Subject: Introduction and Submission of Nronga Tourism and Conservation Proposal

Dear Director General of the Tanzania Investment Center

I am writing on behalf of Altezza Travelling Limited to introduce our latest project initiative, the Nronga Tourism and Conservation proposal. Our company has always been committed to promoting sustainable tourism, conservational efforts, and community development. With the Nronga project, we aim to combine these passions and contribute significantly to both the growth of the local economy and the conservation of our natural heritage.

The project has been the subject of thorough discussions and evaluations among our Board of Directors. After a meticulous review, our board has unanimously recognized the potential of this proposal in furthering not only our business objectives but also our commitment to social responsibility. As a result, we have decided to invest a substantial amount in its development and execution.

Enclosed with this letter, please find:

1. The detailed Business Plan for the Nronga Tourism and Conservation proposal, outlining our objectives, strategies, and anticipated outcomes.
2. A copy of the Board Resolution, , detailing the board's discussions and resolutions pertaining to this project.

We are enthusiastic about the prospects this project holds for both our company and the broader community. Our submission to the Tanzania Investment Center (TIC) is a testament to our faith in its viability and our desire to ensure its alignment with national interests and guidelines.

We kindly request the esteemed Tanzania Investment Center to review our proposal and provide feedback or any further information required. Our team is fully prepared to assist in any capacity during this review process.

Thank you for your time and consideration. We look forward to a favorable review and the opportunity to contribute positively to Tanzania's tourism and conservation sectors.

Warm regards,

Aleksandr Andreichuk

Director
