P.O. Box 938
Dar es Salaam.

RE: APPLICATION FOR THE EXTENSION OF TIC CERTIFICATE

This is with reference is made to the ongoing execution of the project under the Certificate of Incentives number **0223918** (copy attached) issued to our company on 14th February 2019.

With due respect, we wanted to give you an update about the latest status of the project as attached in the progress report.

Unfortunately, we were not able to executive according to our original plan, due to some inadvertent diversion caused by Covid-19 pandemic effects. The original plan was to buy and own a fleet of 50 trucks (tractors and trailers) as of 2022. So far, we own 22 trucks (tractors and trailers) which are operational. Therefore, we are applying for the extension of the certificate in order to continue with our original commitment.

However, we would like to assure you that our transportation project is working well and the business is promising in the future.

We would highly appreciate your cooperation in this matter.

Yours sincerely,

For and on behalf Of **ZHENHUA LOGISTICS (TANZANIA) LIMITED**

Rahim Sadik
Finance Manager
