RE: APPLICATION FOR EXTENSION OF TIC CERTIFICATE NO: 017140

COLOURFUL INDUSTRIES LIMITED is a company registered in Tanzania and issued with certificate of incentive number 017140 to manufacture of plastic related products. The company is planning to accomplish the planned investment within two years from now; therefore the management is requesting TIC to extend the certificate for Two year to complete the project.

The project has not been completed as it was planned due to limited availability of cash flow. With the improvement of cash flow presently, we will be able to finance the remaining part of the project.

we have acquired a plot in Buza, Temeke, Mashine ya maji number 2989 block number 2999 by way of a lease. We have developed the plot and at this place we are manufacturing plastic products, such as Mats, Hand brushes, Brooms and Disposable plastics cups. Hence we are requesting to add the address in certificate of incentive.

Bellow find attachments

- TIC application
- Company board of resolution
- Bank statement
- Original TIC certificate
- Proof of payment of \$1000

Yours faithfully
