3.0 TANZANIA TRANSPORT OVER VIEW

The Tanzanian transport sector comprises surface transport (including roads, railways), inland waterways (lakes and rivers), air transport, and sea transport.

Tanzania's transport sector contributed 8.1% to the country's real GDP in 2018 with USD 3.8 billion, compared to USD 2.8 billion in 2014, representing an increase of 33%.

Main growth drivers include the increase in the number of passengers carried and freight handled through road transport.

According to Tanzania's 2025 Development Vision, investments in infrastructure, particularly in the development of the road network, are the Government's top priority.

The World Bank (WB) and the African Development Bank (AfDB) support Tanzania in achieving its infrastructure development goals by providing grants and credits for projects.

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

Tanzania Road Transport

Road transport is the most widely used form of transport in Tanzania, carrying over 90% of the passengers and 75% of the freight traffic in the country.

The road network in Tanzania currently comprises 86,472 kilometers of roads, of which 12,786 kilometers are trunk roads, 21,105 kilometers are regional roads and the remaining 52,581 kilometers are district, urban and feeder roads.

Tanzania's Ministry of Works, Transport, and Communication through the Tanzania National Roads Agency (TANROADS) is managing the national road network of about 33,891 kilometers, comprising 12,786 kilometers of trunk and 21,105 kilometers of regional roads.

The remaining network of about 53,460 kilometers of urban, district and feeder roads is under the responsibility of the Prime Minister's Office Regional Administration and Local Government (PMO-RALG).

Tanzania Rail Transport

Railway transport is the second most important mode of transport after road and critical for long distance freight along the main transport corridors in Tanzania.

Tanzania has a total of 3,676 kilometers of railway lines operated by two railway systems, Tanzania Railways Corporation (TRC) and Tanzania – Zambia Railways (TAZARA).

The mainline of TRC comprises the central corridor between the port of Dar es Salaam in the east, linking central and western areas of the country and terminating at Kigoma on Lake Tanganyika in the west.

The TAZARA line is 1,860 kilometers in length, of which 975 kilometers is in Tanzania and 885 kilometers in Zambia.

Tanzania Air Transport

The total number of air passengers in Tanzania reached 6.2 million in 2019, compared to 5.2 million in 2015, representing an increase of 18%.

Currently (2020), there are 19 airline operators in Tanzania, including some of the leading international air carriers such as British Airways, KLM, Qatar Airways, and SWISS.

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

There are 58 airports in Tanzania and more than 300 private airstrips owned by mining companies and tour operators.

The Julius Nyerere International Airport (JNIA), located in Dar es Salaam, is the largest and busiest airport in Tanzania, accounting for over 70% of Tanzania's air passengers.

In August 2019, Tanzanian President John Magufuli inaugurated Terminal 3 of the JNIA. The new terminal, which cost USD 314 million set the airport capacity at 8 million passengers annually.

In 2019, the AfDB approved a USD 272.12 million loan to Tanzania for the construction of a new international airport in the capital Dodoma. The new airport will be built in the district of Msalato, 12 kilometers from the capital Dodoma.

The new facility is expected to handle at least 50,000 aircrafts and one million passengers per year.

Tanzania Water Transport

Tanzania has a coastline of about 720 kilometers on the Indian Ocean, and also borders Lake Victoria, Lake Nyasa, and Lake Tanganyika.

Both sea and inland waterways ports in Tanzania are managed and operated by the Tanzania Ports Authority (TPA).

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

The TPA's main Indian Ocean ports are Dar es Salaam, Mtwara, and Tanga. Minor seaports serving coastal traffic include Lindi, Kilwa Masoko, Mafia Island, Bagamoyo, Pangani, and Kwale.

Dar es Salaam is Tanzania's principal port with intrinsic capacity of 10.1 tonnes per year. The port handles over 92% of the total maritime ports' throughput.

The port serves land-linked countries of Malawi, Zambia, Democratic Republic of Congo, Rwanda, Burundi, and Uganda.

These countries are connected to the port through two railway systems (TRL-1.0 metre gauge and TAZARA-1.067 cape gauge), road network, as well as the TAZAMA oil pipeline to Zambia.

TPA also operates Tanzania's lake ports, maintaining around 20 ports on Lake Victoria. Some major ports include Bukoba, Kemono Bay, Musoma, and Nansio.

Principal lake ports on Tanganyika include Kigoma and Kasanga. Additionally, there are 15 smaller ports along the lake. These ports provide trade connections between Burundi, Eastern Democratic Republic of the Congo, and Zambia.

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

Lake Nyasa has 4 important ports, at Itungi, Mbamba Bay, Liuli, and Manda. There are up to 10 others smaller TPA ports on the lake that facilitate passenger movement along the lake and between the countries of Malawi, Mozambique, and Tanzania.

4.0 TANZANIAN BUSINESS ENVIRONMENT

In the African continent, TANZANIA is among the top ten investment destinations in Africa, thanks to reforms and a conducive investment environment set by the government.

The Rand Merchant Bank (RMB) ranked the country tenth in investment attractiveness, in the Where to Invest in Africa 2021 report released recently.

