Dar es Salaam,

Dear Sir

RE: APPLICATION FOR AN EXPANSION REGISTRATION CERTIFICATE OF INCENTIVES FOR OUR MWANZA PET PROJECT

The above heading refers.

We are hereby applying for an expansion registration certificate of incentives for our Mwanza PET plant. With a project capex of USD 9.5 Million, we are planning to establish a new PET (**Polyethylene terephthalate / plastic bottle**) line.

The shareholders of SBC Tanzania limited have witnessed a stable growth opportunity in Tanzania including an increase in the customer demand for PET products. In pursuant to its mission and commitment “to grow the beverage business ethically, manufacturing and distributing world class brands whilst serving its customers and trade partners with uncompromising integrity and striving to create evermore employment opportunities for citizens of Tanzania and add value to the country’s economy whilst generating fair returns to shareholders”, the company’s shareholders, as part of their medium to long-term business strategy have expressed their interest to pursue and expand the footprint of SBC in lake region of Mwanza by increasing its PET production capacity through a new facility in Mwanza.

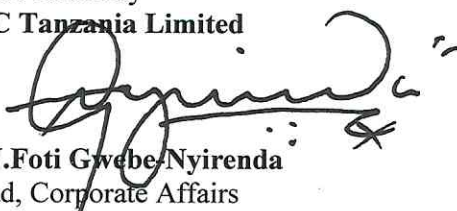

Currently one of our facilities located in Mwanza consists of 2 RGB (Returnable Glass Bottle) lines with a capacity of producing TSH 9.6 million cases per annum. SBC Tanzania Limited is looking to cater to more customers not only from those who are in Mwanza region but also to neighboring regions and countries with PET products without dependence of our other plants.

To service the markets, SBC Tanzania Limited has continuously invested in its Mwanza operations including but not limited to market expansion and enhancement of its production facilities, but also in its building, machinery and equipment’s as well as human resources with the hope of reaching more and producing better products.

It is our hope that our application will be considered favorably.

Many thanks for your continued support.

Yours faithfully
SBC Tanzania Limited
