Dar es Salaam.

Sub: Application for Certificate of Incentives – Cargo Transportation and Logistics Project (TISEZA)

Dear Mr. Gilead Teri,

We are pleased to submit this application for a Certificate of Incentives under the Tanzania Investment Act and the **Tanzania Investment and Special Economic Zones Authority (TISEZA)** framework for our proposed investment project in **cargo transportation and logistics services**, to be undertaken by **Dodoma Washed Sand LTD**.

The project is aimed at establishing a reliable and efficient cargo transportation company providing haulage and logistics solutions for construction materials, industrial goods, agricultural produce, and general cargo. The company will operate a modern fleet of trucks and supporting equipment, supported by efficient management systems to ensure safety, reliability, and compliance with national transport and environmental regulations.

This investment will be implemented in **Dodoma Region, Chamwino District**, and is expected to contribute to national development through improved logistics efficiency, job creation, support to infrastructure and industrial growth, and facilitation of trade and distribution of goods within and beyond the region.

To successfully implement the project, we intend to import essential transportation equipment, trucks, and operational machinery. We therefore kindly seek the **TISEZA Certificate of Incentives** in order to benefit from tax reliefs and other facilitative services provided under the investment promotion framework.

Please find enclosed our detailed business plan, company registration documents, project feasibility summary, and other supporting documents as required.

We appreciate your kind consideration and look forward to your positive response. Should you require any further details or clarifications, please contact us through; **0655332206 or 0757333333**.

Yours sincerely,

.....
Omary Charles Njovu
Director – Dodoma Washed Sand LTD.
