Perfect Textile Business Plan-MARKETANALYSIS

- **MarketTrends**

If you are conversant with the trend in the Textile industry , you will quite agree that despite the fact that there are competitions in different stages of the industry. That is competition amongst bigger corporations such as Century Textile Morogoro, Nida Textile Mills (t), Ltd, Derma International, A To Z Textile Mills, Ltd, Afritex, Ltd, Morco Textiles Limited, Moshi Textile Mills, Karibu Textile Mills, Ltd, K.H.Khimji & sons, Texage Tanzania, Arusha Textiles Ltd and many others.

Most Textile Manufacturing Companies are leveraging on creativity interms of Evaluation of small and medium scale Textile Manufacturing companies so that to continue to stay afloat in the industry.

Lastly,another trend in the Textile manufacturing industry is the adoption of eco-friendly approach towards the production and manufacturing of Textiles. As a matter of fact, the industry's adoption of eco-friendly practices will likely persuade environmentally conscious consumers to buy its products, while increasing operators' efficiency.

- **OurTargetMarket**

When it comes to selling Textile products, there is indeed awide range of available customers. In essence, our target market can't be restricted to just a group of people, but all those who resides in our target market locations.

In view of that, we have conducted our market research and we have ideas of what our target market would be expecting from us. We are in business to engage in whole sale distribution and to retail Texrile to the following groups of people;

- Hotels
- Public and Private institutions
- Bars and lodges.
- Restaurants and Canteens
- Event Planners, Parties and Corporate Functions
- Corporate Executives.
- Government institutions.
- Government officials.
- Business people.
- Military men and women.
- Sports Men and Women.

Our Competitive Advantage

A close study of the Textile manufacturing industry reveals that the market has come much more intensely competitive over the last decade. As a matter of fact, you have to be highly creative, customer centric and proactive if you must survive in this industry.

We are aware of the stiffer competition and we are well prepared to compete favorably with other Textile manufacturing companies in Dares Salaam and through out the United Republic of Tanzania and Africa.

Perfect Textile Investment company is launching a standard Textile brand that will indeed become the preferred choice of residence of Dares salaam and every city where our Textile will be retailed.

Part of what is going to count as competitive advantage for Perfect Textile Investment is the vast experience of our management team, we have people on board who are highly experienced and understands how to grow business from the scratch to becoming a national phenomenon.

So also, the wide varieties of textile products in terms of Design, Colorfastness, Yarnnes, Durability, Versatility, Eco-friendly and Sustainability, Facings and Inter-facings etc all that we produce, our large national distribution net work and of course our excellent customer service culture will definitely count as a strong strength for the business.

Lastly, our employees will be well taken care of, and their welfare package will be among the best within our category (*startups bottled Textile companies*) in the Textile manufacturing industry, meaning that they will be more than willing to build the business with us and help deliver our set goals and achieve all our aims and objectives. We will also give good working conditions and commissions to freelance sales agents that we will recruit from time to time.

Perfect Textile Business Plan – SALES AND MARKETING STRATEGY

Before choosing a location for Perfect Textile Industry and also the kind of Textile products to produce, we conduct a thorough market survey and feasibility studies in order for us to be able to be able to penetrate the available market in our target market locations.

We have detailed information and data that we were able to utilize to structure our business to attract the numbers of customers we want to attract per time and also for our products to favorably compete with other leading brands in the United Republic of Tanzania and East Africa.

We hired experts who have good understanding in the Textile manufacturing industry to help us develop marketing strategies that will help us achieve our business goal of winning a larger percentage of the available market in Dares salaam and other cities in the United Republic of Tanzania and E. Africa.

In order to continue to be in business and grow, we must continue to sell our products to the available market which is why we will go all out to empower our sales and marketing team to deliver our corporate sales goals. In summary, Perfect Textile Industry will adopt the following sales and marketing approach to sell our Products;

- Introduce our Textile industry brand by sending introductory letters to residence, Textile merchants and other stake holders in Dares salaam. and other cities both in the United Republic of Tanzania and East Africa.
- Open our Textile manufacturing Industry with a party so as to capture the attention of residence who are our first targets.
- Engage in roads how in targeted communities from time to time to sell our products
- Advertise our products in community-based newspapers, local TV and radio stations
- List our business and products on yellow pages (local directories)
- Leverage on the internet to promote our textile brands.
- Engage in direct marketing and sales.
- Encourage the use of Word of mouth marketing (referrals).

