REF: CONFIRMATION OF CARBON TRADE FOR KARATU DISTRICT

Refer to the heading above.

I would like to inform you that Carbon Tanzania is our stakeholder engaging in the project of carbon trade since 2022 through Yaeda-Eyasi Carbon Project. The project is operating within seven villages of Jobaj, Mbuga-Nyekundu, Dumbechand, Endesh, Qangadend which are in **Baray Ward**, while Mikocheni and Endamaghang villages are in **Endamaghan Ward**.

Through this project, the District and the mentioned villages are benefiting in terms of environmental conservation and development projects.

At the council level, income from the project has facilitated the council on undertaking environmental conservation activities including forest protection, tree planting campaign and capacity building to other villages which have natural forests.

To the villages, it has raised awareness on forest protections while discouraging deforestation.

With these regards, I recommend that, the project is viable in Karatu District Council.

Yours Faithfully.

RE: CONSENT OF MANAGING AUTHORITY TOWARDS CARBON TRADING PROJECT

Please refer to the heading above

2. Mbulu District Council through its 5 Villages which are Yaeda Chini, Domanga, Mongo wa Mono, Eshkesh and Endanyawish have entered contract with carbon Tanzania (CT Limited) for Yaeda –Eyas Carbon Project since November 2020. The goal of the project is to protect biodiversity, natural forests, which is key to conservation, especially to Hadzabe community who largely depend on the forest for food, medicine and largely their living and to support other forest surrounding communities.
3. Through this letter I would like to inform you that, all 5 villages and Mbulu District Council have agreed with the project and promised to continue cooperating with your office and Carbon Tanzania as our investor towards mutual benefit for our community. As required by Carbon Trading regulations through section 18 (d), we humbly provide our consent for Carbon Tanzania (CT Limited) to proceed with following steps towards registration of Yaeda Eyasi REDD Project.
4. We would also like to inform you that, Carbon Tanzania and Mbulu District Council have started the process of renewing contracts to reflect requirements of the regulation. We have consent from the aforementioned villages, and currently we are reviewing internally to send TAMISEMI for vetting and later signing the contract to start project implementation.
5. Yours faithfully

RE: CARBON TANZANIA LIMITED

Reference is made to the above caption.

2. The work of Carbon Tanzania Limited has been of great achievement from the time it started working in Kiteto District Council in 2017. Its engagement with 5 village communities of Makame Wildlife Management Area) in the area of natural resources conservation has brought significant and positive changes in areas of forest conservation, community livelihoods and rural/local capacity to address challenges of natural resources conservation.
3. The engagement of Carbon Tanzania Ltd in Makame WMA in Carbon offsetting project in Makame Wildlife Management Area has brought about positive change in rural development agenda. There has been great improvement in education sector health sector, job creation and conservation of natural resources. All these achievements have been a result of good work and proper coordination of Carbon Tanzania Ltd in benefit sharing accrued from carbon offsetting project being implemented in partnership between carbon Tanzania and Malame WMA.
4. We, Kiteto District Council, feel the pleasure and are ready to maintain existing partnership with Carbon Tanzania Ltd which has proved to be vital in helping to enhance efforts of the government of Tanzania to improve livelihoods and reduce poverty in rural areas.

Thanking you in advance for the support of your good office.
