24th August 2023

Dear Sir,

RE: APPLICATION EXTENSION CERTIFICATE OF INCENTIVES (NR 01237-01) & REQUEST AMENDMENT SHAREHOLDERS STRUCTURE BONDENI FLOWERS LTD.

Please refer to the above subject.

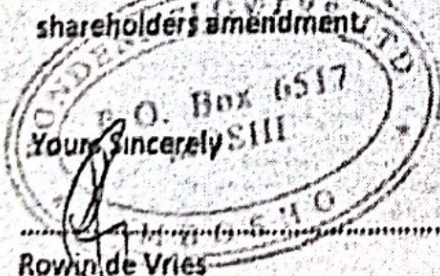

This letter follows up on our application letter dated 9th August 2023 in which we apply for an extension of our Certificate of Incentives.

Bondeni Flowers Ltd is a flower growing company that produces fresh cut flowers for export to Europe, Japan and more recently China and the United States of America. Flowers are produced at three separate sites, Main division, Machame division and Michiru division.

The Bondeni project intends to increase the flower production base which means considerable increase in investments in infrastructure and production area. It will greatly benefit the project if we have the support of TIC and an extended Certificate of Incentives. This will be of great value on the importing process regarding duty and PVOC exemption.

Please note that recently our shareholders structure has been amended as per attached Breif Search. We have not officially informed the TIC about this change so therefore kindly requesting you to change our shareholders structure information at your TIC records.

We would be very grateful for a positive result on both the Certificate of Incentives as well as the shareholders amendment

Rowin de Vries
