SUBJECT: RENEWAL OF CERTIFICATE OF INCENTIVES FOR PYTECH LIMITED

Dear Sir/Madam,

I hope this letter finds you well.

We are writing to formally request the renewal of our Certificate of Incentives from the Tanzania Investment Center (TIC) for Pytech Limited.

As a dedicated pyrethrum buying company, we have been operating in the heart of Tanzania's agricultural sector for over 2 years now, contributing to both the national economy and the livelihoods of local communities.

We are excited to inform you that our company is in the midst of a transformative expansion phase. We have recently invested in state-of-the-art equipment, including a cutting-edge crude extract machine and an in-situ formulation facility for pyrethrum-based pesticides. This significant investment demonstrates our commitment to enhancing the value chain of pyrethrum processing within Tanzania.

This expansion will not only allow us to increase our pyrethrum production capacity but will also enable us to produce high-quality pyrethrum-based pesticides locally. This step aligns with the government's objectives of promoting sustainable agriculture and reducing reliance on imports in the pesticide sector. By manufacturing these products in Tanzania, we aim to contribute to the growth of the domestic agrochemical industry while ensuring the availability of safe and effective crop protection solutions for our nation's farmers.

Furthermore, with our expansion plans, we anticipate the creation of numerous employment opportunities for skilled and unskilled workers from the local communities surrounding our operations. We are committed to supporting economic development and empowering our workforce through training and capacity-building programs.

As we seek the renewal of our Certificate of Incentives, we kindly request your support and guidance throughout the process. We are fully prepared to comply with all necessary requirements and regulations set forth by TIC. Our objective is to continue

PYTECH
GREENER - HEALTHIER - NATURAL

operating as a responsible corporate entity, contributing to Tanzania's economic growth, and promoting sustainable practices in the pyrethrum industry.

We are eager to discuss this matter further and provide any additional information or documentation required for the renewal process. Your assistance is highly valued, and we are grateful for your continued support.

Thank you for considering our request. We look forward to your positive response and the opportunity to contribute further to Tanzania's agricultural sector and economic prosperity.

Sincerely,

Marco B. Castro
Managing Director
