stagnation of EA study process. Previously the company registered its project before the council and the project was registered and being assigned project registration number **8046** and reference number **NEMC/LZ/EA/3/007/VOL.1/1** through the letter dated 21/02/2017 where the company assigned to pay the review cost of 5,500,000 (Five millions and five hundred thousands) the company paid such amount **see attached receipt** therefore after payment the environmental consultant Mr. PHILEMON NYALUANDA was left with other certificate procedures accomplishment where he failed to archive the company goal. But due to the company ambition on environmental compliance has commissioned Mr. MANG'OMBE ROCKET MAHEGA to complete the remaining step towards attaining Environmental Audit Certificate. Therefore we kindly ask the way forward to archive EA certificate attaining through the new commissioned consultant.

Therefore the company would like to thank your organization towards your cooperation on this matter

Thank you

Waiting your responses

Thank you
