

BUCKETS FARMS

ABOUT US

Buckets Tanzania Limited, established in 2018, is a prominent general trading company based in Tanzania. With a commitment to excellence and a diverse portfolio, we engage in various services, including motor dealing, agriculture, and more. Our foray into farming, under the banner of **Buckets Farms**, marks a significant stride towards sustainable agriculture and food production.

Embarking on our agricultural journey, we recognized the pressing need to address the growing demand for high-quality, locally sourced food products. Buckets Farms was conceived with the vision of not only meeting this demand but also contributing to the agricultural sector's growth in Tanzania.

As a subsidiary of Buckets Tanzania Limited, Buckets Farms combines the precision and expertise garnered from our diverse business ventures with a passion for environmental stewardship. We understand the pivotal role that agriculture plays in the socio-economic fabric of our nation, and our commitment extends beyond profit to encompass responsible and ethical farming practices.

At the heart of our agricultural pursuits is the desire to create a positive impact on local communities. By fostering sustainable agricultural practices, we aim to empower farmers, generate employment opportunities, and contribute to the overall well-being of the regions we operate in.

Our commitment to sustainable agriculture extends to every facet of our farming operations. From utilizing advanced technology and precision farming techniques to adopting eco-friendly practices, we strive to be at the forefront of innovation in the agricultural landscape. As we cultivate crops and rear livestock, we are mindful of our environmental footprint and work towards minimizing it through responsible resource management.

Buckets Farms stands as a testament to our dedication to the principles of quality, integrity, and community development. We take pride in being not just a farming entity but a catalyst for positive change in Tanzania's agricultural sector. Join us in this transformative journey, where we sow the seeds of sustainability, nurture growth, and harvest a better future for all.

VISION, MISSION, AND GOALS

OUR VISION

To be a leading force in transforming the agricultural landscape, fostering sustainability, and contributing to the nation's food security.

OUR MISSION

We strive to integrate innovative farming practices, cutting-edge technology, and ethical business principles to ensure the production of high-quality agricultural products while fostering community development.

GOALS

Enhance agricultural productivity through modern and sustainable practices.

Contribute significantly to the local and national economy.

Empower local communities through employment opportunities and skill development.

Establish Buckets Farms as a symbol of trust, quality, and reliability in the agricultural sector.

OUR PROJECTS

RICE FARM IN MOROGORO

In mid-2023, Buckets Farms acquired a sprawling 500-acre farmland from Suma JKT in the Morogoro region, Mngeta Province. This venture aims to revolutionize rice farming by implementing advanced techniques, ensuring optimal yield, and maintaining ecological balance. Our commitment to quality extends from cultivation to processing, assuring consumers of premium rice products. We prioritize sustainable farming practices that benefit the environment and local communities.

CHICKEN FARM IN MBEZI AREA

As part of our diversification strategy, Buckets Farms is in the process of developing a state-of-the-art chicken farm in the Mbezi area. This facility, set to be operational soon, is designed to produce 40,000 high-quality chickens per month. Our focus on animal welfare, biosecurity measures, and modern farming methods positions us as a reliable source for premium poultry products. This venture not only contributes to the protein needs of the region but also supports local employment.

THE MOROGORO RICE FARM

Nestled in the heart of the Morogoro region, our rice farm spans an expansive 500 acres, a testament to Buckets Farms' dedication to advancing sustainable agriculture. The strategic acquisition of this prime farmland from Suma JKT in mid-2023 marked a pivotal moment in our commitment to becoming a major player in Tanzania's rice production landscape.

Location and Landscape:

Situated in Mngeta Village, our Morogoro rice farm benefits from the region's fertile soil and favorable climatic conditions. This locale provides an ideal environment for cultivating a variety of rice strains, including high-yielding varieties that thrive in the region's agro-ecological setting.

Innovative Farming Practices:

Buckets Farms employs cutting-edge agricultural practices at our Morogoro rice farm. Precision farming techniques, coupled with advanced irrigation systems, allow us to optimize water usage, ensuring efficient crop growth while minimizing environmental impact. Our commitment to sustainability extends to the use of eco-friendly fertilizers and pest management strategies, contributing to a healthy and resilient ecosystem.

Rice Varieties and Crop Management:

The Morogoro farm hosts a diverse array of rice varieties, carefully selected for their adaptability to the local conditions and market demands. Our agronomists and farm managers work diligently to implement best-in-class crop management practices, ensuring a consistent and high-quality rice yield. From land preparation to harvesting, every step is meticulously planned to guarantee the production of premium rice that meets both local and international standards.

