RE: REQUEST FOR EXTENSION OF IMPLEMENTATION PERIOD FOR CARGO TRANSPORTATION PROJECT UNDER CERTIFICATE OF INCENTIVES NO:026517 DATED 25 FEBRUARY 2020.

The subject matter above is hereby concerned.

MSOZA TRANSPORT COMPANY LIMETED has been granted with certificate of incentives no:026517 as indicated above for the purposes of establish and operate cargo transportation project in Tanzania.

Our project intended to import auto trucks ,road tractors and trailers ,partly of used and brand new that will be used for the transportation services within Tanzania and neighboring countries of East and Central Africa.

But due to the financial constraints basically resulted from the outbreak of corona pandemic disease during the implementation period we did not succeed to import any of the capital goods for running our project until the end of the year 2022 whereby we had successful purchased several brand new **SINOTRUK HOWO NX 6X4 TRACTOR TRUCK (RHD) MODEL:ZZ4257V344JB1R(14 units)** and **FLATBED SEMITRAILERS** for the same purposes of establishing transportation project as intended .

Unfortunately, the implementation period granted is approaching /ended in the beginning of year 2023 and the ordered /imported capital goods are nearby to arrive in the country in the beginning of February and March 2023.

Therefore, we request you to extend our implementation period at least for 12 or 24 months so as to enable the ordered and imported capital goods to enjoy exemption on import duties.

We look forward to your positive responses over this matter.

Yours faithfully.

HAMED. S. HAMED.

Director.
