

**1. Planned activities for the period**

- Construct a pre fabricated steel structure of 1,000 square meters. Open plan, designed to be able to facilitate state of the art manufacturing of Liquid Medical items that are typically sold over the counter.
- The planned items are Methylated Spirit, Klentol (Dettol), Povidone Iodine, Mouth Wash, etc items.
- Stage 2 expansion- planned to manufacture items like cough syrups, etc.
- Stage 3 expansion – to establish toothpaste production.
