SECTION 1 EXECUTIVE SUMMARY

Adam Clements Safaris Limited is a private company limited by liability established under the Laws of the United Republic of Tanzania on the 24th day of October 2018 under a certificate of Incorporation number 137978016. The company has been in the tourist hunting business, and has been engaged in a widespread of conservation initiatives throughout its years.

The Tanzanian hunting industry compares favorably with other hunting industries in Africa. However, with the available resources and the amount of big game hunting opportunities, the country should be able to take the lead in the industry. Income generation for the Wildlife Division by the Tanzanian hunting industry is largely dependent on trophy fees, i.e. on the number of animals hunted. Although on the whole hunting is sustainable, there are many concerns being raised that selected key species, such as lion may be over-hunted and that quotas in some areas may not be sustainable.

Adam Clements Safaris Limited however, has through the years nurtured relations with village communities and has had opportunities to educate and sensitize local communities of the importance of conservation initiatives and a sustainable environment. For the tourism industry as a whole to flourish and survive future generations, there is the need for local communities to have awareness and adhere to laws and regulations on their own accord.

Without being able to realize the direct benefits from conservation, this is something that most locals would understandably have a hard time accepting. Therefore, Adam Clements Safaris takes the responsibility to continue to provide not only knowledge, but also business, trainings, and employment opportunities throughout its various projects.

The investment is broken-down in five-year phases as for the anticipated tenure period 2023-2032. The proposed schedule is summarized below

SECTION 4. MARKET ANALYSIS SUMMARY

The current drive, emphasis and promotion of the tourism industry by the government presents an opportunity for Adam Clements Safaris Limited to make a valuable contribution towards achieving an increase in foreign visitors in the country. According to the World Economic Forum (“WEF”) report Tanzania is one amongst the clear leaders within Sub-Saharan Africa (“SSA”) in terms of ranking of natural resources.

Having undertaken a thorough and comprehensive research of the market and tourism forecast by 2025 the country hopes to reach \$6 billion in tourism revenue. Although Tanzania’s ranking is broadly in line with the SSA average, it does lag Kenya and South Africa by quite a bit. More generally, the WEF report does highlight that East Africa as a region does not rank as highly as Southern Africa in terms of price competitiveness.

Adam Clements Safaris Limited realized that there was a need for a hunting company that focuses on providing high end, luxury leisure excursions to tourist hunters and photographic safaris.

Supported by the Government’s campaigns promoting domestic tourism, the Company firmly believes that the Central Government, village communities and the local Investors shall all reach their financial, societal and environmental goals in the near future.

Section 4.1 Market Segmentation

Adam Clements Safaris Limited is anchoring on foreign both hunters and photographic tourists seeking high-end travel and expeditions whilst in Tanzania, with the intention of inviting them to the endless attractions and unique Wildlife that Tanzania has to offer. The Company’s client base is predominantly foreigners from Europe and the Americas.

Total	9.11%	60,000	65,450	71,406	77,915	85,029	9.11%

Section 4.2 Target Market Segment Strategy

Adam Clements Safaris Limited delivers five-star refined hunting and safari experiences to all of its clients and has continually built reputation on this. The Company's marketing strategy is focused on availing top-notch services to the Company's intended clientele.

The marketing strategy captures the unique nature of tourism and hospitality in Tanzania and will convey Tanzania's distinct wildlife and natural resources.

Section 4.2.1 Market Needs

A hunting tourist always looks for good quality game and exceptional trophies from hunting areas. These are readily available in the Burunge Wildlife Management hunting block. The company will complement this with quality services to its clients, together with its strong conservation efforts and anti-poaching presence in order to ensure the sustainability of the area.

Section 4.2.2 Market Trends

The only question is how large the industry will become and whether it can sustain, if not exceed, its current growth rate. However large the market ultimately becomes; the company strongly believes that travel will be an important component of this market place. Tourism statistics provide a reliable guide as to the size of the market. According to the latest tourism statistics Tanzania's tourism sector generated USD 1.4 billion in revenues in 2021, versus USD 1 billion in 2020 when it was severely affected by the Covid-19 pandemic and its impact on international travel.

In 2021, the number of tourist arrivals reached 922,692, equivalent to an increase of 48.6% from a 620,867 in 2020 when the world was hit by Covid-19 and many countries-imposed travel restrictions.

Section 4.3 Service Business Analysis

Potentially Tanzania's richest natural resource, the tourism industry is becoming an increasingly important player in the economy and may in the long term prove even more valuable than mineral resources in earning foreign exchange. With this in mind the Company continues to play a contributing role towards development of the tourism industry through provision of an impeccable service facility primarily directed at tourists and conservation of these natural resources.

Section 4.3.1 Distributing a Service

Hunting tourism business is sold mainly on a word of mouth and referral basis with relationships and previous experience being, by far, the most important factor. Relationships in this regard means establishment of links with the various travel agencies who often come into contact with the Company's target customers.

