Re: Solar Power Project Kahama

SSI Energy Tanzania Ltd wishes to apply for a certificate of incentives from TIC in order to guarantee our interest in land for our project in Kahama, as SSI Energy Tanzania Ltd is a majority foreign owned business. The process of transfer of title via TIC delegated powers is critical to the success of our investment.

Further we require certainty from TRA regarding import duties and VAT deferments for the majority of the components of the solar power station that we will build and operate.

There are other important elements and benefits the Certificate of Incentives confers, such as the immigration support for the permanent and temporary staff the project requires for its successful implementation.

We are grateful to TIC for support in issuing the Certificate in respect of this exciting and important project.
