Dear Sir,

## REF: CERTIFICATE OF INCENTIVE

Together with this letter we enclose using IT technology a detailed business plan to support our application. We have taken trouble to annex together with the said Business Plan all the key legal and administrative documents save for building permit which is still following administrative process at the city of Arusha. Once we get the same from town planning department at the city will permit the same to your good office, take not also that the E.I.A.R together with TALA licence will be applied once the hotel will be ready to operate through application of E.I.A.R we have started the process by paying registration fees of the same.

Kindly go through all these documents and on our part we are waiting your approval to enable us pay fees for both registration and that of certificate of incentive.

Kindly let us be informed if any additional information will be required or clarification from our end.

I am Sir,

.....