Invariably the experience a customer has with Adam Clements Safaris Limited will go a long way toward influencing them in whether they should refer their friends to use its service(s). To this end the Company intends to ensure it provides a luxurious, comfortable and unforgettable experience to its customers that will only encourage them to pass on a good word about the Company and of course Tanzania as a nation.

Section 4.3.2 Competition and Buying Patterns

The key element in service utilization decisions made at the Company's client level is trust in the reputation and reliability of the firm. The most important factor in this market will be the quality of the service and quality of trophies. This is particularly so considering the various interests of individuals and groups as they strive to get as many quality trophies as possible.

Section 4.3.3 Main Competitors

The Company has identified a number of competing companies, some firmly established, that fill similar needs as Adam Clements Safaris Limited. The Company having established a solid market implementation strategy shall continue to market itself in such a way that competitor customers will choose its service over competitors on the basis of its higher quality, competitive prices and informative and unforgettable experiences.

SECTION 5. STRATEGY AND IMPLEMENTATION

Adam Clements Safaris Limited marketing strategy will capture the unique nature of tourism and hospitality in Tanzania and will convey Tanzania's distinct wildlife and natural resources.

In order to achieve its goal of becoming the premiere hunting company, the Company shall implement the bellow strategies:

1. Maintain and increase the Company's reputation as a leading tourist hunting company both locally and more so internationally. This will be accomplished through a diverse media marketing strategy. Using different mediums such as promotional flyers, social media presence, up to date websites to mention a few shall positively increase the Company's clientele base and promote the Company brand world-wide.
2. In order to differentiate Adam Clements Safaris Limited from its competitors in the field, the Company shall strive to provide unparalleled professional service and five-star comfort to its clients both local and international.
3. Understanding the current international stance on the tourist hunting industry as a whole, the Company believes it pertinent to provide education and promote sustainable consumptive tourism. The Company shall implement strategies to promote tourist hunting as an activity that is consistent with Tanzania's policy of wildlife conservation and utilization. The Company aims to promote sustainable use of wildlife and to maximize economic returns from low-volume yet highly priced markets.
4. Adam Clements Safaris Limited intends to build image and awareness through consistency and distinctiveness in its service provision.

Section 5.1 Competitive Comparison

The company's competitive position in the market is very strong. Most of its business is 80% repeat clients and as such, the company has its own 'core' group of clients that normally hunt with the Company. The remaining 20% are also normally reaped from word-of-mouth recommendations from the 'core' group of clients.

Section 5.2 Keys to Success

Adam Clements Safaris Limited's keys to success include:

