RE: APPLICATION FOR INCENTIVES FOR A WATER BOTTLING PLANT

Kindly refer to the subject matter.

Lugeye's main area of operations is Mwanza region and deals in cotton ginning and exporting, hospitality services and retail trading in hardware and building materials with operations spanning across Lake Zone.

The company intends to further diversify its scope of activities by venturing into the still under-served beverages market in the Lake Zone by engaging in the manufacturing of bottled water in Magu, Mwanza region. Work is in progress in setting up a single water bottling line to produce 500 ml and 1500 ml. Plant capacity will be of minimum 36,000 bottles of 500 ml per hour alternating to 18,000 bottles of 1500 ml per hour. The target market is Lake Zone region and the neighboring countries of D.R. Congo, Burundi and Rwanda.

We are at advanced stage with suppliers of the machinery – SACMI and Prisma of Italy. Project cost is projected at US\$ 21.3 million as outlined in the business plan and time for setting up of the project is estimated to be 18 months from November 2023.
