Re: Application to register Hunting Safari's Project

The subject above refers.

Our company, Trailchasers Limited is a locally incorporated company registered under the laws of the United Republic of Tanzania since May, 2019.

The company was incorporated with the main objective of investing in the tourism industry with main focus on creating unique hunting and fishing expeditions.

This total investment for the project is expected to be at least \$500,000 including the hunting block fees, safari vehicles, camping equipment, and working capital and is expected to employ up to 14 people in the first year which should increase to at least 30 people by the third year. The funds will be sourced from shareholders contributions and will be provided in the form of equipment, vehicles and working capital.

In line with our implementation plan for the project, we do hereby apply for our project to be registered with the Tanzania Investment Centre. It is our expectation to kick off the project by January 2023 in preparation for the 2023 season which kicks off in July.

We will be much obliged to get a favourable response from you and will gladly furnish any further information required regarding the project.

Sincerely,

Gladwyn Spero
Director
