Dear Sir,

Re: Reply in Request for Project Progress Report

We are writing in response to your recent request for a progress report on the status of our project, Cargo Transportation for East Line Logistics Trading Limited. We appreciate your interest in the progress of our operations and would like to provide you with an update.

As mentioned in our initial project submission, we were awaiting tax exemption approval, which has now been granted. This has been a crucial step for us, and we are pleased to inform you that we have received the tax exemption. However, due to this waiting period, we have not yet commenced heavy investments, as the key assets for the project, including the vehicles, have not yet arrived.

At this stage, we are preparing for the arrival of the vehicles, and once they are delivered, we will proceed with the implementation of the project as initially planned. Therefore, while the project is still in the preparatory phase, we are fully committed to starting the operational activities once the necessary assets are in place.

We understand the importance of keeping TIC informed, and we will continue to provide updates as we progress with the project.

Thank you for your understanding and support. We look forward to the continued development of our project and the positive impact it will have once fully underway.

Yours sincerely,

SHI GUANG
Director
