RE. APPLICATION FOR CHANGE OF PROJECT ACTIVITY

Please refer to the heading above

We registered our project at TIC in 2019. We were given certificate number 024445. Our planned business was to manufacture and assemble oil filters. Due to market challenges we have faced we want to change the activity by leasing our space. We write to you to request for the permission to lease the space. This is because we constructed it and our MEMART no 3 d states that we have an activity of construction.

We attach our progress report and other documents

Yours faithfully

Masuke