Community Integration and Empowerment:

Buckets Farms recognizes the importance of fostering positive relationships with local communities. Our Morogoro rice farm is not just a place of cultivation; it is a hub for community engagement. We collaborate with local farmers, providing training programs, access to modern farming technologies, and employment opportunities. By empowering local communities, we aim to create a ripple effect of sustainable growth and development.

The fertile fields of our Morogoro rice farm, where innovation meets tradition, cultivating a sustainable future for Tanzania.

Processing Facility:

Adjacent to our Morogoro rice farm, Buckets Farms has invested in a state-of-the-art processing facility. Equipped with modern milling machinery, this facility ensures that the harvested rice undergoes thorough processing to meet stringent quality standards. Our commitment to quality extends from the fields to the final product, guaranteeing that Buckets Farms' rice is synonymous with excellence.

Environmental Stewardship:

Recognizing the importance of environmental conservation, Buckets Farms in Morogoro implements practices that minimize the carbon footprint associated with rice farming. From sustainable water management to waste recycling initiatives, we aim to operate the farm in harmony with the natural ecosystem.

The Morogoro rice farm stands not just as a symbol of agricultural productivity but as a beacon of sustainable and responsible farming practices. Buckets Farms is proud to contribute to Tanzania's rich agricultural heritage while shaping a future where agriculture and environmental stewardship go hand in hand. Join us as we cultivate not just rice but a legacy of excellence and sustainability in Morogoro.

MBEZI CHICKEN FARM

As part of our commitment to diversify and meet various agricultural needs, Buckets Farms is in the advanced stages of establishing a cutting-edge chicken farm in the thriving Mbezi area. Anticipated to be operational soon, this facility is designed to produce 40,000 high-quality chickens per month, embodying our dedication to excellence in poultry farming.

Location and Facility Design:

Nestled in the Mbezi area, our chicken farm boasts a modern and purpose-built facility. The location was carefully chosen for its accessibility, conducive climate, and proximity to key distribution channels. The farm's design prioritizes the welfare of the chickens, with state-of-the-art infrastructure that ensures optimal living conditions.

Capacity and Production:

With a planned production capacity of 40,000 chickens per month, Buckets Farms aims to contribute significantly to the poultry market in Tanzania. Our focus on quality extends from the selection of chicken breeds to their nutrition and overall well-being. The farm will be equipped to handle various stages of poultry production, from hatchery to processing, ensuring a seamless and efficient supply chain.

Biosecurity Measures:

Buckets Farms places a high premium on biosecurity to safeguard the health and well-being of our poultry. The Mbezi chicken farm incorporates strict biosecurity protocols, including controlled access points, sanitation measures, and regular health checks. These measures are integral to maintaining a disease-free environment and producing poultry products of the highest standard.

Technology Integration:

Our chicken farm leverages advanced technologies to optimize various aspects of poultry farming. Automated feeding systems, climate control mechanisms, and data analytics play a pivotal role in ensuring efficient operations and high productivity. The integration of technology not only enhances production but also allows for precise monitoring of the chickens' health and growth.

Employment and Community Impact:

Buckets Farms is committed to creating positive social impacts through our projects. The Mbezi chicken farm is expected to generate employment opportunities in the local community, contributing to economic growth. Additionally, we plan to engage in community outreach programs, providing education on sustainable poultry farming practices and collaborating with local stakeholders for mutual benefit.

Quality Assurance:

Similar to our approach in rice farming, Buckets Farms maintains a rigorous commitment to quality assurance in poultry production. Stringent hygiene standards, ethical farming practices, and adherence to regulatory guidelines are paramount. We aspire to be recognized not just for the quantity but for the uncompromising quality of our poultry products.

Environmental Responsibility:

Recognizing our responsibility to the environment, Buckets Farms incorporates eco-friendly practices in the operation of the Mbezi chicken farm. Waste management, energy efficiency, and sustainable sourcing contribute to a holistic approach that aligns with our broader commitment to environmental stewardship.

The Mbezi chicken farm represents more than just a poultry facility – it embodies Buckets Farms' dedication to innovation, quality, and community development in the agricultural sector. Join us as we spread our wings into poultry farming, cultivating not just chickens but a legacy of excellence in the Mbezi area.

HOW WE OPERATE

Buckets Farms operates on the principles of sustainability, innovation, and community engagement. Our farming practices integrate cutting-edge technology, precision agriculture, and eco-friendly methodologies to optimize resource utilization. We collaborate with local communities, providing employment opportunities and investing in skill development programs. Quality control is at the core of our operations, ensuring that every product that bears the Buckets Farms name meets the highest standards.

At Buckets Tanzania Limited - Farming Division, we are not just cultivating crops; we are nurturing a vision for a more sustainable and prosperous future in agriculture. Join us on this journey towards excellence and sustainability.
