RE: APPLICATION FOR EXTENSION OF TIME FOR CERTIFICATE OF INCENTIVE

Reference is made to the above captioned subject matter.

Kilimanjaro International Leather Industries Company Limited formerly known as Karanga Leather Industries was established on 30th May 2021 with the objective of undertaking development of operations of leather industries in Karanga area, Moshi Municipality.

The Company was issued a Certificate of Incentives No. **017114** on 6th April 2018 and was operational until April 2021. However, the project is still in progress hence the request for extension is due to the following reasons;

- i. The Company signed contract No PA.158/2019/2020/HQ/W/01-LOT2 for establishment of Tannery Factory on 16th April 2020. The Contract period was to run for eight months. However, the intended completion date has expired and the project is not yet completed. The revised intended completion date is now 22nd May 2022.
- ii. Though the Tannery factory is expected to complete on 22nd May 2022, the operations of Tannery cannot commence until the Effluent Treatment Plant (ETP) has been established. The Effluent Treatment Plant is a process designed for treating the industrial waste water for its re use or safe disposal to the environment. The construction of the ETP commenced on 28th January 2022 and is expected to be completed in September 2022.
- iii. The Suppliers of Machines, Italprogetti from Italy cannot commence, Installation, Testing and Commissioning of machines of the Tannery factory until the ETP is established.
- iv. The Company shall also need to procure additional machines, spare parts, accessories and chemicals from our suppliers of machines from Italy to facilitate the Installation, Testing and Commissioning of the machines of the Tannery factory.

In view of the above, we request for extension of time for a period of 24 Months.

We appreciate your usual cooperation.

Yours Sincerely,

KLICL

CPA. Shalua Magandi
