Executive Director, Tanzania Investment Centre,
P. O. BOX 938,
Dar es Salaam.

Dear Sir,

I am writing to you in reference to your letter TICC/PP/10/110102/76 dated 25th May 2023, to formally request an extension of the implementation period for our project associated with TIC Certificate No. 110102.

As outlined in our project report, we have an investment capital of \$783.4 million, of which \$353 million has been invested. We believe that an extension of the implementation period will allow us to effectively utilize the remaining capital and achieve the project's objectives.

Enclosed with this letter, you will find the project report which provides a detailed account of the jobs created for Tanzanians and the villages covered up to December 2022. We trust that this information will demonstrate our commitment to the project and the positive impact it has had on local communities.

We would also like to bring to your attention that we have a list of equipment awaiting clearance at the port. This equipment is crucial for the completion of the planned phase of our project. However, customs have been holding our goods for an extended period, questioning the eligibility of our exemption on equipment for tower erection. This has significantly slowed down our project implementation.

We are cognizant of the fact that for operations in Zanzibar, we are required to collaborate with the relevant Authority for Investment Facilitation. Please be assured that we are fully prepared to engage with the necessary authorities and will not hesitate to seek your esteemed consultancy to facilitate this collaboration when necessary.

Also enclosed is the current investment status report for your review and records. We hope that this will provide a comprehensive overview of our project's progress and the investments made to date.

We look forward to your favorable consideration of our request and are available to provide any additional information you may require.

Yours sincerely,

ON BEHALF OF VIETTEL TANZANIA PLC