Perfect Textile Industry Business Plan – Publicity and Advertising Strategy

Despite the fact that our Textile manufacturing machines are standard with a wide range of products that can favorably compete with other leading brands, we will still go ahead to intensify publicity for all our products and brand. We are going to explore all available means to promote Perfect Textile products.

Perfect Textile Industry has a long term plan of distributing our textiles in various locations all around the United Republic of Tanzania and East Africa which is why we will deliberately build our brand to be well accepted in Dares salaam before venturing out.

As a matter of fact, our publicity and advertising strategy is not solely for selling our products but to also effectively communicate our brand. Here are the platforms we intend leveraging on to promote and advertise Perfect Textile Products;

- Place adverts on both print (community based news papers and magazines) and electronic media platforms.

- Sponsor relevant community programs.
- Leverage on the internet and social media platforms like; Instagram, Facebook, twitter, to promote our textile brand
- Install our Bill Boards on strategic locations all around major cities in the United Republic of Tanzania and East Africa.
- Engage in road show from time to time in targeted communities.
- Distribute our fliers and hand bills in target areas.
- Position our Flexi Banners at strategic positions in the location where we intend getting customers to start patronizing our products.
- Ensure that our textiles are well branded and that all our staff members wear our customized clothes, and all our official cars and distribution vans are customized and well branded.

Our Pricing Strategy

When it comes to pricing our textiles there are two sides to the coin. We are aware of the pricing trend in the Textile manufacturing industry. But our prices will depend on the materials used, build quality, mass production, design sophistication and labor costs,

In view of that, our prices will conform to what is obtainable in the industry but will ensure that within the first 6 to 12 months our products are sold a little bit below the average prices of various textile brands in the United Republic of Tanzania. We have put in place business strategies that will help us run on low profits for a period of 6months; it is a way of encouraging people to buy our new textile brands.

- **Payment Options**

At Perfect Textile industry, our payment policy is all inclusive because we are quite aware that different people prefer different payment options as it suits them. Here are the payment options that will be available in every of our outlets;

- Payment by cash.
- Payment via Point of Sale (POS) Machine.
- Payment via online bank transfer (online payment portal).
- Payment via Mobilemoney.
- Payment via check (for whole sale distributors).

In view of the above,we have chosen banking platforms that will help us achieve our payment plans without any itches.

Generating Funding/ Startup Capital for Perfect Textile Industry

Perfect Textile Industry is a business owned by Mr.Yang Fen and Wang Liangying.They do intend to welcome any external business partners, which is why they have decided to not restrict the sourcing of the start – up capital.

These are the are as we intend generating ourstart–upcapital;

- Generate part of the start–up capital from personal savings and sell of stocks
- Source for soft loans from family members and friends
- Apply for loan from EquityBank

N.B: We have been able to generate about \$200,000 from the two share holders that is to say Mr. Yang Fen and Mr. Wang Liangying.

Perfect Textile Production Business Plan–Sustainability and Expansion Strategy

The future of a business lies in the numbers of loyal customers that they have the capacity and competence of the employees, their investment strategy and the business structure. If all of these factors are missing from a business (company), then it won't be too long before the business close up.

One of our major goals of starting Perfect Textile Industry is to build a business that will survive on its own cash flow and also with the need for injecting finance from external sources once the business is officially running.

We know that one of the ways of gaining approval and winning customers over is to retail our Textiles and other products a little bit cheaper than what is obtainable in the market and we are well prepared to survive on lower profit margin for a while.

Perfect Textile Industry will make sure that the right foundation, structures and processes are put in place to ensure that our staff welfare are well taken care of Our company's corporate culture is designed to drive our business to greater heights and training and re – training of our workforce is at the top burner.

As a matter of fact, profit-sharing arrangement will be made available to all our management staff and it will be based on their performance for a period of three years or more. We know that if that is put in place, we will be able to successfully hire and retain the best hands we can get in the industry; they will be more committed to help us build the business of our dreams. as we are to also going to be environmental conservers provide employment opportunities to Tanzanians as a country for example in our sites or production points we shall be employing over 23 people, increasing foreign of exchange since alot sources of incomes will be coming from Outside Tanzania since we have a room of wooing other investors.

Perfect Textile Business Plan SWOT–Economic Analysis

Starting a Textile Manufacturing company can't be said to be a difficult business venture but at the same time, it is a business that requires thorough economic analysis – feasibility studies and market survey et al if you are looking towards making profits in the industry.

