9. OLDUVAI NGOGO

10. ORMATAI ROCK

11. IKOMA HILLS

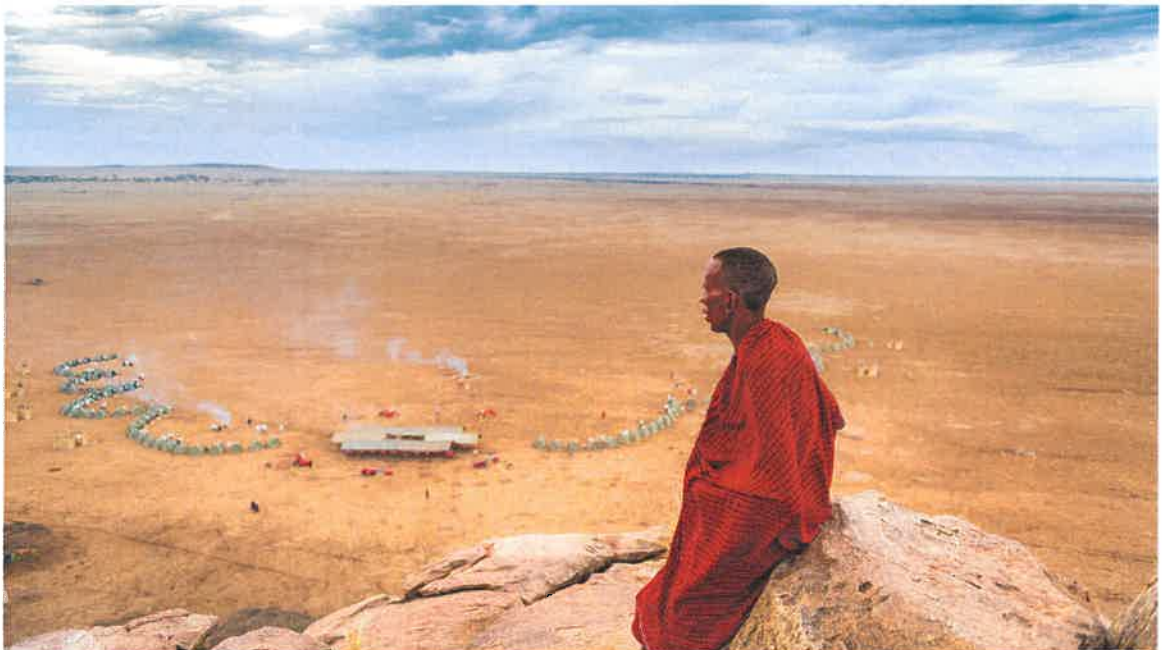

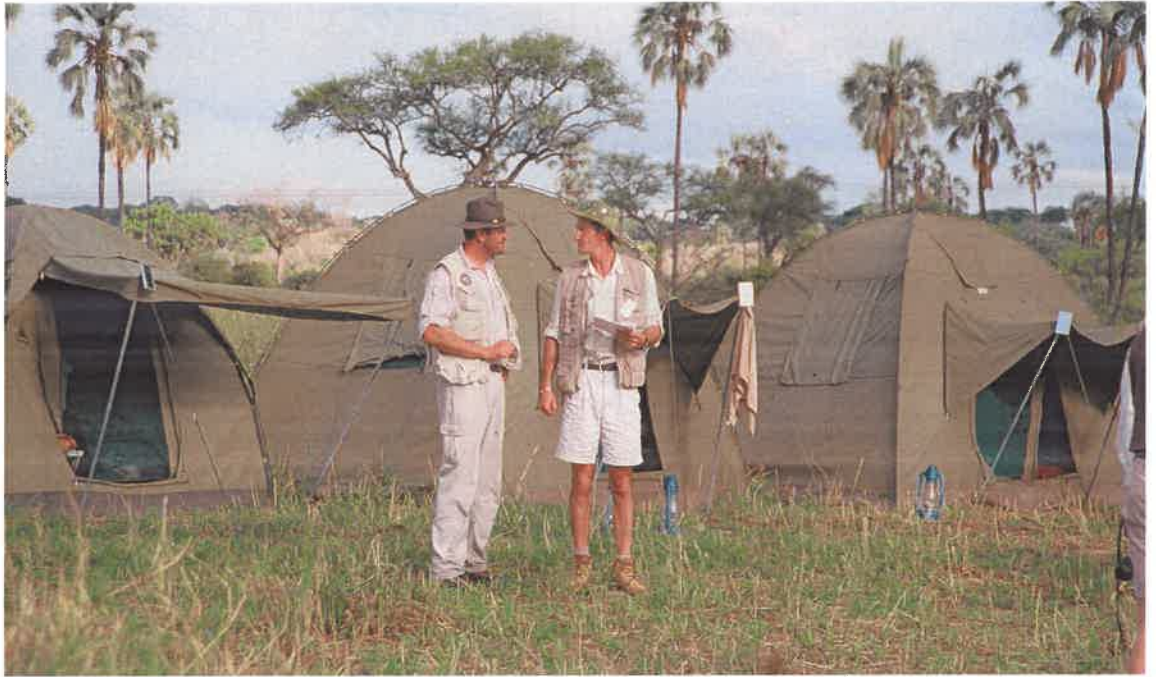

12. TOGORO HILLS

13. MKSC BIVOUAC

## B. SAFARI CARS

The fleet consists of regularly renovated 4x4s with custom configurations and seats. We have selected the best vehicles to meet the needs of each safari. The vehicles are driven by a team of qualified and courteous driver-guides who speak several languages (English, French, Italian, German, Spanish). In addition to this fleet, we are also proud to be the first company in East Africa to operate electric cars (2 in 2018 and 7 in 2019). This new technology is a real "plus" for the safari and creates a completely new safari experience (no noise, no smell, no disturbance to the wildlife).
