## OUR STORY

Centrally located at the 'up and coming' concrete jungle of Tanzania - Dodoma, our *flagship* factory centralises in manufacturing of Prestressed Spun Concrete Poles. We source and process company owned raw materials for quality production and cost effectiveness for all our products. Dodoma for ACIL assures our country's goals by national strategies such as the Tanzania Rural Electrification Expansion Program (TREEP) as well as supply for other construction materials along their complementary production lines are met with efficiency and ease.

# THE EXECUTIVE TEAM

**ACIL**

**WILLIAM MAREALLE**  
Executive Chairman

**ZHIHAO "BRUCE" ZHENG**  
Executive Director

**GEORGE W MAREALLE**  
Managing Director

**YAO DI**  
Director  
Finance & Administration

**MARY MAREALLE RWEYEMAMU**  
Director  
Business Development & Operations

**ZHIQING "JACK" YAN**  
Director  
Manufacturing Operations

## WHAT WE SEEK

ACIL - Africhina Consolidated Industries Limited's mission is to become a one stop centre for designing, manufacturing and quality product delivery - consequently assuming maximum client satisfaction. We look to create an innovative ecosystem which designates *the* constantly advancing technology to our production, supply and service delivery processes.

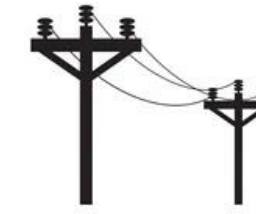

The key word in our name - **Consolidated** - stands firm as defined by the Oxford Dictionary "to combine (a number of things) into a single more effective or coherent whole". Thus, the vision for a unified whole manufacturer and supplier for components involved in the distribution of electricity in Tanzania

**OUR  
VISION**

## OUR PRODUCTS & SERVICES

### PRESTRESSED CONCRETE POLES

ACIL manufactures 9M, 10M, 12M, 13M, 15M and 17M poles under a careful centrifugal spinning process hence regulated weight, increased inherent strength and smooth outlook

### LOGISTICS & SUPPLY CHAIN MANAGEMENT

Formed by logistics and supply chain management extraordinaires with over 20 years in the cargo business, ACIL manages shippings, inland road transportation as well as warehousing for clients

### ROCK AGGREGATE & READY-MIX CONCRETE [RMC]

We are licensed aggregate miners with owned raw material and equipment. ACIL sources and supply rock aggregate, semi precious stones and rock-cement aggregate mix - RMC

### CONSULTING

ACIL commits to work with infrastructure designers responsible for electrification, communication and construction projects to get the best from our products for maximum potential and project longevity.

## LIGHTING TANZANIA: FACTS & FIGURES<sup>1</sup>

Over the past decade, electricity access in Tanzania increased from 7% in 2011 to 37.7% in 2020, one of the fastest access expansion rates in Sub-Saharan Africa. This rapid increase in access has been attributed to several factors, including a strong political commitment and support for the rural electrification expansion programs, the introduction of a petroleum levy to finance the NREP; and reductions in connection fees and service charges that were first introduced in 2013.

Despite this progress, a large gap remain between electricity access rates in urban areas (73.2%) and rural areas (24.5%), and between grid coverage (78.4%) and *the overall access or connectivity rate* (37.7%). The government is committed to further accelerating access to modern energy services and has set a target to achieve universal access to modern energy services by 2030, of which 75% will be electrified through national and mini-grids and the remaining 25% through quality verified off-grid solutions.

