The Executive Director,  
Tanzania Investment Centre,  
P.O. Box 938, Shaaban Robert Street,  
Dar es Salaam, Tanzania

Dear Sir

**APPLICATION FOR DERIVATIVE TITLE FOR LAND TO ESTABLISH COMPRESSED NATURAL GAS  
("CNG") STATION AT MKURANGA AND INCLUSION OF THE PROJECT TO OUR EXTANT CERTIFICATE  
OF INCENTIVES**

The captioned refers. We have acquired a land at Mkuranga to establish a Compressed Natural Gas ("CNG") station to service our cement haulage trucks on transit to Dar Es Salaam and upcountry regions. As a foreign owned entity, we require Tanzania Investment Centre to facilitate the grant of a derivative title in our favour in respect of the land for the CNG station and to also amend our extant certificate of incentives to include the said Mkuranga CNG station Project.

Our drive to establish a new CNG station at Mkuranga in addition to the one we have at Mtwara is to promote the use of cleaner and more efficient fuel for transportation and support the utilization of the natural gas available in the country for sustainable energy development. It is worth noting that the CNG station will serve as a crucial refuelling point for our fleet of trucks hauling cement from Mtwara to Dar es Salaam and upcountry, thus reducing emissions and promoting sustainable transportation in the logistics industry.

We have conducted extensive research and planning and are confident that the project will have a significant impact in reducing our consumption of imported diesel and our carbon footprint; thus, promoting utilization of cleaner local fuel. The project will also create new job opportunities, stimulate economic growth, and support the community in the area; in addition to serving as a blueprint for other manufacturers to adopt.

Yours sincerely,

**Abdullahi Baba**  
**Managing Director/CEO**
