### **AGENDA NA.3 MUHT.NA. 03/2022/2023**

### **LENGO NA MAKUSUDI YA WAGENI KUTOKA KAMPUNI YA MULTIPLEX**

Mwenyekiti alitoa nafasi kwa Wageni kueleza makusudi ya kukutana na Menejimenti ya Halmashauri Wilaya Uvinza ambapo alimkaribisha Ndg. Thomas L. Kalunga ambaye alijitambulisha kuwa ni Mkurugenzi wa Mradi wa Multiplex.

Aidha Ndugu Kalunga ambaye ni Mkurugenzi alieleza Menejimenti kuwa wao ni Kampuni inayojishughulisha na uzalishaji wa umeme, na wanataka kuzalisha umeme katika maporomoko ya Mto Rwegele uliko Kijiji cha Rukoma Megawati 3.54. Kampuni yao inatengeneza umeme kwa kutumia nguvu ya maji na baadae kuwauzia TANESCO. Wao jukumu lao kubwa litakuwa ni kuzalisha umeme tu lakini kazi ya kusafirisha na kuunganisha itakuwa jukumu la TANESCO.

Kuhusu suala la mazingira mshauri wa Mradi Ndugu Vincent Guranywa alisema wao kazi kubwa ni kuhakikisha Kampuni inapata cheti cha mazingira na kuangalia vitu vitakavyo athirika na shughuli hiyo.

Baada ya maelezo hayo ya wageni ushauri/michango ifuatayo ikatolewa na Wataalam wa Menejimenti:-

1. Elimu itolewe kwa Wananchi juu athali za Kijamii Mfano mlipuko wa magonjwa, na mimba za utotoni
2. Mradi ukamilike kwa wakati na Jamii Inufalke na kuona umuhimu wake
3. Serikali ya Kata na Kijiji ihusishwe na kuujua mradi vizuri kwa kufanya vikao
4. Ukubwa wa eneo la mradi ni vema ukajulikana

aldha Mwenyekiti akihitimisha michango ameelekeza Kampuni hiyo kuwasilisha nyaraka zao zote ikiwa ni pamoja na usajiri, muundo wa uongozi, michoro ya mradi, mwisho alimwelekeza Katibu kuhakikisha Faili la mradi linafunguliwa ili nyaraka hizo ziwekwe humo.

Baada ya ushauri na maelekezo hayo Menejimenti ya Halmashauri ya Wilaya Uvinza iliruhusu Kampuni ya Multiplex kuendelea na taratibu za kukamilisha mradi ili uweze kunufaisha Wananchi waliko katika Kijiji cha Rukoma na Kata nzima ya Igalula.

**AGENDA NA.7 MUHT.NA. 04/2022/2023**

MANAGING DIRECTOR  
M/S MULTIPLEX SYSTEMS LTD

**RE: DEVELOPMENT OF LUEGERE MINI-HYDRO POWER PROJECT**

Reference is made to your company letter with Ref. No. **MULTIPLEX/DED/UVZ/01/2023** dated 02<sup>nd</sup> October, 2023 along with annexed TANESCO Letter of Intent (LOI) with official reference number **DMDI/SMSP/SPP/23** regarding the development of the Embedded Generating Plant - Mini Hydro Power Project at Luegere River with specific Site Reference Number: **LUEGERE/HYDRO/SPP/2022/100** at Lukoma Village, Igalula Ward, Uvinza District in Kigoma Region.

2. We appreciate your esteemed company investment initiatives and commitment to develop Luegere River Mini-Hydro Power Project and interconnect feeder line to TANESCO Kigoma distribution network. This development initiative is in line with the National Energy Policy (NEP) 2015 which emphasizes on utilization of supplementary renewable energy sources.
3. I wish to inform you that, currently our Power Generation Station in Kigoma region comprises of Seven (7) Diesel Power Generators in collaboration with the Solar Nextgen company, which together, generates a total of 8.75 Megawatts.
4. However, the above stated total amount generated does not sufficiently meet current and future power demands for the entire Kigoma region since the districts of Buhigwe, Uvinza, Kigoma Urban and Kigoma Rural equally depend on power generated from the same Kigoma Power Station.
5. TANESCO Kigoma Office has been continuously receiving several requests for Power connection from large customers (Tier 2 Customers) in Uvinza, Kasulu, Kigoma Urban and Kigoma Rural districts which will significantly increase the company's much needed revenues.
6. Therefore, the arrival of this developer (MULTIPLEX SYSTEMS LTD) who expects to generate approximately 5.34MW from hydropower source, will significantly increase the current amount of electricity generated and supplied within Kigoma and nearby regions.
7. In addition, TANESCO Kigoma regional office would like to advise the project developer to fully abide by the terms and conditions stated in the annexed Letter of Intent (LOI) also to consider the following aspects before commencement and during project implementation:

- i. The **Engineering and ESIA Consultants** who will be engaged in this project must meet the necessary criteria to enable the investor to implement the project effectively.
- ii. The investor should make sure that, he prepares supplementary **Budget** for property compensation to the citizens who will be subsequently affected during the Project development phase.
- iii. The design, construction, testing, commissioning and operation of the interconnection of the Embedded Plant with TANESCO network such as the highly recommended use of Concrete Poles shall be according to the requirements and procedures specified in the "Guide for Grid Interconnection for Embedded Generators in Tanzania (hereinafter referred to as "the Guide") A copy of which is available at EWURA website.

8. In that context, TANESCO Kigoma Region office wish to cordially welcome the investor M/s MULTIPLEX SYSTEMS LTD and promises to give the company sufficient cooperation and necessary underlying technical assistance during the implementation phase of this project which will significantly increase much needed energy sources in order to increase productivity in manufacturing and value-adding sectors which contributes to the development and subsequent growth of the economy in Kigoma region and the nation at large.

With best regards

CPA. Hilary James