Part of what you need to focus on in this line of business is how to build a standard Textile manufacturing machines and work tools, experienced workforce, enough area for operations a robust distribution networks, branding and of course how to maintain your machinery and equipment and to take care of your overhead before your business breakeven. Other cost that should be considered during planning and budgeting a resupply of key raw materials, and fuel and maintenance costs etc.

Lastly, there are a number of permits that are required to run a Textile Industry in the United Republic of Tanzania, East Africa and in the world, and of course there are also public Environmental laws to observe.

Perfect Textile Business Plan S.W.O.T Analysis

We know that if a proper S.W.O.T analysis is conducted for our business, we will be able to position our business to maximize our strength, leverage on the opportunities

SWOT

SWOT is used to analyze how e-commerce will impact our traditional textile manufacturing. SWOT is a kind of strategic analysis method. Comprehensive evaluation and analysis of the advantages, disadvantages, opportunities and threats of the analyzed objects.

SWOT stands for strengths, weaknesses, opportunities, threats. SWOT can clearly determine the advantages of the analyzed objects through the combination of internal resources and external environment. Adjusting methods, resources to ensure the implementation of the object which is analyzed to achieve the desired goal in strategic and tactical levels

SWOT analysis, also known as the situation analysis, also known as the Boston matrix is a reality method with more objective and accurate analysis.

Through comprehensive evaluation and analysis of strengths, weaknesses, opportunities and threats, the enterprise are adjusted to achieve the goals of the enterprises that will be available to us, mitigate our risks and be well equipped to confront our threats.

Perfect Textile Industry employed the services of an expert HR and Business Analyst with bias in start-up business to help us conduct a thorough SWOT analysis and to help us create a business model that will help us achieve our business goals and objectives.

This is the summary of the SWOT analysis that was conducted for Perfect Textile Industry;

- **Strength:**

Currently, there have been some e-commerce sites, such as DUBUY.com, Kikuu, Kupatana, Jumla, Zoom, Michong, Zudua, Esalerz, KapuandInalipa.

There also an ordinary e-commerce site, which belongs to the enterprise production reception system. The web pages provide industry information, company profiles, product display and other simple functions. They do not relate to Textile design, manufacturing and distribution and other internal business processes.

The furniture companies are not focused on the network sales model. Most of them are concentrated on the computer-aided design of Textile products, technological research. Part of them relates to the sales of the product, but not focus on the Textile products sales, design, production and distribution and other business process's organic unity.

- **Weakness:**

A major weakness that may count against us is the fact that we are a new Textile manufacturing company and we don't have the financial capacity to engage in the kind of publicity that we intend giving the business especially when big names like ntury Textile Morogoro, Nida Textile Mills (t), Ltd, Derma International, A To Z Textile Mills, Ltd, Afritex, Ltd, Morco Textiles Limited, Moshi Textile Mills, Karibu Textile Mills, Ltd, K.H.Khimji & sons, Texage Tanzania, Arusha Textiles Ltd and many other textile manufacturing companies are already determining the direction of themarket in Dare salaam and other parts of Tanzania.The new product standards will change the standards of technology in the factory and also the raw material. It means new standards will improve production budget. Some product standards and related testing standards in Tanzania have recently been updated

- **Opportunities:**

The opportunities for Textile manufacturing companies with a wide range of furniture products are enormous. This is due to the fact that around 57% of Tanzanians and people from all over the world can afford to buy textile products.

Focusing on the shortage of traditional marketing model, brings new mode which based on the internet for products. Concentrating on demand of customers, this model integrates potential innovation of customers through the advantages of the network efficiently.

As a result of that, we were able to conduct a thorough market survey and feasibility studies so as to position our business to take advantage of the existing market for furniture and also to create our own new market. We know that it is going to requires hard work, and we are determined to achieve it.

- **Threat:**

We are quite aware that just like any other business, one of the major threats that we are likely going to face is economic down turn and unfavorable government policies. It is a fact that economic downturn affects purchasing power. Another threat that may likely confront us is the arrival of a new textile manufacturing company in same location where ours is located.

Financial Projection of Perfect Textile Industry Ltd.

Starting a standard Textile manufacturing Industry is indeed a capital-intensive business.This is so because the amount required to set – up a Textile Manufacturing Industry is not a piece meal. The bulk of the start – up capital will be sent on leasing or acquiring a site, machines and equipment raw materials and other resources.

Aside from that, you are not expected to spend much except for purchase and servicing of distribution trucks, paying of your employees and utility bills. This is the key areas where we will spend our start – up capital;

Perfect Textile Business Plan–Start-Up Expenditure (Budget)

- The Total Fee for Registering the Business in BRELA \$244.
