Reason for extension

During year 2020 and 2021, we suffered a setback on our implementation plans due to severe impact of the Covid-19 Pandemic whereby importation of Medical Equipments as well as business travels were impacted to a great extent and this caused significant delays in our implementation. Since beginning of this year, we have been tirelessly working to gain momentum and we hope to start implementation of our first state-of-the-art Dialysis Centre within next 3-4 months and we are in the process of importing the required medical equipments for the same. Considering the circumstances, we sincerely hope for your support in extending the implementation period for further 3 years which will assist us in opening more centres and import the required medical equipments for the same. This way we can smoothly resume operations and provide the best possible medical services to the patients in need of Dialysis.
