Dear Madam/Sir,

**RE: APPLICATION FOR AMMENDMENT AND EXTENTION OF CERTIFICATE OF
INCENTIVE**

Refer the heading above,

Zhen Hua Company Limited was registered with TIC in 2017 with the aim of investing in fish maws processing and export. Due to the challenge of capital to finance the project and delays in getting NEMC environmental certificate the project was not fully implemented as how it was planned.

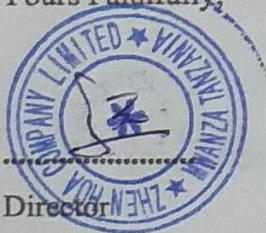

We are applying for extension of our certificate of incentive to enable us to implement our project as we have now secured funds and we are working together with NEMC in order to get our Environmental certificate for smooth implementation of the project.

Also the company has made changes in the shareholding structure by transferring 2000 shares to Mr. Ni Fuwen hence we request your office incorporate the changes in our certificate of incentive.

Together with this application we have attached progress report and project photos, Breala Search, Original Certificate of incentive and payment receipt for 1000 USD which we paid for the amendment.

Your cooperation on this matter is highly appreciated.

Yours Faithfully,

Director
