The Executive Director
Tanzania Investment Centre
P.O. Box 938
Dar es Salaam, Tanzania

Subject: Application for Registration and Incentives for Gold Refining and Processing Project

Dear Sir/Madam,

On behalf of Natural Selection Mining Limited, I am pleased to submit our application for registration and incentives under the Tanzania Investment Centre. Our project, titled **Gold Refining and Processing**, is set to be established in **Bugwema Ward, Musoma District, Mara Region**.

This project involves the development of advanced facilities for gold processing, with a production capacity of 50,000 tonnes per year. It aligns with Tanzania's strategic goals for industrialization and value addition in the minerals sector.

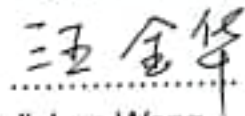

The project is expected to create employment for 77 people (25 local and 2 foreign women, and 50 local and foreign men), foster skills transfer, and contribute to the country's economic growth. The total investment for this project is valued at USD 2,155,000, with contributions from foreign financing.

As a fully foreign-owned entity, Natural Selection Mining Limited is committed to adhering to all legal and regulatory requirements. We seek TIC's recognition and incentives to facilitate the project's successful implementation.

Please find attached the required forms and documentation as per TIC guidelines. Should additional information or clarification be required, feel free to contact me directly at +255 698 173 300 or via email at 155000187740@163.com

We look forward to your positive response and to contributing meaningfully to Tanzania's economic development.

Yours faithfully,

Jinhua Wang
Director
