RE : APPLICATION FOR A CERTIFICATE OF INCENTIVES OF OUR PROJECT: PLASTIC PRODUCTION MANUFACTURING LINE, LOCATED AT TEGENTA, KINONDONI, DAR ES SALAAM, TANZANIA.

SUB: APPLICATION LETTER

Dear Madam, Sir

I am writing to apply for a Certificate of Incentives on behalf of Lean Manufacturing Company Limited (Lean Manufacturing) for our project of a plastic products manufacturing line.

Lean Manufacturing is a Tanzanian company that was incorporated in 2023. We are a privately held company with a mission to provide high-quality plastic products to the Tanzanian market. Our products are used in a variety of industries, including construction, agriculture, packaging, etc.

We are currently in the process of setting up a new plastic products manufacturing line thus to initiate our production as well as business activity in Tanzania. This line will be located in Dar es Salaam and will have a capacity of 225,000 tons of plastic products per year. The line will be equipped with state-of-the-art machinery and will be operated by highly skilled personnel.

The completion of this project will create at least 40 new jobs in Tanzania. The project will also have a positive impact on the local economy by stimulating demand for goods and services.

We believe that this project is a valuable investment for Tanzania. It will create jobs, boost the economy, and provide high-quality plastic products to the Tanzanian market. We are confident that we will be able to successfully implement this project and we are grateful for your consideration of our application for a Certificate of Incentives.

Thank you for your time and consideration.

Yours Sincerely,

Director,

Lean Manufacturing Company Limited
