17th June, 2020

The Executive Director,
Tanzania Investment centre,
P.O box 938.
Shaaban Robert Street,
DAR ES SALAAM,

REF: APPLICATION FOR EXTENSION OF INCENTIVES CERTIFICATE NO. 043061 OF 7TH AUGUST 2019 FOR GOLD PROCESSING PROJECT AT GEITA

Refer the above captioned subject.

Our company is in the final process of installing gold processing plant at Mbongwe District, Geita Region.

The company is installing a brand of CI L gold processing plant which is among the latest technology in the processing industries.

Our goal and expectation was to finish installing the machine by the Expert from HENAN LIMING HEAVY INDUSTRY SCIENCE AND TECHNOLOGY COMPANY LIMITED of China (the company which sold the machine to us) had gone back China for a holiday since February, but failed to come due to the prevailing Corona virus pandemic, otherwise we could have finish to install the plant.

Due to the easing of the pandemic we are expecting him to come by early July and continue installing the machine.

The project is over by 80%.

Probably before this December we could start production.

We therefore request your good office to extend our certificate of incentives accordingly.

Attached herewith find our original certificate of incentives no. 043061 and the current progressive report which has all the detail.

Thanking you in Advance,

Yours Truly,

Ameer A. Mohamed
Managing Director.