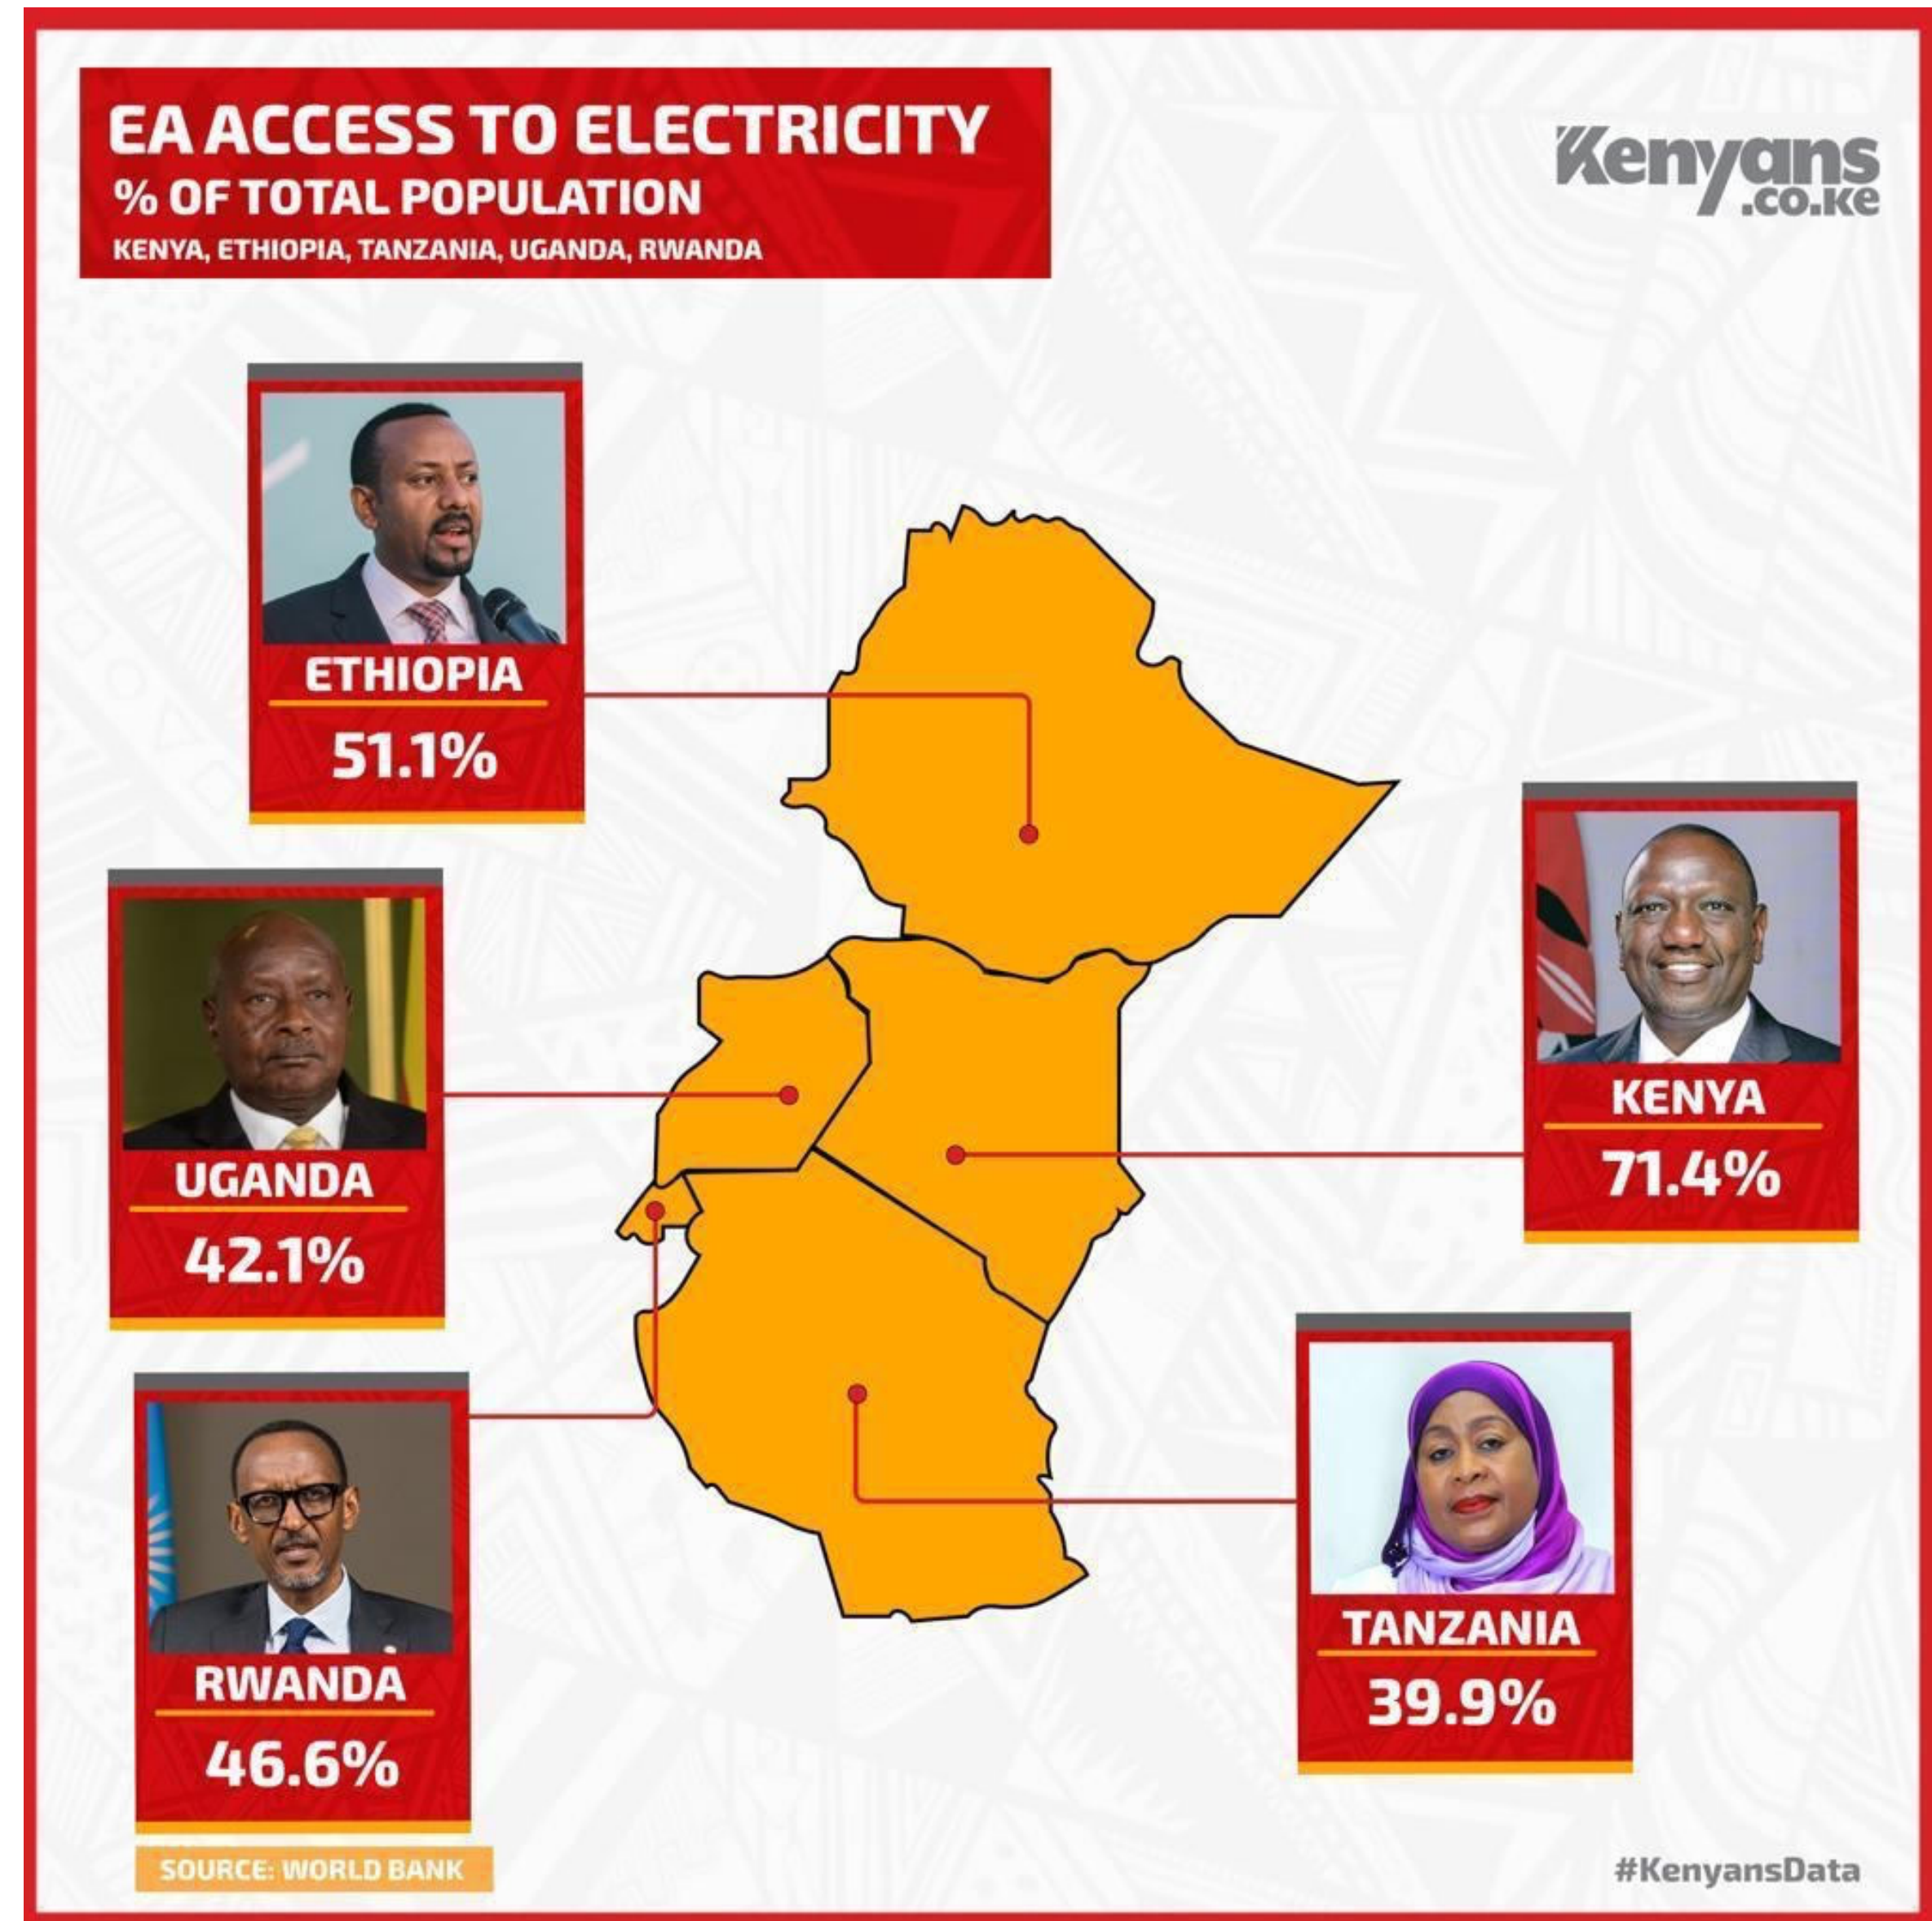

**OUR  
FUTURE**

# TANZANIA IN 2023

## A FURTHER LOOK INTO THE FUTURE

Tanzania's journey to optimum electricity access represents the growth potential for ACIL's current and anticipated products demand for a very long time.

As Tanzania race among its peers , ACIL look forward to contribute to the transformative progress which has been proudly supported by all regimes since independence.

## WORKS

When it comes to electricity distribution, we work directly with the Tanzanian electricity supply company as well as its contractors for the distribution.

Furthermore, ACIL work with individual contractors as suppliers for building materials and consultation