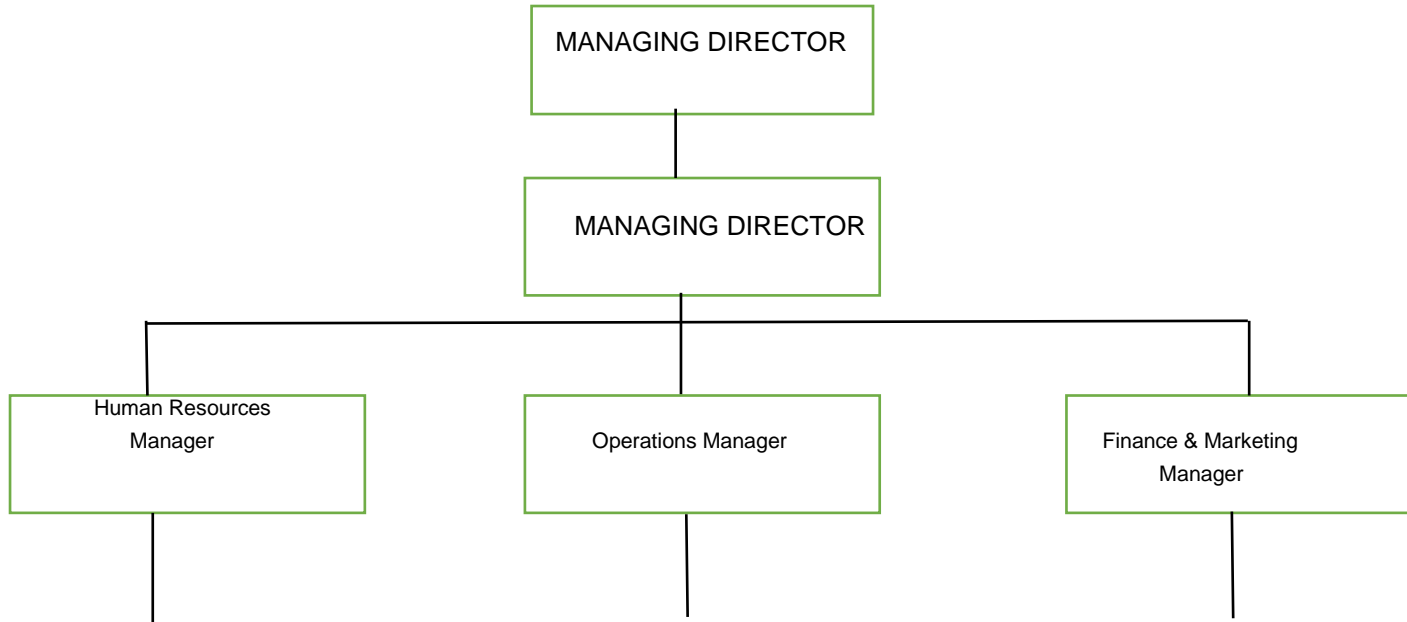

- A) High Level quality of services and professionalism;
- B) Maintaining and growing its referral networks to generate new and repeat business;
- C) Significant investments in facilities and services; and
- D) Improving efficiencies of operations.

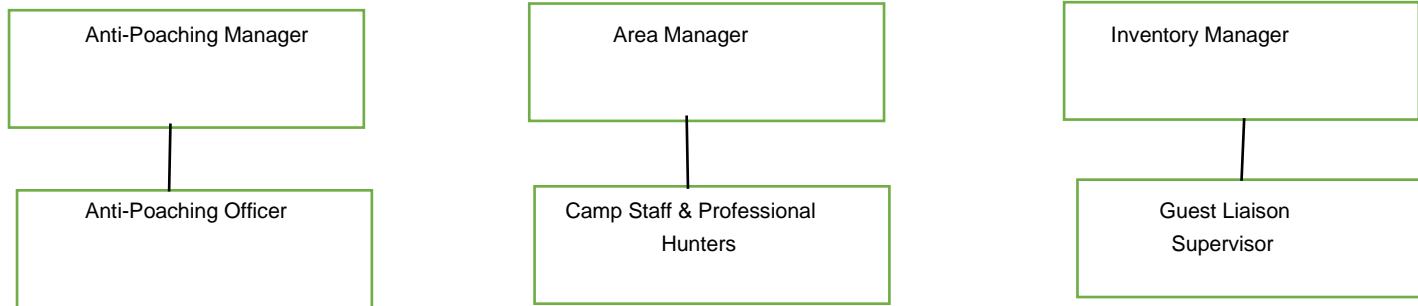

SECTION 6. MANAGEMENT TEAM

The human resources element is an essential component in the delivery of the total service. By encouraging all employees to handle customers with the utmost care and by having enthusiastic, capable and professional people interacting with its customers, Adam Clements Safaris Limited has built the competitive advantage of being able to comprehensively meet its customers' needs. There will be need to evaluate jobs and remuneration packages against market benchmarks to employees for their agreed and set out tasks so as to ensure they are competitive. These principles extend to accident, medical, death and welfare benefits.

Section 6.1 Organizational Structure

The company has employed a functional organizational structure as illustrated below:

In engaging this organizational structure, Adam Clements Safaris Limited ensures that there is open communication between all personnel at all levels. Additionally, Adam Clements Safaris Limited believes that this module is simple and an efficient way to maintain good communication and support amongst all staff. Adam Clements Safaris Limited's organizational structure demonstrates the importance it puts on its customers, and ensuring their satisfaction in utilizing Adam Clements Safaris Limited's services.

Section 6.2 Management Team

The Company has a vertical management structure that helps to oversee the day-to-day operations of the Company. The main departments are; Human Resources, Finance and Accounting, and Marketing. The factors which were considered when designing this type of organization structure include clarity, understanding, decentralization, stability and adaptivity. Clarity within an organization means that employees have a complete picture of all aspects of their jobs. In other words, workers and supervisors are required to know what the employee's goals are as well as the individuals' tasks requires to reach those goals.

Section 6.3 Personnel Plan

The detailed monthly personnel plan for the first year is included below. The annual personnel estimates are included here. We believe this plan is a good compromise between fairness and expedience, and meets the commitments of our mission and business objectives.

Section 6.3.1 Training

In-house training shall be continuous so that Adam Clements Safaris Limited are continuously up-to-date in meeting customer requirements. With time the company also intends to undertake regular external training particularly following any new developments in the market. This will ensure it is implementing the latest techniques and aware of customers' expectations. By setting its standards against industry benchmarks the Company will be able to ensure a regular flow of customers as they are continually referred to it.

SECTION 7. FINANCIAL ANALYSIS

The financial plan shall be essential if the Company is to meet its objectives. The intention is to finance growth through cash flow and equity.

Section 7.1 Sales Forecast

Sales forecasts are based on the following assumptions:

- The Company assumes a strong economy, without major recession.
- The Company assumes, of course, that there are no unforeseen changes in Government economic policy to make its service immediately obsolete or unwanted.
- The Company assumes, that no natural calamities, pandemic, terrorist threats shall interfere with operations.
- The Company assumes the economic stability of the supplying
