5. Project Financing

Explain how the project is being financed e.g. equity, loans, sources of loans, conditions etc. see table below: -

	Amount (USD)	Source Country
Local equity	1,000,000	Tanzania
Local loans	-	
Foreign equity	-	
Foreign Loans	5,000,000	China
Total Investment	6,000,000	

6. Problems and Solutions

- Delays on clearance of the imported materials which resulted to accumulation of storage fee which was very high.
- Although these delays were not caused by Super Feo Milling Company Limited in anyway, the company had to bear this unforeseeable cost and settle it.

7. Future Plans

The company has a plan to expand the facility to include a storage facility which will increase its capacity to store grains and cereals as well as finished products

8. Recommendations and any other comments

We would like to extend our heartfelt appreciation to TIC for the invaluable support they have been offering to local and foreign investors something which has attracted even more investments in Tanzania. However, more needs to be done at the customs, especially in streamlining and simplifying the clearing process to avoid delays which contributes to unnecessary expenses and high cost of investment.
