DAR ES SALAAM

Dear Sir/Madam,

REF: APPLICATION FOR PROJECT EXTENSION.

Kindly refer to the caption above.

The management of BNBM Building Materials Industry (T) would like to write this letter officially to request for project extension which is intended to start on May 2024.

Our company deals with production of gypsum boards which comply with TBS standards and other regulatory authority as been stipulated by the government. We have certificate of incentives with registration no 018149 which expired in June 2021. The reason for writing this letter is to apply for extension since our company will expand its production by starting manufacturing new products but in the same class of gypsum. We will import new machine for manufacturing of gypsum ceiling board as a part of improving our project and modern way of roofing gypsum boards. The machine imported has HS code 8474.80 with import duty of 0%.

With this letter we also request to have an import duty of 0% so as to facilitate smooth process of importation and start its operation. This project will have a lot of benefit which including providing employment opportunities to local employees as well as increasing government revenues through the income that will be generated from sales and other incomes.

Our office always appreciates your good cooperation and services that we get. We hope our cooperation will always be endless cooperation.

Yours faithfully

.....

MANAGER

BNBM BUILDING MATERIALS INDUSTRY (T) LIMITED.
