RE: APPLICATION LETTER.

Dear Sir/Madam.

Referring to the heading above, we as **INVICTUS COMMERCE TRADING LTD.**, we are a new company and we started running the company on October 2022.

Due to us being new we previously in 2022 started business of importation and we are looking to expand our business into a manufacturing field in packaging of raw materials.

We would like to request to apply with TIC "TANZANIA INVESTMENT CENTRE" for various of business benefits and also for the protection and guidance of the government due to the risk our business will have in nature.

Furthermore we would like to inform the management of TIC that the bank statement attached is a previous copy for we have failed to get a recent copy due to the bank charging almost \$50 of every month's statement,

We would like to inform TIC, that almost 25% of our capital funds are cash in hand and we are working on bringing the packaging machines from abroad and we couldn't transfer the funds to Tanzania due to the dollar crisis, we assure TIC that we will reach the target set of \$500,000 set by the facility within 5 years of running the business.

We are looking forward to our request being granted as soon as possible, in-order to accomplish our business targets for the coming years.

Thank you.

Regards.