4.1 THE TANZANIA DEVELOPMENT CORRIDORS

Development of transport corridors has been one of the main strategies adopted by the Government of Tanzania to facilitate trade. Tanzania serves as a transit country for the import and export of Malawi, Zambia, DR Congo, Burundi, Rwanda and Uganda, using the port of Dar es Salaam. The main rail and road connections in Tanzania are, therefore, in an east-west direction, linking the ports with the hinterlands of those neighbouring countries. Tanzania is devoting much attention to the corridor concept in its development policy by concentrating efforts in the

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

Mtwara Corridor, Dar-es-Salaam Corridor, Central Corridor and the Tanga Corridor. The major challenge is to link import, export and transit traffic from and to neighbouring countries with transport development efforts, making Tanzania a natural regional hub.

The geography of Tanzania, including its size, diversity and dispersion, give roads a special position in the integration of the national economy. In particular, roads serve rural areas, where the majority of the people live, more effectively than any other mode of transport. The current Tanzania Road Network length is about 85,000 km, which includes trunk and regional roads (35,000 km) managed by the Tanzania National Roads Agency (TANROADS), and the urban, district and feeder roads with a total of 50,000 km, managed by Local Government Authorities (LGA). There are also some unclassified roads, such as those managed by the Tanzania National Parks Authority (TANAPA), and by the Mining Companies and village authorities.

5.0 SWOT ANALYSIS

STRENGTHS

Strengths of the business are –

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

- Promoters have sound experience in this business and have talented Management.
- Rapid growth in sector due to effective management
- Influence & Networking of Directors in the Business Sector.
- Business location is at prominent place.
- Good roads and highway in Tanzania.
- Confirmed business via agreement entered with few companies.

WEAKNESSES

Weakness of the business are –

- New entry in logistics market
- Stiff competition from local market
- Limited market share growth

OPPORTUNITIES

Opportunities of the business are –

- Potential market encourages foreign investors
- Increasing market share due to rail transport limitations
- Augmented demand for world –class logistics and warehousing services

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

- Increased use of logistics services in sectors such as technology, consumer retail, automotive and industrial

THREATS

Threats of the business are –

- Complex Tax Structure
- Unorganised sector and competition
- Different laws in different countries
- Increasing fuel rates therefore increasing transportation costs

6.0 SERVICES OFFERED BY EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED Management understands that your supply chain needs are unique and that's exactly why the company have engaged the best minds in the Transport industry to create specific transport solutions customized to suit your ever-changing cargo movement environment. EAST AFRICAN POLYBAG INDUSTRIAL LIMITED transport vans, trucks and trailers (closed body trailers, flat bed trailers and low loaders) from precision transport are designed to seamless execution, EAST AFRICAN POLYBAG INDUSTRIAL

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

LIMITED dedicated cargo transportation professionals are engaged at every step of the way to provide the services with the most accurate transport and economical transportation arrangement that the industry has to offer.

7.0 COMPETITION

According to data available there are more than 15,000 trucks registered in Tanzania and EAST AFRICAN POLYBAG INDUSTRIAL LIMITED plan to compete favorably with local and foreign companies

8.0 FINANCIAL ASPECTS FOR THE PROJECT

(i) Projected Profit and Loss Statement

The attached Appendix I shows the projected income for the 8years period. The position depicted is that the project earns profit throughout its life. Accumulated after tax profits grow from. **US\$ (204,540.00)** in the 1st year to **US\$ 7,830,480** in the 8th year.

(ii) Projected Cash Flows

The project's cash flows are shown in Appendix II. They depict a good liquid position right from the first year. Cash accumulation builds up from **US\$ 624,540.00** in the first year to **US\$ 7,709,520.00** at the end of 8th years of the project's operations based on the 120 trucks and trailers obtained.

(iii) Projected Balance Sheet

The project's assets cash flows are shown in Appendix III. Owners' equity grows from **US\$ 1,587,000** in the first year

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

to **US\$ 3,020,460** at the end of 8th years of the project's operations based

(iv) Payback Period

Total investment is **US\$ 5,587,000** cash accumulation in 5th year **US\$ 5,891,100** which is more than the initial investment by **US\$324,990**, The project payback Period is exactly 5 years.

The project has a relatively short payback period. It is remarkably impressing for a project whose investment is as big as **US\$ 5,587,000** is being recovered within 5years.

(v) Loan repayment

Total investment loan is **US\$ 4,000,000** to be repaid within 5 years.

9.0 ECONOMIC ASPECTS OF THE PROJECTS

Besides the financial/monetary returns to the owners, there are other benefits to be derived for the whole country viz.

(i) Employment Opportunities

Employment and poverty reduction are among the major concern of the Central and the Local Government authorities. It is gratifying to note that the company, is going to provide additional employment to 141 people. This is a significant contribution coming from local investors.

EAST AFRICAN POLYBAG INDUSTRIAL LIMITED

P. O. Box 2339, DARES SALAAM

(ii) Revenue to the Government

The Project is expected to pay a substantial annual amount in the form of corporation tax and other taxes

10.0 CONCLUSION

- (i) The project is profitable and contributes to government revenue by way of taxes.
- (ii) The project provides employment to 141 people.
- (iii) The project is an encouraging sign to prove that we have good business environments and we have investors who have confidence in their country. Tanzania so much so that they are ready to invest such large sums of investment despite the odds of the sector in question.

11.0 RECOMMENDATION

After the foregoing economic and financial evaluation of the project, we strongly recommend that this project be implemented and be given all the support required by all the concerned Government Ministries and Agencies, including the Tanzania

Revenue Authority, TRA and the Tanzania Investment Centre – (TIC). The project deserves this support because of its viability, since it is technical feasible, economically viable and socially acceptable.
