

BEKS HOGS LIMITED

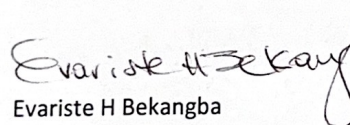

Dear,

We are writing this letter to request a registration with the Tanzania Investment Centre. We are in the process of starting a livestock and crops production farm and hopefully will be able to launch our activities by January 2025.

For this purpose have already purchased some properties, a farm Land in Vigwaza, another land in Kibaha and currently building the facilities before importing the breeds from South Africa.

Please see uploaded the requested documents and let us know should you need any additional information or document.

Kind regards,

Evariste H Bekangba
