Dear Sir,

**RE: APPLICATION FOR REGISTRATION OF PROJECT**

We are a large local transport company with a road transport fleet of over two hundred trucks and trailers.

We have decided to increase our fleet by an additional three hundred trucks and trailers. This investment will be carried out within a period of three years.

The total capital investment is projected at United dollars Thirty million Six hundred Seventy three thousand two hundred (USD 30,673,200).

This investment will include USD 300,000 to be utilized for the construction and equipping of yard and workshop to accommodate the road transport fleet. The relocation of our current yard and workshop facilities are necessary because of the inland Port currently been established by TPA at Kwala, Coast Region. On full operation of this dry Port it is planned all road transport trucks will operate from Kwala.

We operate mainly on the routes to D.R.Congo and as the TPA is planning to increase cargo through Dar es Salaam Port to D.R.Congo from 1.9 Million tons to 3 million we intend to cash on this new business hence the reason for this additional investment.

TPA has also expanded the Karema Port in Lake Tanganyika to increase export facilities for cargo to D.R.Congo. Eventually this Port will be served by SGR train from Dar es Salaam but in the meanwhile the road to Mpanda and finally to Karema is being constructed to tarmac level therefore road cargo traffic to Karema Port from Dar es Salaam is eminent pending commissioning of the SGR Trains.

+255 754 283 337 | +255 747 283 334

We have attached our business plan for this project which clearly indicates the feasibility and viability of the project.

The financing arrangements are finalized and we are ready to start the project.

We look forward to the project registration and Receipts of the Certificate of Incentives for this project.

Yours Sincerely

F.M. Binkleb  
Managing Director
