RE: APPLICATION FOR AMMENDMENT OF TIC CERTIFICATE OF INCENTIVE NUMBER 20227838 OF PROJECT LOCATION FROM PML 128 MAR, QDS 6/3 TO LOCATION UNDER MINING LISENCE NO. ML/655/2023, NYABICHUNE VILLAGE, TARIME, MARA REGION

Please refer to the heading above, Matongo Gold mines is a Tanzania registered company and one of the key players in mining processing in Tanzania. The company is also registered under Tanzania investment center on 20th July, 2022 with certificate No. 20227838 formed for the purposes of undertaking buying, selling and gold processing in the country.

We have formed a joint venture partnership agreement for buying, selling and gold processing at Nyabichune village, Tarime District, Mara Region

. Grateful if you could please to change the name (**PML 0128 QDS 6/3 Nyabichune village Tarime- Mara**) as it is written on the certificate to location **UNDER MINING LISENCE NO. ML/655/2023, NYABICHUNE VILLAGE, TARIME, MARA REGION.**

Unfortunately, when doing business only one PML incorporated to TIC document instead of 3 PML all under 1 Mining License ML/655/2023 which incorporated all.

With this letter we attach the progress report, copy of the origin certificate of incentives and other relevant document for the amendment.

We thank you in advance.
